the _ is there so there is more visuality on the space between

- Place honey and foraged items in the bin
- mine and fish if you have spare time
- use horse race moneymaker (see bottom)
- if you have the teleport stone use the mine hint to get to floor 30

Of the winter mine and get pink diamonds, ship them

- give flowers found around the mother's hill and forest to the goddess, She could give you white grass every once and a while
- when digging in the mines and field, eat the black grass and you may Also dig up some gold (not very much, about 10-50 each time)

+++++++Summer+++++++

- Replace the half of your field with corn and a desired crop

If you run out of chicken feed use corn

- Forage and Honey
- Fish and Mine at your own free Will
- If you have a level 6 cursed/blessed/mythic fishing rod, catch pirate Treasures and ship them for 10k gold each
- if you have the teleport stone use the mine hint to get to floor 30

Of the winter mine and get pink diamonds, ship them

- give flowers found around the mother's hill and forest to the goddess, She could give you white grass every once and a while
- if you have Orichalc give it to Saibara and have him make you a broach It costs 1000 gold and you can sell it for 2000 gold
- fish on the beach day and fireworks festival, infinite stamina until Basket is full, and rucksack
- animals & makers
- when digging in the mines and field, eat the black grass and you may Also dig up some gold (not very much, about 10-50 each time)

+++++++Fall+++++++

- ship honey and apples
- fill the other half of your field ALL SWEET POTATOES
- use horse race moneymaker
- to save money, use an apple on the harvest festival
- forage
- fish and mine at will
- view the shooting star festival, on Fall 11th on year 5, 10, 15 etc go to The peak of mother's hill from 5pm (6)-8pm I believe. Make a wish to Double profits, the next day, ship as much as you can, if you finish, Buy chocolate and ship those, they cost 100 g and normally ship for 100 However, since it doubles you will receive 200g each.
- if you have the teleport stone use the mine hint to get to floor 30

Of the winter mine and get pink diamonds, ship them
-give flowers found around the mother's hill and forest to the goddess,
She could give you white grass every once and a while
-Make friends with Carter and go behind the church for two truffles,
A mushroom and a poisonous mushroom
-have a level 6+ hammer and remove the giant "sone" to find a truffle.
-animals
-when digging in the mines and field, eat the black grass and you may
Also dig up some gold (not very much, about 10-50 each time)

+++++++Winter+++++++

-MINE MINE MINE
-Use the make friends with carter thing (see fall) to find a white grass
-animals
-fish at your will, and ship honey.
-a white grass behind gotz's house
-when digging in the mines and field, eat the black grass and you may
also dig up some gold (not very much, about 10-50 each time)

+++++++Horse Race Money Maker+++++++

Use this in fall and spring

Go to the horse race with a basket and empty rucksack. Save beforehand
And enter Rose Square, watch the horse races and record who wins, bet on
Those horses. Afterwards use the medals to get broaches, fill the basket
With them, and all nine spots of your rucksack. Go back to your farm.
The next day drop of the broaches and go to rose square to pick up the
Basket you left behind. Ship those

+++++++Mine Hint+++++++

Make a bunch of Elli Leaves

Utensils

Sugar
Salt
Vinegar
Soy Sauce
Miso
Knife
Frying Pan
Oven
Pot

Ingredients

Six Types of Different Burnt Food (use a piece of fodder with a different
Utensil)
Bodigizer XL
Turbojolt XL

Now go to the mine and save the file to one slot, dig until you find
The stairs, reload and dig in the same spot, go down and save to the
Other slot. Repeat. If the Room is a dead end, reload from slot one
Before you went down and go down again. If you want to dig, once done, eat
An Elli leaf

+++++++Shooting Star Event (more detailed) ++++++++

On Fall 10 between 6pm and 12 every five years (5, 10, 15, 20) you can go to The peak of mother's hill to activate this hidden event (only if it is sunny.) You are given three choices, if you choose number 3 (more money) the next day You will be given twice the money for every item shipped. So save some broaches Pirate treasures, anything for this. If you run out of things go on a chocolate Rampage and stuff those in your basket and ship them, 1 chocolate costs 100G and ships for 100G, double that and you make a profit of 100G each time.

