2. Coin Guide (the meat of this faqs)  
-----

Rush 2049 has many secret coins in its tracks. Some are easy to get while others involve some insane and precise driving. Both systems include the coins in the same place. Most of the coins I have collected so far can be found in this guide. Remeber that you get secret cars for collecting these coins. You can also show off your coin welth to others.

List o' Coins

Track	Silver	Gold	Total
-------	--------	------	-------

-----

1	8!	C	8!	16/16
2	8!	O	8!	16/16
3	8!	M	8!	16/16
4	8!	P	8!	16/16
5	8!	L	8!	15/16
6	8!	E	8!	16/16
		T		
		E		

\* = this symbol next to a coin represents that I have not actually gotten the coin.

-----  
>>Track 1 - Marina  
-----

#### Silver Coin 1

When you start the race stay on the left side and look for a tunnel. Your first coin is waiting there.

#### Silver Coin 2

Once you get out on the tunnel stay on the right side. You will pass a gas station then you'll see office doors. Run in there and drive over the fountain inside for the coin.

#### Gold Coin 1

After you get silver coin 2 continue on. Keep you speed to about 35 mph. You should fall out and pick up a gold coin.

#### Gold Coin 2

There is a another gold coin on the otherside of the track of Gold Coin 1. You'll have to go back up the track and make the 'big' jump to get it. Just stay in the middle of the track and make yourself face alittle to the left. Its not as hard as it looks.

#### Silver Coin 3

After the jump you'll go through a tunnel after you exit the tunnel head to the right and look behind the building. Another Silver coin.

#### Gold Coin 3

After you collect Silver coin 3 stick to the right on the track. You should eventually see a tunnel with cones in front. Head in and make sure to hit the switch. When you get inside follow the tracks left. You should find a gold coin sitting there.

#### Silver Coin 4

Once in the tunnel head to the tunnel in the left. It should take you back outside. When you jump you'll collect another silver coin.

#### Gold Coin 4

If you made the jump just continue on the road to find a gold coin.

#### Silver Coin 5 and 6

After the loop and landing back on the main road start driving in the wrong direction. Before you reach the reactor tunnel you should be able to find a number of coins. Theres a Silver coin to the left and another silver coin to the right.

#### Gold Coin 5

Now head through the reactor tunnel and stay on the left. Head towards the blue ramp and you should land on a blue platform with the gold coin.

#### Silver Coin 7

Now turn back around so your facing the right way again. Stay to the right where the office building is. Between the outdoor elevators is a small opening. Theres the silver coin.

#### Gold Coin 6

After that turn around to face the right way again and look for a switch to the right. Once you hit the switch stay to the left side. You should eventually see a tube like opening. Go in it for another gold coin.

#### Silver Coin 8

At the start of the race again stay to the right side. You should find some buildings. Behind one is the silver coin.

#### Gold Coin 7

Play the track in reverse and go into the subway near the beginning of the track. When in the subway stay on the left side and after the left turn the coin should be strait ahead.

#### Gold Coin 8

At the start/finish line turn around and go to the wall on the right. There will be small openings and one of them has the final coin.

-----  
>>Track 2 - Haight  
-----

#### Gold Coins 1 and 2

As you start the track head to the grassy area. You should find a small road there. Before you past the remote building to the right there should be a gap to the left of the road. These coins are very tricky to get. Get some ramming speed and try to gently touch the concrete in the middle. You should end up being on 2 wheels and slide into the vertical crack. 2 gold coins await. Have patice with this one. Its hard but possible.

#### Silver Coin 1

Staying on the side road where Gold Coin 1 and 2 are gain some speed and hit the switch. A Platform will rise and you will make a jump to a building in front. Keep going and jump again to the grassy hill. Now stay to the left side. You should see a set of tire wheel skids. Just keep your speed and line up to them. You should fly towards the right side of a windmill. You'll see the coin but watch out for the propellers.

#### Silver Coin 2

After you pass the long straight away with the many buildings. Turn left just before the lake. Keep going straight to the wall then turn left.

