FIRE PROWRESTLING ACE
Specialty & Finisher List
v1.0 by PuroGeek (jacquismo@hotmail.com)
(Best viewed in MS-EDIT)

This guide will give you each character's specialties (usually four), along with their finishing move. Now you can finish your opponents in style, just like the real wrestlers!

Note that this FAQ is based on the Japanese version of Fire Pro A, but is also influenced by the U.S. version of the game. For instance, I may change some move names to be more like the American version. Nonetheless, this guide will work for both versions of the game.

Quick Key:

u - Up on Control Pad
f - Forward/Back on Control Pad
d - Down on Control Pad
A - Button A
B - Button B
AB - Buttons A & B Together

(r) - while Running
(c) - as a Counter (as the opponent is running towards you)
(rc) - while Running to the Corner
(ro) - while Running to the Outside of the ring
(so) - Springboard Outside the ring from the inside
(si) - Springboard Inside the ring from the apron
(td) - on the top Turnbuckle while the opponent is Downed
(tu) - on the top Turnbuckle while the opponent is standing Up
(g) - while Grabbing the opponent
(bg) - while Grabbing the opponent from behind
(bd) - Back Defense (as the opponent grabs you from behind)
(duh) - while the opponent is Downed, face Up, positioned at their Head
(dul) - while the opponent is Downed, face Up, positioned at their Legs
(ddh) - while the opponent is Downed, face Down, positioned at their Head
(ddl) - while the opponent is Downed, face Down, positioned at their Legs
(rd) - while Running towards a Downed opponent
(cg) - while Grabbing an opponent dazed in the Corner

Notes:

- Promotions are listed by the order of the Japanese version, which starts with View/New Japan, rather than AFW/WFW/WWF.
- Wrestlers are listed by order in which they appear on the list of their promotion from top to bottom.
- Some move names have been changed to the specialty name given to them by the wrestler that performs it. Others are just due to personal preference.
- I'm not perfect. If you find any mistakes or additions (especially specialty names that I missed) that need to be made, or if you have any questions about something, e-mail me. Any questions about locating roms or emulators will be ignored. Thanks!