+++++++Festival Rucksack Trick+++++++

In a festival, use A+B together to bring up the rucksack, that way you can see How much room or on the beach day/fireworks festival you have. Also useful if You catch a can/boot. Press start with the cursor over the image to remove The item without littering.

+++++++Saving Time+++++++

To save time for foraging and fishing etc, get the harvest sprites to help you, give them flour as a gift, it takes about six flours to gain them a heart, So 18 flours until they work for you (3 hearts) 1-flour costs 50gold so 18 will Cost 900 gold.

+++++++Foraging Locations+++++++

+++++++Pippin44's Winter Guide+++++++

Money.

This is a hard time to get money right? Wrong. These are ways to get Money.

Chickens- are a good way with the eggs. Outside they do not need food, But is rare to have good days all the time. You can spa boil it to add 60 to A regular egg.

Winter mine- sell at least 10 gems. It is located at Kappa's pond. You will Really want a basket. GET ONE.

White grass- it is located behind Carters church and behind Gotz house, in the slit of land.

Now you have made about 700. (may go much higher)

Other things I can do. No farming...

- Fish! You can sell them, give boots to May, and have much time to do it!
- Upgrade tools! Storms will hit a lot.
- Make more friends.
- mine for gems
- sleep

My poor animals....

I know storms hit like every week. Try having the sprites do things for you. Always have two potions for taking sickness away. BEFORE you use aid, brush and care for them first. It may go away. They usually cannot go out so hearts will not go up as quickly. Feed and brush Them everyday.

Days

Enjoy the holidays. Valentines Day, Starry Festival, stocking festival, and New years. Always take as much food as you can. get a bigger sack. Have as much fun as you can.

+++++++Coverts Tips+++++++

Crops - Turnips your first Spring, then cabbages following Springs, Using the Harvest Sprites to help you water and harvest; pineapples in Summer; sweet potatoes in Fall - this is the big money-maker.

Animals - Cows and chickens are the mainstay of any successful farm. Get as many cows as you can, and buy a couple of chickens and

Incubate eggs to make more. Treat them well (talk to cows, brush cows, Milk cows, pick up chickens) and once they get more hearts you'll really Start making the money - especially if you win the corresponding festivals and leave your animals outside for 600 in-game hours, to produce P-products.

Fishing - Upgrade your fishing rod to gold or higher to be able to catch Large fish, which sell for a healthy 200 G apiece. Once you get the Cursed (preferably blessed) rod, you can catch pirate treasures in Summer (which sell for 10000 G apiece) and fish fossils in Fall (which sell For 5000 G apiece).

Foraging - Always pick up random stuff that grows - you can get quite a bit Of extra money (at least 1000 G) each day just from picking up the stuff You find in the wild.

Mining - Just doing a bit of random mining, with the basket, will net you a few thousand dollars a day. Getting pink diamonds (10000 G), alexandrite (10000 G), or mythic stones (20000 G) will surely help your income.

Shooting Star Event - Store up all your valuable items (pineapples, Pirate treasures, etc.) and ship them all once every five years on Fall 11th and you will make twice as much for everything.

Horse Races - Get a lot of tickets by betting on races and buy a bunch of broaches, filling up your basket. You can then ship them for a lot of profit, and make ~70000 G.

+++++++Tool Upgrades Tip+++++++

Let us say you have a copper fishing rod, and you want to upgrade it to Silver, its 2000 gold. BUT, if you save it for later and upgrade to Mystrile after you have enough Experience and gold its 5000. Which means If you were going to upgrade to Mystrile later it would have cost 7000 instead of 5000. Saving you 2000 gold

+++++++Full Field Tip+++++++

If you have a whole field of crops, try using three harvesting sprites and four watering sprites. Do the animals yourself so you can use the makers.

+++++++Joes Section+++++++

+++Mining+++

Making the most of the mines

Check out my trick for a good profit once you get the basket + biggest rucksack, and want to make the most of the Spring mine:

This might be hard to do, but according to my research, a basket full of Orichalc and/or Adamantine as well as the 8 spaces of the Rucksack, can be sold for 1,900G! This is a lot!

