17. HINTS AND TIPS

All of these Collectables are easy to get with the exception of a
few. Its once you start having a bulky collection that it gets
hard to find those damn toys that will finish off the set I have

a few tips to help in these situations:

1. Save up around 1500-2000 Yen and save it. Next head to the machine of which your needed collectable is in and spend all your money on that one machine, maybe you'll get it first time maybe not but if you don't just re-load your save and you'll be back to the point where you had all your money and you can keep trying until you have it.

2. Getting those hard to win collectables in the lucky dip is all down to luck but here is a little tip, Save up about 15 instant win cans (from the drink machines) and go to a Tomato store. When the girl/guy asks to draw a ticket don't press anything and wait for the "A" sign to disappear from the bottom right corner of the screen (or wait till the last swuch sound and don't press anything). You should get a 2 (And maybe even a 1) at least once out of those 15 cans.-taken from svge0828 on GAMEFAQS Message boards.

3. Try starting to collect a certain 'set' of collectables in one go and not starting a new set, so basically stick to one machine and then once you've got all of the toys from there move to the next one. It'll save you a lot of time and you won't end up as confused as you would be if you had half the Virtua fighter toys and half the Virtua Fighter kids toys. :)
