1. Introduction #1#

I have been playing Denki Blocks for ages now and have been stuck so many times its uncountable, and never found a guide, so i have decided to create a walkthrough for it! I hope it helps all the stuck people out there.

I am also making a checklist, so you can print it out and mark off what you have done. This'll make it easier if you need to see what you have missed.

The walkthrough checklist is how far I have currently got with the walkthrough. If you are stuck on a particular level, go see the checklist first to see if I have made a walkthrough to that level.

2. Denki blocks overview #2#

3. Block types #3#

4. Training #4#

This will take you through the training mode.

It's advisable that you get this out the way first
since you can get a few freebies before you even start.