#### Gold Coin 3

Get back on the main road and keep going. You should pass the gas station thats on the left. Now look for a switch on the right side. Hit it and move back to the left. You should see a passage. Keep going and run through the windows. Now stay inline with the dirt road and jump on a coveyer belt jump pad. You should be flying a see a hanging platform over the freeway. Get in there and stay to the left and hold the brake. If you manage to stay on the left side of the conveyer belt go to the end and fall off to another floating platform. There it is.

#### Silver Coin 3

After that go back on the freeway and turn around. Gain speed and jump the tall ramp to the right. You should come to a cave with green lights on the ceiling. Follow them and the coin is there at the top.

#### Gold Coin 4

After you pass the tunnel with green lights keep going and gain speed. If you stick slightly to the right you'll crash into the wall where the coin is which is near the main road.

>>Once you get to the end of the freeway this would be the 3 freeway exit point.

#### Silver Coin 4

Take the right road at the 3 freeway exit point. Now stay on the level with the trees and stay on the right side. The coin is just pass the small conveyer belt.

#### Silver Coin 5

Just before the finish line there are 2 lava lamp looking structures. The silver coin is floating near the left one. Just ram into the structure at about 20 mph and sooner or later you'll touch it.

#### Gold Coin 5

Near the lava lamp structure on the left side of it there is a cave. Go into it and stay on the left side. You should hit a ramp upside down and fly to the coin.

#### Silver Coin 6

After you enter the tunnel where you found Silver Coin 3 go into the fenced area just before Gold Coin 4

#### Gold Coin 6 and 7

From the Start/Finish turn around and go backwards, follow the right wall to find the tunnel. Go through it at about 80 mph, flip around so you stop and land on the ground in the tunnel. There is a small opening that leads to an underground stunt track on the left wall. You'll find the coin in mid air in the middle of the secret area. The second coin is down a shaft on one side with a conveyerbelt moving towards the main area. Get lots of speed and jump in there.

#### Gold Coin 8

If you turn around at the starting line, head strait and turn right at the lava lamps. Go up the hill and stay on the left dirt road in an angle. You should fly to the second level of the parking garage. The coin is up there.

(Contribute by Greg Carson)

#### Silver Coin 7

After Silver Coin 3 (in the cave with green lights on the ceiling)容exit the cave and stop. On the left side of the cave is a tree. A silver coin is hidden in the tree. You need to turn around and drive up the wall to reach it.

(Contribute by Eric C.)

#### Silver Coin 8

Turn around at the starting line, head strait and turn right at the lava lamps. Go up the hill and stay on the right dirt road. You should fly Above the tunnel that leads further into the track.. The coin is up there.

-----  
>>Track 3 - Civic  
-----

Silver Coin 1

When you start the race and cross the first bridge turn around and head off road to the left. Now in the ditch go under the bridge.

Gold Coin 1

At the start of the race there is a secret road to the right. Get some speed and jump off the dirt ramp and you'll collect the coin in the air. Note- Its easier if you complete the lap and before you get to the last section, the last turn stay to the left. Jump off the conveyer belt and on a high rise glass platform. This will lead you to the same place but skipping the dirt area.

Silver Coin 2

Continue on to the area where you race under a couple bridges. Just before the turn to the left find the last bridge and head to the right side of it. You should find an enterance and be able to drive over the road to the left. The coin waits there.

Silver Coin 3

After you make that turn to the left go off road on the right side of the track. Search behind one of the buildings for the coin.

Gold Coin 2

Now head back to the straight away with the bridges. Before you get to the turn, turn around. Stay on the right side and gain speed. Once you see the gap slightly turn right and run over the switch. A building ahead should open up and you will fly through it to land on a levitated road. Stay on this road and you should enter a building with strange walls. Stop here before you get out. Now go about 30 mph and you should fall on top of another building. Circle around it to find the coin.

Silver Coin 4

After the figure 8 area you'll pass the section with the planes flying over. Just after you make the right turn go off road to the right and behind the building is the silver coin.