[You should bring an Elli leaf or two, considering that 30 may take a lot of levels, unless you go back up after level 11.]

You could easily do that five times a day for a whooping 9,500G a day!

Imagine, in one week, that is 66,500G!

Moreover, in one month, a whooping 266,000G!

And in one year, of just mining 38 Orichalc and/or Adamantine, 5 times a day, 7 days a week, 4 weeks a month, and in 4 months, An astonishing 1,064,000G!

Think about it....

It is just about the profit of 16 large cheese cows + 8 large Mayo chickens a year!

Winter mine

Here we go:

Now, as you may have been thinking after seeing how you can exploit the spring mine, now for the winter mine. This one has more profits because before spring First, year3, you'll only have 1/4 of the year to mine in it.

What I'm going to do, is that I'm going to list the common gems, which excludes the pink diamonds and alexandrite*

To find out at what floors they're located at, look @ cher's site

Moon stone:

2,090G per unit**
10,450G per day (@ 5 units a day)
73,150G per week (@ 5 units a day)
292,600G per season (@ 35 units a week)
1,170,400G per year (same measurements as before***)
+++++

Sand rose and/or Amethyst

2,280G per unit**
11,400G per day (@ 5 units/day)
79,800G per week (@ 5 units a day)
319,200G a season (preceding rules apply)
1,276,800G a year (preceding rules apply)***
+++++

Agate

2,356G per unit
11,780G per day (5 units)
82,460G per week (35 units)
329,840G per season (140 units)
1,319,360G per year (560 units)***

+++++

Fluorite

2,470G per unit
12,350G per day (5 units)
86,450G per week (35 units)
345,800G per season (140 units)
1,383,200G per year (560 units)***
+++++

Peridot

2,584G per unit
12,920G per day (5 units)
90,440G per week (35 units)
361,760G per season (140 units)
1,447,040G per year (560 units)***
+++++

Topaz

2,660G per unit
13,300G per day (5 units)
93,100G per week (35 units)
372,400G per season (140 units)
1,489,600G per year (560 units)***
+++++

Ruby

2,885G per unit
14,250G per day (5 units)
99,750G per week (35 units)
399,000G per season (140 units)
1,596,000G per year (560 units)***
+++++

Emerald

3,040G per unit
15,200G per day (5 units)
106,400G per week (35 units)
425,600G per season (140 units)
1,702,400G per year (560 units)***
+++++

Diamond

3,800G per unit
19,000G per day (5 units)
133,000G per week (35 units)
532,000G per season (140 units)
2,128,000G per year (560 units)***
#####

*the reason being, you won't even get 2 on each level they're found on
** unit=1 basket full + the 8 rucksack spaces
*** you're going to need the teleport stone Wink

