-----

1. Me

-----

First, I'm not from an English speaking country, so if you find any grammar errors, please send them to me so that I can fix it. This is also my first submission so go easy on me. ;)

I live in Brazil and am a fan of Harvest Moon since the SNES game.

That's about it o\_O

-----

2. The FAQ

-----

Harvest Moon: More Friends of Mineral Town is a Farming simulator. You play the role of a girl who is tricked in buying a ranch in Mineral Town. Getting there you find that the field is full of stones and stumps and grass. Your mission is to make that field usable, plant and grow seeds on it and succesfully make money. For that you'll also need to to make friends in Mineral Town, and also marry one of the 8 bachelors available and have a big happy family.

Although, this FAQ Concentrate on the Harvest Goddess Games, by showing and how to win at them, the prizes and how to make the best of use of said prizes.

=====  
IV. Harvest Goddess Games  
=====

There are two H.G. Games, the High-Low Game and the R-P-S Game. You can get some high profit from those games by shipping the prizes or selling them to Won.

-----  
1. High-Low Game  
-----

- About the Game:

To play this game turn your TV in the Variety Channel (Left Channel) during the first 5 days of each year. This game can be played up to five times a day. You can rack up to 25 MILLION G by getting 5 band-aids per day.

This game is simple. The Goddess will show you a number between 0 and 9, you have to guess if the next number will be higher or lower than the shown number. If you get it right then you have to make the next guess based on the number you got right. If you don't get it right the game ends and you get a prize (or not). There's also a chance the number will be equal to the one shown.

- Strategy:

If the number is 0 the next one will be higher or equal.  
If the number is 1 or 2 the next one will likely be higher. The chances of being lower are very slight.  
If the number is 3 or 4 it's better if you say it'll be higher, but there is a considerable chance of being lower.  
If the number is 5 or 6 it's better if you say it'll be Lower, but there is a considerable chance of being higher.  
If the number is 7 or 8 the next one will likely be lower. The chances of being higher are very slight.  
If the number is 9 the next one will be Lower or equal.

And you can always use an emulator with save-state to get the prize you want, but the number is chosen randomly by the game.

- Prizes:

Are based on how many times you got the numbers right.

- 1: Nothing
- 2: A type of Grass
- 3-9: Rice Cake or Buckwheat Flour
- 10-14: Relaxation Tea Leaves
- 15-19: Sun Block
- 20-24: Skin Lotion
- 25-29: Facial Pack
- 30-39: Perfume
- 40-49: Dress
- 50-59: Golden Lumber
- 60-69: Fish Fossil
- 70-79: Pirate Treasure
- 80-89: Ketchup Recipe

90-99: French Fries

100: High/Low 100 wins (Band-aid)

- Best uses for the prizes:

The grass and the flour can be cooked or given as present. The sprites like their respective grass colors and love flour.

Rice cake can be given as a present. Barley and Ellen like it.

Relaxation Tea Leaves can be cooked or given to the sprites as a present.

Sun Block, Skin Lotion, Facial Pack, Perfume and Dress are a good present for girls and may be sold for money.

Golden Lumber makes people hate you, so the use for it is selling to Won for 57,000 G.

Fish Fossil can be shipped for 5,000 G. Sell to Won for possible 30% more.

Pirate Treasure can be shipped for 10,000 G. Sell to Won for possible 20% more.

Ketchup Recipe contain de recipe for ketchup (duh). Sell to Won for 67,000 G.

French Fries is the recipe for said food. Sell to Won for 77,000 G.

The Band-Aid can be given to any of the Bachelors for a great plus for their relationship. A better use for it would be selling it to Won for 1,000,000 G.

-----  
2. Rock-Paper-Scissor Game  
-----

- About the Game:

To play this game you must have the Vacation House. Every Saturday you'll be able to play it ONLY ONCE per week on the Variety Channel (Left Channel). You can get 1 Million G per week by getting the R-P-S Certificate. And it's also a good idea to get the Elli Leaves, they're the best recovery item. The classic "Ja-Ken-Po" game. You'll chose one of the three: Rock, Paper or Scissors.

To gain access to the Town Cottage, you must have 100,000,000 G and 999 Lumber pieces, then ask Gotz to build it. It will be built in the vancant lot beside Saibara's Shop in front of Poultry Farm.

- Strategy:

There's really no strategy for this game, you got to have some luck, just remeber that Rock wins over Scissors, Scissors wins over Paper and Paper wins over Rock.

It's a good Idea to save before you try playing it, since it's a once per week chance.

Like with the High-Low game, save-states help, but again it's random.