Gold Coin 3

The gold coin is in the same area as Silver coin 4. Look for a gap between the buildings where a small grassy hill can be found. Use this hill to get on top of the building with the coin. Its a bit tricky.

Gold Coin 4

This coin can be found in the last area of the track, the long straight away. Head to the left and go on the conveyer belt but ether slow down or get a stick feel to the wall before you jump. Try to get yourself to the center of the road and on a platform. The coin is there.

Silver Coin 5

After that, just past the beam, go to the left side and look for the coin hidden behind to buildings off road.

Silver Coin 6

In the same area but on the right side of the road is another Silver coin.

#### Gold Coin 5

Just before the finish line turn around behind the last building to the left. There's a secret entrance. Go through it until you come to the section of the road where it's broken. Slowly drive down it and on the dirt. The coin is on a small ledge sticking out.

#### Gold Coin 6

Go to the satellite shortcut which can be found after the figure 8 track area. It's on the left side. Enter it backwards and gain some speed in the tunnel. Jump off the conveyor belt ramp and you hopefully might catch the coin in mid air. You might have to do this one several times.

#### Silver Coin 7

After the right turn just before the multi bridge area stay on the right side and you'll find an opening with the coin inside. It's before Silver Coin 2.

#### Gold Coin 7

Just before you reach the figure 8 track area, stay on the left side of the track. Take the first left fork in the road. You should see a small grassy bump to let you drive on the building. Drive on the building and go in the opening to the right. The coin is on the next turn left.

#### Gold Coin 8

Before you reach the finish line and just after the last turn, stay on the right side and take the right shortcut. Go through the tunnel and before you jump out slow to about 50 mph. Land on the buildings and slowly move on. Turn right when you can to find the last gold coin.

#### Silver Coin 8

When you get to the figure 8 track area. Go left at the first fork in the road and keep going to jump 2 times over the gaps. You should get near the gigantic dish. Go to the end of it and ram up the smooth part of it to get to the roof which is under the dish. The coin hides around the right.

-----  
>>Track 4 - Metro  
-----

#### Gold Coin 1

After the big 270\* turn gain speed and jump off the road in an angle to the right. You should land on the buildings and it's hiding behind a small third story structure.

#### Gold Coin 2

Once you get to the area with cones and the turn to the right, turn around and head back and gain some speed. You'll find a coin in mid air.

#### Silver Coin 1

After the first half pipe section gain some speed on the straightway. Now either turn slightly to the left or the right. You should land on a blue upper road. Keep going until you're in the middle and turn slightly left to land on a clear platform to the left. Now you should land on a gravel roof. Go

around it to find the coin hidden behind another building on top.

#### Gold Coin 3

Now turn around and head back the way you came and gain speed. Stay in the middle of the road and you should fly to the coin which is in mid air.

#### Silver Coin 2

When you reach the second half pipe turn left between the buildings to find a silver coin.

#### Gold Coin 4

When you get to the second half pipe stay in the middle of the road and turn to the left when you reach the pillars. You should find a secret shortcut that goes straight up. Once you reach the top you will fly in mid air and hopefully touch the coin thats is up there.

#### Silver Coin 3

The silver coin is on a platform just right of the top of this secret shortcut. Try turning slightly to the right.

#### Gold Coin 5

On the platform where you find Silver Coin 3 continue on it and fall to a full half pipe area where the coin is resting.

#### Gold Coin 6

This coin is on top of the red building just past the secret shortcut. You have to fly really far to get it. Its hard.

#### Silver Coin 4

Go back to the second half pipe area and continue forth. When you reach the cones and the freeway leg go straight to the buildings and behind it is another silver coin.

#### Sliver Coin 5

After silver coin 4 go back on the main road and look between the buildings to the left side. One where its a tight squeeze holds a Silver Coin.

#### Gold Coin 7

After you find gold coin 5 slowly drive out of the half pipe to find another platform which holds another Gold Coin. From here go about 50 mph off this roof and to the red builing roof to pick up Gold Coin 6.

