|1.1 - What is PSO? and all that junk.|
```
   PSO is an online RPG on Dreamcast. In it, you create a character, and take control of
that
character as you try to discover what happened to the inhabitants of Pioneer 1, the
colonization
craft sent to Ragol before your own. (And that's really all that's relevant to this
guide.)

```
 _____
|1.2 - Introduction to Character Creation|
```
   PSO has an in-depth character creation feature when you first start up the game. You
can change
face, skin tone, hair style, hair color, and costume color. Granted, it's not the most in-
depth in
the world, it still allows a lot of room for custimization. This FAQ will cover how to
make
characters that look like people from other places.

|2 - Characters|
    The collection of characters is small for now, but I will be adding more as I examine
my Guide
and figure more out/have any sent in. Any character costume number 8 or 9 will require
that you
input the special code for that character (covered in section 3)
    BTW, if you have someone I haven't listed, please email me the information at
josris@home.com and
I will add it to the guide, crediting you.

   Credit goes to Sega and Sonic Team, of course, 'cause if they hadn't made this game,
this guide
wouldn't have a reason to exist and me making it would make people think I was crazy. ^_-

   Thanks to Versus Books for making their "Perfect PSO Guide", which, without the
Character
Creation section of, it would be MUCH harder for me to find what characters I can make.
And, thanks
to my dad for buying that guide for me on a whim.

   Thanks to my friends Matt and Michael, Matt for getting me hooked on RPG's by
introducing me to
FF7, and Michael for talking about PSO non-stop in December and making me want the game so
badly.

   Thanks to my friend Grayson for making the kick arse ASCII Art and giving me permission
to use
it.

   Thanks to those mentioned above as credit for telling me how to make certain
characters.