- Prizes:

Are based on how many times you won.

1: Nothing

2: A type of Grass

3-9: Rice Cake or Buckwheat Flour

10-19: Elli Leaves

20-29: Alexandrite

30-39: Pink Diamond

40-49: Mythic Stone

50-59: Unused Item  
60-69: Unused Item  
70-79: Unused Item  
80-89: Unused Item  
90-99: Unused Item  
100: R-P-S Certificate

- Best uses for the prizes:

The grass and the flour can be cooked or given as present. The sprites like their respective grass colors and love flour.  
Rice cake can be given as a present. Barley and Ellen like it.  
Elli Leaves are the best Stamina/Fatigue recovery item, get lots of these. They're best used in the mines to get to the last floor.  
Alexandrite and Pink Diamond can be shipped for 10,000 G. Sell to Won for possible 30% more.  
Mythic Stones can be used for upgrading your tools to the last level. Can be sold for 20,000 G. Sell to Won for possible 30% more.  
The Unused Items can be sold to won. The price ranges from 580,000 G to 970,000 G. The more wins, bigger the price.  
The R-P-S Certificate can be sold to Won for 1,000,000 G.

=====  
V. Getting friends with Won  
=====

Won will be your main money maker throught the H.G. Games. To activate the selling option you'll have to become friends with him. For that you'll want to give him one of these:

- Golden Eggs (Win Chicken Sumo Contest + 8-10 hearts)
- Golden Lumber (One of the High-Low Prizes)
- Orihalcon (Floor 10+)
- Apples (The tree in your farm give them in the Fall)

After that go in Zack's house and you might activate the trigger event where Won will tell you he'll start buy stuff you bring him. He will buy most of the things you can't ship through Zack, such as foods you cooked, flowers, items you get as gifts, etc.

Won will also buy item that can be shipped through Zack and you might get a 30% bonus from him.

=====  
VI. VBA Code Guide  
=====

Just as I suspected, the codes changes randomly every time the game is loaded, but it's easy to get a new code. The values are the same though.

I'll try to teach how to hack the code here. Since I'm no professional hacker, I can't make a fixed code (I believe there's no way to do so, since the code is random). And this aplies for both HG games... And don't worry, it's easy to do it.

First load the game, with no cheats active, go to your last save state or saved game, go to the TV and play the game. Use save states and win 3 times.

Now begins the hacking part, open the "search cheat" window, the settings you'll put are these:

Specific Value  
8-bits  
Equal  
Signed  
Update Values

Now click start, and put 3 in the box and click search. If there are too much results, go back and win another one, put 4, if too many results, repeat until you have 1 to 20 results.

Now, all you have to do is to go back to the game win another time (just to be sure go past the "Correct!" line) then go back to the search cheat window, and search for the code that has a "New Value" thats is 1 more than the "Old Value".

And check to see if there are more codes that has the same change, if there is, just go back win another, and search for the code that has 2 more, and so on if you get the same change. But it's somewhat rare of happening.

That should be your could until you load another game, or close the VBA. Select that code, click add code. A new window will pop-up, the code will be there (copy it if you want more than one of the prizes) the value you will put there is the number of win NOT ON HEXADECIMAL. If you want the 100 wins prizes, just put 100 in the "Value Box".

Of course you will have to repeat the process everytime you load the game, but you will see it's not hard. It takes about 5 minutes to get the code.

\* YYYYYYYY is the code you'll find, xx is the value you put for the prize in hexadecimal

Harvest Goddess High-Low result modifier:  
YYYYYYY:xx

Values for xx:

00-01: nothing  
02: a type of grass/herb  
03-09: rice cake or buckwheat flour  
0A-0E: Relaxation Tea Leaves  
0F-13: Sun Block  
14-18: Skin Lotion  
19-1D: Facial pack  
1E-27: Perfume  
28-31: Dress  
32-3B: Golden Lumber  
3C-45: Fish Fossil  
46-4F: Pirate Treasure  
50-59: Ketchup Recipe  
5A-63: French Fries  
64: High/Low 100 wins (Band-aid)

Harvest Goddess R-P-S wins modifier  
YYYYYYYY:xx

Values for xx:

00-01: nothing  
02: a type of grass/herb  
03-09: rice cake or buckwheat flour  
0A-13: Elli Leaves  
14-1D: Alexandrite  
1E-27: Pink Diamond  
28-31: Mythic Stone  
32-3B: Unused Item  
3C-45: Unused Item  
46-4F: Unused Item  
50-59: Unused Item  
5A-63: Unused Item  
64: R-P-S Certificate