#### Silver Coin 6

After the first quarter pipe continue on. Past the part where you see the bay to the right. Keep going and soon on the right side you'll find a switch. This opens up a door up ahead before a 1208 turn to the left. The coin is up the loop.

#### Silver Coin 7

Before you make the big jump right before the first quarter pipe look in between the buildings to the right to find the coin.

#### Gold Coin 8

Get to the shortcut that goes strait up (where you find gold coin 4). Follow to the top and cotinue as fast as you can once you reach the flat part at the top then turn to the area on your right where your would drop down to the miniture half pipe (to pick up gold coin 5). But instead of dropping down go of at the corner on your left. You should land on a building where the coin awaits you.

(contribute by Matt)

#### Silver Coin 8

After gold coin #2, just past the cones, turn right at the first 'T' intersection. On the right side at the end of this street there is a church with blue steps. There is a small path on the right side by the trees that leads to a silver coin!

(contribute by frozen\_solid\_16@hotmail.com)

-----  
>>Track 5 - Mission  
-----

#### Silver Coin 1

As you start the track steer slightly to the right and hit the ramp at an angle. You should fly to the buildings on the right side. The silver coin is hiding up there.

#### Silver Coin 2

Continue on to where the track merges back together again. Stay on the right side and when you see an opening steer into it. Now turn left. You should see a switch and an opening in a building just past it. Go on either side of the opening to find another Silver Coin.

#### Gold Coin 1

If you turn around on the main road after collecting Silver Coin 2 and keep driving you should eventually see a conveyerbelt going inside a building. Go on it but try braking as much as possible so you stay on the platform just past the conveyerbelt. After that go on a thin platform over the main road to collect the coin.

(second way)

There is an easier way to get the coin. Just before you go into the corridor for the Silver Coin 2 turn around and just to the right is a blue building ramp. Get to the top but don't fall over. Stay on the right side and carefully try to get on the level path on the right. turn around so your facing the way you came and give a good amount of gas. Jump on the next roof and now carefully land on that beam you have to cross.

#### Gold Coin 2

Continue on the track to where a switch can be found to apring out a screw-like battering ram. Don't hit the switch, its not part of the trick. Gain a little speed and turn a little to the right so when you jump off you'll land on the roof of a building to the right of a long conveyerbelt. Now turn around and jump off the building at about 50 mph to a small area of another building to find the coin.

#### Silver Coin 3

Just past this long area you will find a right turn. Go off road right before the first set of buildings. You'll find the coin hiding in front of the building.

#### Silver Coin 4

Continue on the road until you get to the section where theres a big lake to the left and the road becomes hilly. Go offroad to the right to find a rather important looking building. The coin sits in front of the front doors.

#### Silver Coin 5

Keep go until you come to the section where you have to make a rather sharp left then a right. After that past the first intersection and then turn right at the second one. Now turn left and head straight to find the coin.

#### Silver Coin 6

After you get Silver Coin 5 turn around and turn right. Keep going over the main road and find an opening on the left side building. To get in get a little speed on the main road. Careful there are lots of little structures inside to make to blow up. Go inside and look behind the Cargo on the right for another coin.

#### Gold Coin 3

After getting Silver Coin 6 you'll find an opening up ahead. (You can also use this opening to get in.) You'll see a path on the right side. Go on it and gain speed but don't go full throttle. Before you jump turn slightly left to land on another platform. Now go through the small crack to the right of the building for a gold coin.

#### Gold Coin 4

Go to the small warehouse where you found Silver Coin 6 and go through the hidden track going backwards on the track (the same way to get Gold Coin 3). Before you make the first jump turn to the left to land on the tall building. Now look for the bridge to collect the coin.

#### Gold Coin 5 (with secret entrance)

From the area you got Silver Coin 5 turn around and stay on the wall to your left. You should turn and find a small red barrier. With luck you can make it over it with a little ram power and make it on the other side. You can now go to a secret area and go on a pier to safely climb the boat. Look for a tunnel near the pier to find the coin. You can also just try to jump on the boat to reach the coin.

