These conditions are how to make the secret available in the shop, you still have to buy them after they appear:

01-33 To get a characters new colors, beat the game with that character either groove, buy for 200vs.

34-61 To get the EX version of a character, beat the game with that character in their groove, buy for 2000-7000vs.

note: Evil Ryu and Orochi Iori are their EX versions and appear separate.

62 To get to fight Gouki beat the game. buy silhouette for 500vs.

To fight Gouki, get to the last stage with over 80gps. You can loose a round and continue. You do not need to have super combo, or s finishes to fight him (but it helps)

Some people have stated that you need 95+ gps to fight him, I personally have fought him with only 81 gps. I did get have super combo finsihes for most rounds. My guess is that the more super combos you do the lower the gps has to be. For example 7 super combos need 80 gps while 1 super combo needs 95 gps.

63 To get to fight Morrigan, beat the game with all Capcom characters, buy silhouette for 700vs.

To fight Morrigan, play game in Capcom groove have over 60 gps after the 3rd round, you can loose a round. You need at least 4 super combo finishes.

64 To get to fight Nakoruru, beat the game with all SNK characters, buy

silhouette for 700vs.

To fight Nakoruru, play game in SNK groove have over 60 gps after the 3rd round,

you can loose a round. You need at least 4 super combo finishes.

65-69 To get Vega(M.Bison), Geese, Gouki, Nakoruru or Morrigan Stages selectable, beat Vega(M.Bison), Geese, Gouki, Nakoruru or Morrigan, buy for 1000-1500vs.

70 Secret stage, variant of Thailand (Sagats Stage)

This stage randomly appears, after you fight on it in the Arcade mode becomes selectable, buy it for 1500vs. You may have to beat the game after fighting on it. You also need to have Gouki (unconfirmed).

Easy way to make it appear, from Ryan44 (ryan44@ata.attmil.ne.jp): Play till you

get to Thailand, then have a second player join in, fight until it changes.

71 To get Pair Play mode, beat Morrigan and Nakoruru. Buy for 1800vs.

72 To get Ratio edit, beat Gouki. Buy for 1500vs

73 To get Extra Themes (new music) beat Pair Play mode. Buy for 2000vs

74 To get Morrigan you must beat Morrigan AND BUY all the Capcom EX characters, buy her for 8000vs.

75 To get Nakoruru you must beat Nakoruru AND BUY all the SNK EX characters, buy her for 8000vs.

76 To get Gouki you must beat Gouki AND BUY both Nakoruru and Morrigan you must also have bought "extra themes", buy him for 9500vs.

77 Run/Dash Still unconfirmed, (but getting there)

You must Buy Nakoruru and Morrigan, You do not need Gouki.

You Must beat Pair play mode three times. You must beat the game on level 8.

Try this and comment, so I can track down the requirements. Please E-Mail me your results results, I will credit any significant findings.

Best Way to get Points:

1: Neo Geo Pocket, you can transfer points from SNK vs Capcom: Match of the Millennium to the Dreamcast. This requires the Neo Geo Pocket to Dreamcast link cable and the game. You can earn an average of 9999 in about 45 minutes. Or if you're good at catdance only 15 minutes :)

2: Gameshark, cheaters never prosper, but then they do have Gouki...

3: Hack your save file, with the DCI link, see Gameshark

4: Leave the game on Training Mode, you will earn 999 points in a couple hours, it maxes out at 999, so exit and re-enter often.

5: Play the game, you get between 300 and 500 for beating it, difficulty does not matter, and about 150vs per hour of VS mode playing

6: If you are lucky enough to have access to 2 Neo Geo Pocket Colors, the NGPC link cable, Card Fighter Clash (with all 300 cards), Match of the Millenium and the NG -> DC cable. When you do pocket link with the two NGPC games if you have all 300 cards in CFC, it gives you all the secret characters and 5000vs in MotM.

Upload that to CvS, reset MotM so that it's brand new, reupload the CFC data, get another 5000 vs., repeat as desired. Granted, only a few people are apt to have all that, but in about 5 minutes you can get 25,000 VS. Submitted by: Hunter (hunter@brawl.org) Authors note: warning, you will loose all your high scores, olympic medals and extra moves you bought in olymics mode.

All total the secrets cost 123,200 points if you earn an average of 400 points play through it would take 308 times to get it all, at an average of 20 minutes of play that's 102.7 hours! Conversely you can rack up 9999 in an hour on the NGPC, which you would have to do 12.3 times so only 12.3 hours. Man does it reward you for the owning both! I'm all for playing and unlocking stuff, but that's a lot of effort for a fighter, what do you think?

If anyone can confirm secret 77 tell me, I'll credit you.