#####

And there you go! As you can see, the diamonds are the best for winter, doubling the Adamantite's profit, plus it's at the same level, although the diamond will only reappear at multiples of 10.

~~~~~

[harvestlooney of unot sent the following in]

I'm an avid miner and if you extend this to pink diamonds/alexandrite, here are the calculations. I reload and get at least 2 pink diamonds/alexandrite per floor. That means you have to mine down to (30, 50, 70, 90) and just based on the 8 spaces in the rucksack:

Pink Diamonds/Alexandrite

80,000G per unit\*  
240,000G per day (3 units) just picked 3 as a number  
1,680,000G per week (21 units)  
6,720,000G per season (84 units)

+++++

\* 1 p. diamond/alexandrite unit is 8 items

+++++

And the ultimate reason why alexandrite and p. diamonds are so hard to find

Note: 1 unit here is 38 items

380,000G a unit  
1,900,000G a day (5 units)  
13,300,000G a week(35 units)  
53,200,000G a month(140 units)  
212,800,000G a year(560 units)

+++Fishing+++

In the begging, when you first get the fishing rod from zack's house, fishing isn't really that good, it's time consuming and most fish you catch are small.

Once you get the copper or silver fishing rod, though, you can reel in the cash!

Standard

Catches: small fish  
Profit: 50G a fish, 1,500G a basket  
Rucksack Bonus: small: 100G extra  
medium: 200G extra  
large: 400G extra

Copper:

Catches: small and medium fish  
Profit: - 50G small fish (1,500G a basket)

- 120G medium fish (3,600G a basket)  
Rucksack Bonus: small: -small fish, 100G extra  
-medium fish, 240G extra  
medium: -small fish: 200G extra  
-medium fish: 480G extra  
large: -small fish, 400G extra  
-medium fish, 960G extra

Silver:

Catches: small and medium fish  
Profit: - 50G small fish (1,500G a basket)  
- 120G medium fish (3,600G a basket)  
Rucksack Bonus: small: -small fish, 100G extra  
-medium fish, 240G extra  
medium: -small fish: 200G extra  
-medium fish: 480G extra  
large: -small fish, 400G extra  
-medium fish, 960G extra

Gold:

Catches: medium and large fish  
Profit: -120G medium fish (3,600G a basket)  
- 200G large fish (6,000G a basket)  
Rucksack Bonus: small: -medium fish, 240G extra  
-large fish, 400G extra  
medium: -medium fish, 480G extra  
-large fish, 800G extra  
large: -medium fish, 960G extra  
-large fish, 1,600G extra

Mystrile:

Catches: Large fish (and other things... )  
Profit: 200G a large fish (6,000G a basket)  
Rucksack Bonus: -small: 400G extra  
-medium: 800G extra  
-large: 1,600G extra

Cursed, Blessed, & Mythic

Catches: Large fish, Pirate Treasure (Summer), Fish Fossil (Fall)  
Profit: 200G a large fish (6,000 a basket), 10,000G a Pirate Treasure,  
& 5,000G a Fish Fossil

Rucksack bonus: small: 400G, 20,000G, 10,000G  
medium: 800G, 40,000G, 20,000G  
large: 1,600G, 80,000G, 40,000G

++++++Loreana's Strategy++++++

With crops first to second year. The first time I made friends with the harvest sprites it was a little late in the year but by fall 4 sprites worked for me. I planted 43 bags of sweet potatoes and let them do most of the work. With all the help I gave them it still was a lot for them to harvest and since my watering can wasn't up to level 2 yet it was a lot of work. I made over 600k that fall and spent

200k + that winter doing ALL the upgrades.

This was a little silly but I thought

"I want that vacation house" by the second year I got smarter.

I have shifts of 3 water 3 harvest and 1 animals.

2 of my waterers are hard to catch on the field but get the job done fast leaving the harvesters to harvest. If it is too much I help by doing the edges. I also find it the easiest to have them all working 3 seven then the following day 4 seven. This leaves me one day in between to go to there house and call them to work the next day this way there is no time in between where I have to work. If there is going to be a festival sometime in there, look at there schedule as you cannot go to there house. They will work festivals so tell them two days before the festival to take a break. Then ask them back the next day. And so on and so on. Most say that there heart level drops fast if you have them work to long. Well here is the answer to that.

Get the sprites up to 3 hearts after that ask them to work 7 days. For the first few days give them gifts while they work. I personally find their heart level goes up a bit faster while working. Once they are up to 6 hearts stop giving gifts. When their hearts go down to 4 give one gift each for 3 days, rinse and repeat.

For making money I do like everyone says. But with as difference. What I do is use the sprites to the max. I didn't get 100 of each item till the second year so that is what I did the second year. Buy 12 of each sellable crop (not including magic seeds) that doesn't regroup. This will give you 108 crops of each. Making it a fast way to get to 100. With money crops like sweet potatoes plant as many as you can afford or fit into your field. Use the sprites as mentioned above and you will be rich by the end of the season, just remember their level of exp help if needed.

It goes unsaid that if you have all your 100 crops and only need a certain crop for lets say a gift, cooking, or chicken feed a lot a section of your field for that crop, but I'm warning you, be first to the crop before the sprites get there cause with their exp. level's going up the faster they will be, so I like to place these crops at the lower left corner of your field.

Now every 5 years in the game you get the shooting star event. Here he Plan ahead, far ahead. Use the trick with the horse race and buy broaches to fill the basket and your rucksack, but instead of filling your sack and picking up the basket, I want you to leave the basket behind full. and leave with arms full. (this will only be usable if you have the cabinet.) go home and place all broaches in your cabinet and go back and get your basket which will be your profit. By the end of the year you will have 18 broaches and in 5 years you will have 81 broaches. You still make money off the items in the basket but save some for 2x the money in 5 years if you choose the third option. It is similar idea for foraging and crops. I like to leave most of my profits up to my crops but the cabinet and fridge will hold more than 99 of each item, by using another square.