#### Gold Coin 6

Go back to where you found Silver Coin 4 and make the turn right. Now stay on the right side of the road and you should find an opening with green glass walls on either side. Go into the route and stay straight. You should eventually come to a quarter pipe with a whole pipe on its left. Go straight up the quarter pipe and turn slightly to the right. After the flip you'll see the coin on a long thin platform to your left.

#### Silver Coin 7

Using the same tactic to enter the secret shortcut as Gold Coin 6, keep to the right side of the wall and you should find a small opening go in it and look around for the coin.

#### Silver Coin 8

Go to the area where you found Silver coin 7. Slow down before the ramp that leads up to the quarter and whole pipe and turn right. You should be inside the area with a big fish tank and some buildings. Turn left RIGHT after going into that area and stick to the wall with the green and orange glass above. Keep going straight along the wall and you'll see the last silver coin straight ahead. It looks like you might not be able to get to it but you will. It's slightly hidden but you'll see it if you follow the directions.

(Contributed by Robert)

#### Gold Coin 7

Do Track 5 backwards. After going down the hill and taking a left, take

the next left then right turn through those buildings. On the left you should see the ramp leading up to the green glass walls and the whole pipe. Go inside the whole pipe and hit the switch, then come back out EXACTLY the way you came. Don't take the shortcut on the left. Stop under the little bridge that is gold and black and turn around. Go forward as fast as you can and take the turn wide and then cut back to the right and go inside the two car length wide yellow tunnel. Cut slowly across to the left at the edge and you should land on the big left- curving gray ledge ahead. Continue going as fast as you can and you'll jump on a little platform don't slow down. You'll see a switch to the right, but DON'T hit it. Just before the edge on the jump do a controlled right turn, and you should be going fast. If you followed the instructions correctly, you'll land on a brownish building to the right with a big H with a circle around it. The coin is just to the right of the H.

Note: This may take a few tries to get it exactly right. Landing on the H brown building can be tricky but you'll get it eventually.

(Contribute Robert Onley)

#### Gold Coin 8

Go to the section of the track there you found Silver Coin 4 or short hilly area. Go back a little to gain some speed and floor it. When you get to the tallest little hill on the left side steer towards it. Hopefully you land on a leveled freeway. The coin is down the road.

-----  
>>Track 6 - Presido  
-----

#### Silver Coin 1

After you exit this first tunnel turn around and the silver coin is waiting on the left side of the tunnels mouth.

#### Gold Coin 1

Keep going until you get to the first set of buildings where the road elevates pretty good. Stay in the second lane on the opposing side road and go about 120 mph to collect the coin right behind the first bridge.

#### Gold Coin 2

Stay on that same lane and put the pedal to the metal. You'll collect this coin in mid air.

#### Silver Coin 2

Right before the switch on the right of the track farther on you'll find an opening and the coin is in there.

#### Silver Coin 3

When you get to the second urban area you will come to a sharp turn to the left. There is a gas station to the left before the turn. Hiding there is the coin.

#### Gold Coin 3

Use the shortcut for Silver Coin 7. Now just continue down the tunnel and when you come out make sure to stay in the middle. You can see this coin in the air just before the second sharp left turn in the 2nd urban area.

#### Gold Coin 4

Continue on the road until you find a curve pipe like platform to the right. Slow abit down and jump at an angle from left to right to get in there. Gain speed on the turn and fly out to collect this mid air coin.

#### Silver Coin 4

After Gold Coin 4 continue on to the next left turn and you'll find the coin on the right side just past the turn.

#### Silver Coin 5 and Gold Coin 5

Go back to the same area where you collected Gold Coin 4. Go on the grassy area on the opposite side of the main road. Continue on it to a clear platform. Keep going and you'll find a Silver Coin. But wait! Act now to get another coin. :) You can go through the wall behind the coin to a tunnel for a gold coin. As you reach the end of the tunnel slow down to a crawl and fall out. Use your wings to land upright and the coin is yours.

