III. Introduction

Hello and welcome to my Move/technique FAQ for the Dreamcast RPG Grandia II.

If you are reading this you are most likely one of the following.

1. In need of help
2. Checking out what the game is about.
3. Incredibly Bored

I can help you with all these problems. This is an excellent game, best I've ever played, and I'm glad that you've decided to come to MY Faq to find out mor about it. So without further ado ??? (Did I spell that right)? On to my FAQ!

IV. Using Techniques

In the Game Grandia II, each character has 4 unique special moves (techniques) that they can use. These moves are the bread and the butter, the meat and the potatoes, you know what I mean. They deal the most dameage and are the most powerful moves in that specific characters arsenal. Techniques use SP or Special Points. The SP is shown by the green bar at the top of the screen. Each Techniques uses a different amount of SP. To use a technique, while in battle, select the Moves/Magic Icon when your character reaches the com position on the IP bar.

-----  
Com Act  
-----

You are here

After selecting the Icon, you will bring up a menu with your Techniques. Only techniques learned will be displayed and only techniques with sufficient SP will be selectable. After selecting your desired move, your Icon on the IP bar (as shown above) will move to the ACT on the bar. At that point Your move will be performed. That's all there is to it!