Collect poisonous mushrooms, truffles, various grasses, pirate treasure, fossils, red magic grass, x wool, x egg, x milk, mythic stone etc. List of shipping items

[http://www.fogu.com/hm4/farm/complete\\_list](http://www.fogu.com/hm4/farm/complete_list). Save multiple squares in your third and fourth year of sweet potatoes and cabbage. I know it kind of sounds odd to save it when you can have the money now but if you can afford it save it. I haven't made it to the fifth year in the game I am playing now but the first time I played I only had 99 sweet potatoes and I made 23,760g so imagine all the top priced items saved for the shooting star event \$\$\$\$\$\$\$\$\$\$.

Now when winter comes by live off your profit and make friends. And if you have patience, which I will admit I don't always have, do your mining in the evening. Depending on your level of equipment and cooking skill, follow the mining guides mentioned in the forum, I am not going to link to it you should be able to find it on your own I know I did. And remember your basket. I don't have tips for mining since it is very strait forward and very simple.

Last hint plan ahead for the following year crops for all seasons. Buy your crops ahead of time especially for spring as the first day is a festival and call your sprites to work early. If you are like me and do want everything full to the max then have the sprites work alternating schedules on taking care of your animals during the winter.

+++++++Getting Makers+++++++

To get makers, you need to have adamantine, 20000 gold and upgraded barns, an easy way to earn adamantine is to get one for 4 medals at the horse races. Take it to Saibara and have him make it.

+++++++Shiftys Spending Money FAQ+++++++

TIPS ON MONEY SPENDING FROM MOST IMPORTANT TO LEAST

1.) Buying a basket/upgrading the rucksack

If you're on your first year, you will be foraging A LOT of things from the wilderness. Since you start off with a measly 3-slotted rucksack, carrying all the things you foraged will definitely be a pain . So you should neither upgrade your rucksack or buy a basket.

What is a basket?

A basket is similar to a portable shipping bin. Like the shipping bin, once you throw items in, you cannot take them back out and you can only put shippable items in there. The difference between those two is that you need to empty the items in your basket in the shipping bin if you want to ship the items in the basket. Unlike the shipping bin, the basket can only hold 30 items.

Where do I get the basket/rucksack upgrades?

You can get your basket/rucksack upgrades in the general store which is located at the very top end of mineral town. See this page for a map of mineral town and this page for the prices of the items the general store sell.

2.)Upgrading your watering can

The watering can is one of the key tools to your crop farming career. The default watering can that you get at the start of your game only waters 1 little square each time. If you plant a 3x3 pattern, you will not be able to water the one in the middle. Therefore, we upgrade the watering can to make it better.

How do I upgrade my watering can?

To upgrade your watering can, you must go to the blacksmith owned by Saibara which is located across the street from the chicken farm. See this page for a map of mineral town and this page for the prices.

Where do I find ores? To upgrade your watering can, you first must have to use it to a certain level so it may be upgraded and the corresponding ore. I suggest you have your watering can have a jump start and upgraded to the 2nd level (silver) when you first go to the blacksmith. To see what level your tools are at, press select and go left or right a few screens. To find ores, you must go to the spring mine and dig down a certain amount of levels to find the right ore. To find ores, you must break the rocks on the level with your hammer.

### 3.) Buying chickens

Chickens is one of the most easiest ways for newbies to make money/ give gifts. The chicken can be bought at the chicken farm which is located across the street from the blacksmith and beside the Yodel Ranch.

How do I take care of the chickens?

Your chickens must be fed everyday if you want it to like you and stay healthy. To buy feed, you have to go to the poultry farm between Mon-Sat 11:00am - 04:00pm. Once you buy your feed, you will find the feed in the feed box. Everyday, you must take 1 for every chicken you have and put it in the feeding place. Also, your chicken's affection will raise if you pick it up everyday and not abuse it (leave it out in the rain, leaving it out at night, hitting it with tools, not feeding it, etc.). Your chickens will lay normal quality eggs when they are first bought everyday. The quality of the produce may rise if it's affect towards you is high. Read about the produce rates of chickens here.

How do I reproduce chickens?

You may reproduce your chickens by putting an egg into the incubator which is left of the shipping bin (inside your chicken coop). After around 1 week, your chick will be hatched and you will be asked to name it. Your newly hatched chick will remain in that form for around 1 week and then it will become a full grown chicken and start laying regular quality eggs.

#### 4.) Planting crops

Crops is another major money-maker in this game.

To plant crops, you obviously start by buying seeds, then tilling the soil of your farmland, then planting the seeds, and then watering them everyday.

How do I plant crops?

To plant crops, you must first till the soil of your farmland using your hoe. The pattern you should till is 3x3.

i.e.