#### Gold Coin 6

This one is wild to get. When you get to the second urban area gain speed before you reach that first switch to the right (this is the second right switch of the track). Stay on the right side and start turning left before the jump. You should fly through a watery like opening and hopefully land on a levitated platform. There is a ramp at ones side. Gain speed and jump that. You should land on another small top building. Now go to the left and fall out to yet another roof to collect the coin.

[If you take the course backwards you will eventually find a switch on the left side. Hit the switch and stay on the right to find a ramp. This is a much easier way to get the coin.]

(Contribute by Bob)

#### Gold Coin 7

After you collect Gold Coin 6 continue on to the set of buildings to the right (if you went through the water front enterance it would be more to the left), you'll find the coin sitting in the middle of one of the roofs.

#### Gold Coin 8

After you find Gold Coin 5 stay on the right side. You'll find a path off road and eventually jump into a loop. Slow down so when you reach the top part you will fall out. The coin is in mid air in the middle of the loop.

(contribute by Bob)

#### Silver Coin 6

When you get to the track with that curve pipe structure on the right side go to the otherside and instead of going strait to get Silver Coin 5 go under the clear platform and turn around. The coin is at the end.

#### Silver Coin 7

Head back to the 2nd urban area at top speed. There is a clear platform on the opposite side of Silver Coin 3. Instead of head left for that sharp left turn, head right to go on the platform. The coin is in your path.

#### Silver Coin 8

Use the shortcut to get Silver Coin 7. Continue on past Gold Coin 3 and on the right side is the last silver coin.

=====

### 3. High Scores

-----

Here is the high score section. Lets see how you stand out. The Mike section is the times I personally have made(not including the glitch). There is a player section where you can put your scores. You can e-mail me or send some scan picture of the winning time. If the time looks to... fake I reserve the right not to put it on so don't complain. You have a much greater chance with the picture. So... good luck.

-----Mike-----

=====  
4. Glitches  
-----

The following glitches have been found using the N64 version.  
Its possible they can be recreated for the Dreamcast version but it is untestes.

>>Glitch - Music

Just when I was about to race track 5 I hit the start button and select quit to go back on the title screen. I believe the time when I hit the pause button is just after the announcer says One. The result? The music for track 5 continued on the title screen. Cool huh? But I don't think this happen because of the timing. I've notice pauseing the game before a race begins and then unpausing to find out the music is halfway through already.

>>Glitch - Track 1

Right where you pick up Silver Coin 4 look off at the distance to the left. One of the hanging trams seem to be stuck or something. It just keeps shaking left and right in a funny way. Is there some super secret to it? E-mail me if you find out.

>>Glitch - Crash Bug!

Guess what? I have gotten a game crash. It was on Track 5. In the area where you find the Gold Coin 2. I landed on the long conveyerbelt on the right side of the track. I started straching the side of the wall and aborted. I was placed back on the track but nothing moved except for the coin display and also my car was flashing. I had to reset.

>>Glitch - Scores

I don't know if this has happen to any of you but it sure did for me. On track 1 it tells me I have complete a lap in 3.747 seconds! This was the second race lap. The third lap had the time for that lap as well as the rest of the second lap. It also happen on track 4 with a time of 4.024 seconds. Apparendly there are still some bugs left.

>>Glitch - Track 3

In the area where you found Silver Coin 1 go to the right side of the ditch. Now drive up the left side wall and the background will disappear until you reach the ground again.

>>Glitch - Laps!

If you take a look every now and then at the track select screen on Single Race, the number of laps is might end up being 0. I have no idea how this happen but when it does try playing it that way. Its like playing in Practice mode but everytime you make a lap it'll say something wrong followed by "laps to go". I got 'Rush laps to go' for the first and it started counting upwards (i.e. '2 laps to go' followed by '3 laps to go' ect.). After lap 5 or 6 it just made sound effects followed by the usual 'laps to go'.

>>Glitch - Odd angle

Sometimes when you race and crash you might abort back on the track with the camera angle slightly to the left of the car. There does not seem to be any real way to produce it again at will but it can be alot of fun to race with.

