Section 1-FAQ

Q. How can I pick up items?

A. While you're racing, drive through red or blue bells!

Q. What's the difference between a red bell and a blue bell?

A. A red bell gives you a random item while a blue bell gives you an "engine boost" item.

Q. Who's the best racer in the game?

A. There is no "best racer" but in my opinion I think Geomon is the best.
(Note:There is a better character, but it will be a spoiler!)

Q. What are pink dots?

A. They give you a temporary speed boost.

Q. What's the difference between a pink dot and a blue dot?

A. They are basically the same thing.

Q. How many licenses are there and what are they?

A. There are 4 licenses, License C, B, A and S.

Q. How many "Cups" are there and what are they?

A. There are 4 Cups, and they are Krazy Cup, Hyper Cup, Premium Cup and Champion Cup.

Q. How many racers/characters are there?

A. There are 8 default racers.

Q. Are there any unlockable characters?

A. Yes, 4 to be exact.

Q. Are there any cheats?

A. Not that I know of, though I think GameShark or ActionReplay has codes for them.

How to Get Licenses?
-License C-Default.
-License B-Beat Krazy Cup once.
-License A-Beat the Hyper Cup and Premium Cup (Gettin first place for both).
-License S-Beat the Champion Cup (Getting first place) .

-Section 4.2-Race Menu

Here you can race from five different categories:

-Krazy GP
Race to win either the Krazy Cup, Hyper Cup, Premium Cup, or Champion Cup.

-Time Attack
Race against the clock!

-Free Run
As the name implies, race against the other opponents. Basically a "practice" run.

-VS
For more than one player requiring the link cable.

-Mini Battle
Mini games!

-Section 4.3-Item Shop

You can buy items that are in-game and equip them without picking any bells up.

-Section 4.4-Rumor Billboard

Every time you beat any of the cups you will get more messages, although most of it is just useless.

-Section 4.5-Exit

Exits the game and returns to the main menu.

-Section 4.6-Save

Saves your current game.

-Overall :****-

King

Konami Game-Popp'n Music

Rating -Top Speed :***--
 -Acceleration:***--
 -Handling :****-
 -Overall :***--

Personally, I think Vic Viper is the best because he's better than average in every category!

Section 7-Maps

Here are the maps I unlocked so far..16 maps in 2 days!

Ganbare Dochu

-Very short and simple map..Watch out for the bridges because there are holes in the middle! It has an oval shape so its a very basic map.

Difficulty:*----

Ganbare Dochu 2

-Only difficult on the bridge turn because you can fall into the water! Other than that it's pretty simple.

Difficulty:**---

Sky Bridge

-A few turns here and a few turns there, a bit harder than Ganbare Dochu, and in a bit I mean a bit! A few pink dots here and there, lots of jumps and you can also fall off some edges.

Difficulty:*----

Sky Bridge 2

-Thunder storm clouds, jumps, and plenty of pink dots. Boundaries make this map much easier and could've gotten 4 without them!

Difficulty:***--

Moon Road

-Very wide roads and you can't fall off so it's another simple map that's somewhat ovally/squarish

Difficulty:*----

Poppin Beach

-It's very easy to fall into the waters so for once you should use your brakes and also very short.

Difficulty:*----

Poppin Beach 2

-The track ranges from extremely thin roads to extremely wide ones. It's easy to fall into the water and some trees may block your path.

Difficulty:**---

Power Stadium

-Extremely easy, only one hazard thought, the baseballs. So you're basically racing around a baseball diamond.

Difficulty:-----

Space Colony

-A b-shaped map that's only hard because there are "holes" you can fall into. Also many jumps.

Difficulty:**---

Space Colony 2

-Lots of holes, I mean A LOT..Fair amount of pink dots and jumps! Also there are ballerina pandas.

Difficulty:**---

Cyber Field

-A Metal Gear Solid-based map! Mines, "boxes", hard jumps, and some parts which you can fall off of. The corners are especially difficult because they slow you down lots. Plenty of pink dots though.

Difficulty:***--

Cyber Field 2

-Very long race indeed. Holes, boxes, sharp corners and jumps make it even harder..

Difficulty:****-

Magma Castle

-Hard map because there are comets that rain dwn on you, spiked "balls" hehe..that go up and then drop down on you. Bridges are especially hard since they are thing and also have holes in them.. Power-ups right before them make you have more chances of falling off.

-SHORTCUT-Close to the end, a very easily spotted short-cut will make the race easier. The jump is signified by a jump icon

Difficulty:****-

Magma Castle 2

-A lot easier than Magma Castle due to almost no distractions, and also a very cool "slide effect".

Difficulty:***--

Ice Paradise

-Although it has very wide roads, you're going to need it because it's extremely slippery! Moving penguins which temporarily stun you, snowmen which block your path, hard jumps, and it's very easy to fall in the water due to the lack of boundaries..

Difficulty:****-

Ice Paradise 2

-Lots of penguins and snowmen! Very hard jumps, I mean, very hard..Snowballs which flatten you - reducing speed and handling..To top it off-no boundaries!

Difficulty:*****

Section 8-Unlockables/Secrets

Speed Boost

To get an extra boost at the beginning of the race, right when the third blue head disappears and the red head is about to appear, accelerate at that point and you will get a significant speed boost.

-The only way to see if you unlocked a character is to go to character select, (on any mode after you've unlocked them) and "highlight" them. You can't see them if you don't highlight them.

Unlock Bear Tank

-Race the Cyber Field 2 track in Krazy GP on any difficulty and collect the blue diamond between the two holes near the finish line. Exit once you get it and save the game. You will find him between Nyami and Pastel.

Unlock Ebisumaru

-You must first unlock Bear Tank, then use Bear Tank and beat the current record time in Ganbare Dochu 1 and Ganbare Dochu 2.

Unlock King

-Go to Krazy GP on any difficulty and play Sky Bridge 2 track in Champoin Cup. collect the Blue Bell speed boost to give you the extra boost you'll need. Before you first jump, drive on the left side so it's easier when you make a hard right turn. Also, before you fly off, use the speed boost to land on an island. You'll find King between Nyami and Bear Tank (or Pastel).

Unlock Vic Viper

-Race the Moon Road track on the Krazy Cup with any difficulty. Get the blue speed boost, and on the first jump use the speed boost to land on a hidden island with the blue diamond. Get the diamond, exit the game and Vic Viper will be unlocked. You can find him between Goemon and Dracula (Vic Viper is also directly above Pastel).

Below are some CodeBreaker codes. Enjoy :P