```
XXX
XXX
XXX
```

After that you will have to go to neither the general store or Won's store to buy the seeds. See this page for a map of mineral town.

After you buy the seeds, return to your tilled soil and throw the seeds when standing in the middle of the 3x3 pattern.

i.e.

X=soil  
O=Jack stands here.

```
XXX
XOX
XXX
```

If you did that correctly, you will see that all 9 squares have seeds planted in them. After doing so, water all 9 squares using the watering can everyday until the crop can be harvested. Refer to this page for the seasonal crop list.

#### 5.) Buying a cow

Milk is a good way to make some decent money, great gift, and a necessity in cooking. To get milk, you obviously need a cow, which can be bought in the Yodel Ranch which is located east of the poultry farm.

## Select-Earnings

Advanced

-----

A+B-Open Rucksack

Q.What Are Rivals?

A. Rivals are your enemies for the girls

Q.Are there rival heart events?

A. Yes, Look at the other FAQs for them. Im not going to write my own.

Q.What happens if my birthday is on the same days as someone else's?

A. Nothing, unless its a girl you can marry, then they have alternate birthdays

Q.When are the Birthdays?

A.

Q.When are the Alternate Birthdays?

A.

Ann: Summer 22

Elli: Spring 20

Goddess: Spring 9

Karen: Fall 23

Mary: Winter 25

Popuri:Summer 10

Q.What are some good tips for getting girls to like you?

A. Give at least 1 gift a day and talk to them Twice. There are also other ways to give bonus heart points

Q.What Are the Ways to earn bonus heart points?

A.[http://db.gamefaqs.com/portable/gbadvance/file/harvest\\_moon\\_fomt\\_birthday.txt](http://db.gamefaqs.com/portable/gbadvance/file/harvest_moon_fomt_birthday.txt)

Karen: Buy things from the supermarket

Elli: Come in for daily checkups

Ann: Buy something from the Inn

Popuri: Have 8 chickens

Goddess: Walk 10000,100000 etc steps, Ship 10,000 , 100,000 , 1,000,000 , etc. of one thing Catch 10,000 , 100,000 , 1,000,000 , etc. of the same fish Dig down to floors 100, 200, and 255 of Spring Mine (NOTE: ONLY WORKS ON THE FIRST TIME!)

Mary: Visit her at library (works once)

Q.I don't understand the Bonus HPs, can you explain it?

A. The girls get a bonus hundred HP when you accomplish the stated thing, for example, if you buy 99 chocolate Karen will get a bunch of HP, if you bought 99 salads Ann would only get a little, Karen is the only proven girl this works on.

Q.Gotz Wont work for me. HELP!

A. This sometimes Happens, just give him gifts and eventually he'll be friends with you again, it may take a year though

Q.How do I Marry the Goddess?

A.

- \*Catch one of every species of fish
- \*Ship one of everything
- \*Have all 9 Jewels of Goddess and Gem of Goddess
- \*Have big bed
- \*Dig up every kind of item from Spring Mine
- \*Dig up every kind of item from Winter (Lake) Mine
- \*Be in fifth year or later
- \*Ask Carter to let you marry the Harvest Goddess

Thanks to HMKing16

Q.Can your son grow up?

A. No

Q.Can I have a Girl Baby?

A. No

Q.Can I have more than one baby?

A. No

Q.Can I Divorce my wife

A. No

Q.For the Blue Heart Events, what do you do with the item they give you?

A. Nothing, just stick it on the shelf

Q.I heard you can give Karen her wine on her birthday, is that true?

A. No

Q.I cant see the Blue Heart Event, what's wrong?

A. You need the Big Rucksack (nine slots one)

Q.I cant see any of Cliffs Heart Events, what's wrong?

A. Some of his events must be seen before he gets the winery job

Q.Why do the villagers hate me for putting out gold lumber?

A. They think you are showing off.

Q.Does Rod ever return?

A. No

Q.When you are married, does your wife's schedule change?

A. Yes, they will either be at home all day or go to work

Q.If I marry \_\_\_\_\_ will she cook for me?

A. No, not unless its for festivals

Q.Do I ask a girl to come with me to the Full Moon Festival before the festival or on the day?