>>Glitch - Track 6 (DC)

About 3/4 way through the track you come to the top of a hill with a left turn that climbs another hill. There is a building here that

does not have a 90 degree corner, but instead has two 135 degree angles.  
(There is a gold coin right before this point, floating above the road). Start on the left side of the road and hug the building (going about 20-30 mph), when you get to the first 135 degree corner, turn into it sharply, if you can do it right without the camera angle changing, you will go into the building. Your view is all messed in here, and if you go too far, you're fall (and fall and fall) and eventually hit a "dead area" sending you immediately back to the road.

=====  
5.Secrets

-----  
  
>>Secret    Underground stunt track  
On track 2 going backwards, follow the right wall to find a tunnel. Go through it at about 80 mph, flip around so you stop and land on the ground in the tunnel. There is a small opening that leads to an underground stunt track on the left wall.

>>Secret Area?   Track 3  
After the figure 8 area stay on the left side of the road. When you get to the area with the jets flying look on the left side for a sort of stretch blue barrier area. You can actually climb over it but lots of invisible barriers prevent you from going to far. Know any ways through or anything else?  
E-mail me.

>>Secret Area?   Track 2  
When you go into the last tunnel before the start/finish line you'll do a couple turns. Before you come out to the open area right before the lava lamp like structures there seems to be 2 yellow lines going right through the wall on the right. Know anything about it? E-mail me.

>>Secret entrance to a hidden area   Track 5  
From the area you got Silver Coin 5 turn around and stay on the wall to your left. You should turn and find a small red barrier. With luck you can make it over it with a little ram power and make it on the other side. You can now go to a secret area and go on a pier to safely climb the boat.

=====  
6. Codes  
-----

The following codes are for the N64 version:  
-----

\*\* This is the first code you will definitely need to put.  
On the main menu screen hold L, R, Z, up C, and right C. You might have to do this a couple times since they all have to be press at the same time. Use the following sigle star codes:

\*Invincibility  
Press C-Right, L, R(2), L. Then, hold C-Left + C-Down and press Z.

\*All parts

Hold L + R and press Z. Release the buttons, then press C-Down, C-Up, C-Left, C-Right. Then, hold L + R and press Z.

\*MASS

Press the following sets of buttons together quickly

1. R and CD
2. L and CU
3. R and CL
4. L and CR

(contribute by k0rn2000@hotmail.com)

\*SUPER TIRES

Tap the following buttons in order:

Z x3, L, R, CU x2, CL, CR, CD

(contribute by k0rn2000@hotmail.com)

\*BRAKES

1. Tap CD x2
2. Press and Hold L and R and Tap CU
3. Tap CU x2
4. Press and Hold L and R and Tap CD

(contribute by k0rn2000@hotmail.com)

\*INVISIBLE TRACK

1. Tap CR x2
2. Press and Hold L and R and Tap CL
3. Tap CL x2
4. Press and Hold L and R and Tap CR

(contribute by k0rn2000@hotmail.com)

\*INVISIBLE CAR

Tap the following buttons in order: CU, CD, CL, CR, L, R, Z

(contribute by k0rn2000@hotmail.com)

\*ALL CARS:

Press the following buttons in order:

C-Left x3, C-Up x3, C-Right x3, C-Down x3, Press and hold L, R, C-Up, C-Left, C-Down and C-Right. As you are holding down those buttons tap the Z Button.

