

# Final Fantasy VI Advance Pro Action Replay Codes

by icevenant

Updated to v1.1 on May 28, 2014

---

Final Fantasy VI Advance 100% Action Replay

---

---

Version 1.1 : 100% rate for some function

---

This is Action replay v3 code made for abusing RNG of some functions.  
These codes are made 100% by Arcrypt.  
Any error caused by these codes is NOT guaranteed.

## Table of Contents

- 0.0 Version History
- 1.0 100% RNG abuse
  - 1.01 Always steal
  - 1.02 Always wind slash(For Kazekiri)
  - 1.03 Always kill (X-Death and Cleave)
  - 1.04 Always sketch
  - 1.05 Always control
  - 1.06 Always casting spell (Weapon enhanced)
  - 1.07 Always counterattack
  - 1.08 Always Throw
  - 1.09 Always get maximum hit of Dragon Horn Jump
- 2.0 Kazekiri modifier
- 3.0 Magicite Shard 100% choice
- 4.0 100% Growth control

---

## 0.0 Version History

- 2014-01-09 Version 1.0 Launched
  - 2014-02-05 Version 1.1, Added Jump and Magicite Shard Code,  
Corrected steal code, Added Growth egg code,  
Corrected credit
  - 2014-05-27 Version 1.1.1, Added site list.
- 

## 1.0 100% RNG abuse

- 1.01 Always Steal

100% Attempt to Steal (Thief knife)

950EAD83 C67163C0  
CDE8AE47 E0DF7372

100% Steal Common Item

ED11B030 02FB5E16  
CDE8AE47 E0DF7372  
8E1A4536 26114D50  
CDE8AE47 E0DF7372  
9BAC7CE6 67AA6F72  
CDE8AE47 E0DF7372

100% Steal Rare Item

ED11B030 02FB5E16  
CDE8AE47 E0DF7372  
8E1A4536 26114D50  
CDE8AE47 E0DF7372  
9BAC7CE6 67AA6F72  
A05A144C 078B0074

It works by assuming normal successful attempt to steal, so the last 2 codes will FAIL if the stolen slot is empty.

Warning:

Never activating both Common item and Rare item steal!

Note that the first 2 line of common/rare item steal make you able to steal even if your level is way too low (less than Target's - 50)

---

1.02 Always Wind Slash (Kazekiri)

This code will always attempt to do Wind Slash, unless all of your enemies is dead.

2D716730 4A108E0F  
CDE8AE47 E0DF7372

---

1.03 Always kill (X-Death and Cleave)

This code will make Zantetsuken and X-Death attribute weapon successfully kill the enemies.

DC4238B0 5C524BD3  
CDE8AE47 E0DF7372  
FA533CA5 163174BC  
8F8E38F6 2C48822A

This code will fail to kill enemies resistant to Instant Death attribute, and Undead enemies will still be revived by X-Death, as they're done by another script.

---

1.04 Always sketch

This code will successfully sketch your enemy. Basically, it makes beret useless.

```
74A514F0 9347ABEF
CDE8AE47 E0DF7372
```

---

1.05 Always control

This code will successfully control your enemy. Basically, it makes Hypno Crown useless.

```
56B837D9 7911E430
CDE8AE47 E0DF7372
```

---

1.06 Always casting spell

This code will let your spell enhanced weapon casting them. Ragnarok will do Flare, Illumina will do Holy, etc.

```
ABEA7D96 0F17BDB7
CDE8AE47 E0DF7372
```

---

Jump will only do the spell at the last jump, if no enemies alive. Master scroll and other properties unsuitable with the spell will still prevent the spell casted. The code below is the solution for Master Scroll prevention.

```
77CB0260 E647C2A4
A05A144C 078B0074
```

---

1.07 Always counterattack

This code will make your black belt useful, since it always counter the physical attack, unless you're not possible to counter it (in example, you're killed from physical attack, frozen, etc.)

```
37946F49 B8BA536C
CDE8AE47 E0DF7372
F234043B 375ACC59
CDE8AE47 E0DF7372
```

---

1.08 Always Throw

This code won't make Shadow to freely throw the item, but make Locke (or anyone using thrown weapon like Sniper) always throw the weapon (on the floating opponent of course. For land, it will do 1.5x damage).

```
C32BE7E4 74C7CCB3
CDE8AE47 E0DF7372
```

---

1.09 Always get maximum hit of Dragon Horn Jump

This code will ensure maximum hit with Dragon Horn (even jump with Quetzalcoatl)

5A290307 0594DADE  
CDE8AE47 E0DF7372  
E8565DC6 2DDF38DB  
CDE8AE47 E0DF7372

---

## 2.0 Kazekiri Modifier

If you feel that your kazekiri is too strong (or too weak), there are some codes to change the spell casted by Kazekiri.

Note that I'm listing MT spell only, since ST spell will confuse your aim (in example, by using flare, your flare target is sometimes(it should be many times) different from your real target).

Please refer to Master ZED's attack guide (or <http://finalfantasy.wikia.com>) for detail about power.

The new spell (Flood, Valor, Gravija, 1000 Needle (cactuar), 10000 Needle, Tidal wave, Enkidu, Excalibur, Excalipoor, Masamune, Dark Messenger) is not available.

=====  
This guide was made especially for the one doing TAS (Tool Assisted Speedrun), in which RNG abuse is required. The second part is the extension of Kazekiri (aka Tempest) manipulation (Not for TAS though).

Thanks to Square Enix for making this game

Thanks to Lord J, and all of FF3usME contributors for their tools (it helps me a lot)

Thanks to GameFAQS for hosting this guide

And Thanks to YOU for reading it. Hope this guide's useful.