A. Go to the hill at 6PM, there you will be asked.

Q.If i missed the black heart event for \_\_\_\_, can i still see the purple?

A. Yes.

Q.Thomas asked me to get some black grass, but its winter, where do I find it?

A. The mines, in the floor.

Q.My wife is saying that my son is starting to walk but he isn't, what's up?

A. He might be crawling, which is when she says things like that, if not it is an error.

Q.I married a girl, and she hates me, what's wrong?

A. Did you use cheats? And she may have been at a black heart when you used an instant marriage.

Q.I married \_\_\_\_\_ years ago, and we don't have a kid. What Up?

A.She has to be at 10 hearts for 60 days (not in a row)

Q.What Does \_\_\_\_\_ Like?

A. See Samurai Goroh's Faq or Chers site.

+++++++Other Questions+++++++

Tempura Noodles: pot/salt/vinegar/soy/soy sauce/tempura/noodles/mushroom/

\*\*\*\*\*

#### Under Construction

\*\*\*\*\*

#### Horse Event

Talk to Barley for the first time, a few days later he will come and give you a horse. You name it and take care of it.

#### Kai Visits

On the 29th of Summer on your first year go into town. You will see Popuri and May greeting Kai. You will be introduced to him.

#### Doctors BIG Mistake

Go to the Hospital from 1-4PM on Tuesday. Jeff will be mad and the Doctor will apologize. Apparently Jeff's blood type is wrong. Jeff storms off to tell Sasha.

"In Japan, blood type is used to determine whether or not a couple will be compatible when they're married. Some people won't even date others who are incompatible with their own blood type. If you talk to Jeff again, he'll say he has to go tell Sasha since she has always told him his personality was too kind for his blood type."

Thanks to Cherubae's Site for this information

#### Fireworks Festival

Go to the beach on Summer 24th. You can watch fireworks. If you have a green hearted girl you can watch with them.

#### Starry Night Festival

Talk to a girl at a green heart or more on the 23rd of Winter. She asks you to come around the next day for dinner. You can accept and decline. Only accept with one girl.

#### Full Moon Festival

Go to the Peak of Mothers Hill on the Full Moon Festival. If you have a girl with a green heart she will ask you to watch with her.

#### New Years Festival

At 6PM of Winter 31st go to Rose Square.  
Alternately go to the Peak of Mothers Hill at 12:00AM and talk to everyone.

#### Manna Gets Help

Go to Rose Square while it is sunny from 1PM-4PM. Randomly, you may hear Manna talking about her daughter Aja. Sasha and Anna claim they will help her persuade her to come home. Manna gets happy.

#### Doctors Past Life

Enter the southern entrance of Mothers Hill on Wednesday from 8AM-10AM. You see the Doctor staring out at the lake. He talks to you about his old life and his parents.

#### Drinking Battle

If Karen has a Green Heart go to the Inn on Sunday night at 9:00PM. Karen and Duke are arguing about a tab Duke owes the Supermarket. They ask you to be the referee of it. If Duke wins he doesn't owe anything and if Karen wins he must pay. Karen wins and goes home drunk and you have to take Duke home.

New year's game show in the VACATION HOME  
Drops from the calendar in MOUNTAIN COTTAGE  
Take all 8 to Thomas's house and look in the fridge

Goddess gems:

Lake Mine, floor 60  
Lake Mine, floor 80  
Lake Mine, floor 120  
Lake Mine, floor 140  
Lake Mine, floor 160  
Lake Mine, floor 180  
Lake Mine, floor 255

From Cher's site.

YOU MUST HAVE A CABINET TO FIND THESE.

Kids

You can have only ONE child, and it will always be a boy. He will NEVER grow up, the farthest it'll go is walking and talking in baby-language. Any rumors about him being able to help are false, and only apply to AWL, which is a different game.

Fences:

Ok, so there's been a LOT of debate over these, here's the real truth:  
You only need one layer. BUT, it must have closed corners, so it looks something like this (with X being logs/stones):