(contribute by k0rn2000@hotmail.com)

\*BATTLE PAINT SHOP:

Tap the following buttons in order

1. Z x3
2. CD x3
3. CL x3
4. CR
5. CU
6. CL
7. CD

(contribute by k0rn2000@hotmail.com)

\*SUPER SPEED:

1. Tap Z
2. Press and hold L and R then tap Z
3. Tap CD
4. Press and hold L and R then tap CD
5. Tap CU x3

(contribute by k0rn2000@hotmail.com)

\*FOG COLOR:

1. Press and hold CU and CR then tap L
2. Press and hold CD and CL then tap R
3. Tap in order: CR, CL, CR, CL  
(contribute by k0rn2000@hotmail.com)

\*Frame Scale

1. Tap CD x2
2. Press and Hold L and R and Tap CL
3. Tap CL x2
4. Press and Hold L and R and Tap CR  
(contribute by dlschmitz@postnet.com)

\*\*Super Start - (default controller setting) Hold L during the pre-race countdown in race mode. Release L and hold R when the countdown reaches "3". Release R and hold L when the countdown reaches "2". Release L and hold R when the countdown reaches "1". If done right, your car will get a boost start.

\*\*Extreme Mirror Mode

When you are on the track select screen highlight mirror and press all 4 of the C buttons. Now move left or right for extreme mirror mode.

The following codes are for the Dreamcast version:

-----

\*\*Cheat menu

At the main menu, highlight the "Options" selection, then hold L + R + X + Y to display a cheat menu at the bottom of the screen. Use the following one star code to unlock more codes:

\*All Cars

Highlight the "All Cars" option on the cheat menu, then press A (2), Y(2), L(2). Hold R + X. Release the buttons, then hold L + A.

\*Invincibility

Highlight the "Invincible" option on the cheat menu, then hold L + X and press Y, A. Release the buttons, then hold R + A + X + Y.

\*Invisible car

Highlight the "Invisible Car" option on the cheat menu, then hold L + X. Release the buttons, then hold R + Y. Release the buttons, then press A and hold L + R and press X. Release the buttons, then press Y(3).

\*Invisible track

Highlight the "Invisible Track" option on the cheat menu, then press R, L, Y, X, A(2), X, Y and hold L + R and press A.

\*Track orientation

Highlight the "Track Orientation" option on the cheat menu, then hold L + R and press X. Release the buttons, then press A, X, Y. Hold L + R and press X.

\*Change Fog Color

Highlight the "Fog Color" option on the cheat menu, then hold L + X. Release the buttons, then hold A + X. Release the buttons,

then hold Y + X. Release the buttons, then hold R + X.

\*Battle Paint Shop

Highlight the "Battle Paint Shop" option on the cheat menu, then hold Y and press R, L, R, L. Release the button, then press X(3).

\*Super tires

Highlight the "Super Tires" option on the cheat menu, then hold R and press X(3). Release the button, then hold L and press A(2), Y.

\*Track Orientation

Highlight the "Track Orientation" option on the cheat menu, then hold L + R and press X. Release the buttons, then press A, X, Y. Hold L + R and press X.

\*Brakes

Highlight the "Brakes" option on the cheat menu, then press Y(3) and hold L + R + A + X.

\*Increase mass

Highlight the "Mass" option on the cheat menu, then hold A and press X(2), Y. Release the button, then press L, R.

\*Super Speed

Highlight the "Super Speed" option on the cheat menu, then hold Y + R and press L. Release the buttons, then hold A + X. Release the buttons, then press A(3).

\*Random battle mode weapons

Highlight the "Random Weapons" option on the cheat menu, then hold L + A and press X, Y. Release the buttons, then hold R + A and quickly press X, Y.

\*Toggle demolition battle mode

Highlight the "Demolition Battle" option on the cheat menu, then hold L + A and press Y, X. Release the buttons, then hold R + A and quickly press Y, X. In this mode, all of the weapons that are picked up will be battering rams. You have to physically hit an opponent to destroy him. This code overrides the "Random battle mode weapons" codes.

=====

7. Secret Cars (both versions)

-----

GX-2	Get 24 Gold Coins in Race Mode
Mini XS	Get 36 Gold Coins in Race Mode
Locust LX	Get all the silver coins in Race mode
Crusher	Get 16 gold coins in stunt mode
Euro LX	Get 24 gold coins in stunt mode.
Venom	Get all the silver coins in stunt mode.
Panther	Get all gold and silver coins in both race and stunt modes.

=====

The End. Thanks for reading. Please read again. :)