```
XXXXX  
X X  
X X  
XXXXX
```

Keeping your dog out (it has to be a dog, no puppy) will help scare the wild dog away. You can use your ax on it or any other tool (besides milker, shears, you get the idea) to scare it away.

Cursed Tools

You MUST have ALL of your tools at Mystrile. The cursed tools are found in the LAKE mine, which is the winter mine, and are found on the following levels:

29-Cursed fishing pole  
39-Cursed Hoe  
49-Cursed Ax  
59-Cursed Hammer  
69-Cursed Watering Can  
79-Cursed Sickle

Now, you Must have an empty slot (at least one, so I suggest you only bring your hoe and hammer) to get any of these. They aren't found easily, so if you don't find them on your first try, don't fret, just keep trying. They are dug for, and CAN be under rocks and on the borders of that level. Use the save and reload trick which is:

" Before you go down a staircase, save your game in slot 1. When you reach the new floor save again in slot 2. From there smash and dig until you find the exit. Instead of going down to the next floor, keep track of where the exit staircase was and then load your game from slot 2. Then just walk directly to the spot were the down staircase is and dig it up! Before you go down to the new level remember to save in slot 1 and save again in slot 2 once you reach the new floor. Sometimes you'll find a room that doesn't have an exit down to the next floor. These "dead-ends" can be a pain in the butt, especially since there's no way to go up 1 floor. If you remember to save your game in slot 1 before you go down, you can simply reload your slot 1 game if you find a dead-end room."

From Cher's site

Recipe for Elli Leaves (these are REALLY good for mining):

You need six type of burnt food. To make it, just use chicken feed and combine it with 6 utensils (knife, pot, frying pan, whisk, mixer, rolling pin)

Here's the recipe (from cher's site):

6 types of burnt food + Bodigizer XL + Turbojolt XL + Knife + Frying Pan + Oven + Pot + Sugar + Salt + Vinegar + Soy Sauce + Miso= Elli leaves.

Blessing:

1. Cursed Sickle - Equip for 10 days straight
2. Cursed Axe - Use 255 times total
3. Cursed Hoe - Bless 10 times, after 11th, it will be Blessed (I counted, it most certainly will NOT be Blessed after 10, it's 11)
4. Cursed Hammer - Equip for 10 days straight
5. Cursed Watering Can - Bless 10 times, after 11th, it will be Blessed
6. Cursed Fishing Rod - Use 255 times total

Mythic stones (from boo-urns):

"Mythic Stones, different from Mystrile Ore, are located in the Spring Mine ONLY after you have blessed all the cursed tools in the game. These stones are located on the same levels that the Goddess Jewels are located on.

(Levels 60, 102, 123 152, 155, 171, 190, 202, 222).

These stones on the said levels are completely random and may not always be in rocks on those levels. It is best to have a save on the level able before you venture down to mine for Mythic Stones. If you're lucky, you can find 2 or 3 on a level. There have been very rare occurrences where people have reported finding 4, but don't count on it"

RIVAL EVENTS

All that I have to say about this is, YOU CAN ACTIVATE THEM AFTER MARRIAGE. That's all.

Blue heart event gifts from girls

Ok, you can do absolutely NOTHING with them. You cannot give them away, you cannot drink the wine, you cannot fix the music box. There's nothing you can do except put it in your cabinet and let it collect dust.

Karen

Ok, so if you buy stuff from the supermarket, Karen's heart points will go up.
