shape one, you'll lose. The pack changes everytime so, be  
prize  
careful! Oh yeah, if you win, you'll get to double your  
winning money! Recommended in certain conditions.

Rating : 3

#### PUZZLE ROAD

-----

Difficulty : EXTREMELY HARD!  
Gain : Free Stuff! (Note me if I'm wrong)  
Bonus : Unknown.  
Profit : -

How To Play : Simple! In this game, you're given a little time and you need  
me, to maneuver yourself in an ANNOYING puzzle road!!! Trust  
and it is annoying. You'll have to push the right, left, down  
the up button in order (I think) to find your way out of  
all the puzzle road. Oh yeah, this game is not worth your time at  
expensive but, you might want to try it since you can find some  
items in this game for your taking!!! And yes, it is FREE!

Rating : 4 1/2

#### SHOUTING MONKEY

-----

Difficulty : Easy - Medium - Hard (Depends on the level.)

Gain : Money.

Bonus : Unknown.

Profit : Need I say more? REALLY BIG! (About 100 000 per play if you play

well enough but, Factory Panic still gives you more money  
though ^ ^ )

How To Play : The game looks a lot like from the Bomberman series but,  
big instead of putting bombs around, you'll need to 'shout'

big Japanese word in order to banish your enemy! Beware though  
since some of the enemy have the ability just like yours in  
order to banish you as well! Avoid the big word at all

cost!

You'll lose a life if you got hit by your enemy! The game  
gets

harder as the level increases but it is really worth your  
time.

You might want to play this game often since it scores you  
big

amount of money in short time!

Rating : 12!!!

#### KEYTELLO

-----

Difficulty : Hard

Gain : Unknown ( I haven't beat the com. once in this game!)

#### CARD GAME

-----

Difficulty : Hard?!

Gain : Money  
 Bonus : Unknown  
 Profit : 19 980 maximum per turn so, I assume the profit is Big!  
 How To Play : I don't know yet how to play the game but it game is a lot  
 like CANDY GUESS since you need to put your bet! (That's  
 why  
 I know the maximum money you can get per play ^ ^ )  
 Rating : 8 (I don't know, but, I think this game deserves this!)

LUCKY DRAW SHOP

~~~~~

Unfortunately, I have yet to discover the secret of this place....  
Grandma Gen just sit there with her cat saying well.... Japanese word.  
Just visit her often and something different will happen. You'll have to  
wait patiently and yes, this shop does not have anything that you can  
buy :(. Oh yeah, forgot to tell you more about this shop. I was playing  
around one day, buying stuff for my house and there i went to visit her  
(actually, i want to visit her cat :P) Grandma Gen said something and  
the lucky draw machine behind her started to roll and a green ball came  
out of the machine. I have no idea about it and it seems that nothing  
actually happens! Maybe I'm wrong (99%) so, please, email me if you know  
something about it :P (I'll give you credit for it!)

Here's another info! This might be wrong but, your odds of winning is  
higher when you get the ball from Grandma Gen. I've got a green one just  
in case you forgot. ^ ^ I've won candy guess 5 times in a row which nets  
me about,  
450 000! COOL! Try it yourself. Just visit them often! You will  
eventually get the ball! (Please email me for more info~!)

XI. TIPS  
=====  
=====

Easy Money  
-----

To get a big amount of money, just play 'FACTORY PANIC' a lot! If you  
refer to the "MINI GAMES LIST" section, the bonus for beating all the  
levels in this game is.... 250 000 - 300 000! Trust me, I'm not joking!  
Here' an example :

Target Money : 1 000 000  
Factory Panic : X3 to X4  
Candy Guess : X20 to X10  
Shouting Monkey : X10

I'll explain a bit. If you multiply the outcome of the game, you'll get  
the target money. So, I assume you know the profit for shouting monkey  
if you need to multiply it by ten to get  
1 000 000. (I'm doing a little bit of math :P)So, you see, FACTORY PANIC  
is your GoldMine!!!

Better Chances Of Winning  
-----

This is only for FACTORY PANIC! When you play the game, you WILL come to  
a time where it looks like you're going to lose.(Both of of the conveyor  
belt have tags and almost fall to the ground!) Fear not! With a press of  
this magic button, you can take your time, relax a little and plan which  
one you should take first. Oh yeah, and yes, it is the START button :P  
Hope this helps you to win better!

Resetting Your Game  
-----

Never ever reset your game ten times in a row! Why? It will delete your  
data! If you need to go out to the menu screen, go to the playground and  
reser your game the GOOD way! Remember this so  
you wont regret later!

House Of Wisdom Glitch

-----  
For the second time, I'll remind you to..... save your game before entering..... Why? When you come to a screen where you can change your name, there will be lots of Japanese word right? And you can't jnderstand em' too!  
That's all right. Now, here comes the bad part! After you choose the 'end' option, the screen will turn white!!! FOREVER!!! Maybe It's just my game but I think there's 90% of freezing in the game if you do that. I don't think it will freeze everytime you do that since I got away once : ) (That is my first visit to the house !) I think you need to put a proper name! That's the way I got away the first time. Well, how do you put a proper name when you can't even understand Japanese??? Well, I just choose 'Different' Japanese word everytime! Just avoid choosing the same word everytime. To make things simple, here's an example :

Imagine that the alphabets is the Japanese words!

1) Proper name

- It looks like this : idtweicoetaslp

2) Non proper name

- It looks like this : aaaaaaaaaaaaaa

Did you understand? I hope you do ! If you don't, then email me at Squirtle15\_Pkmn@Hotmail.com ! I'll try to explain a little better! :P

Puzzle Road Freebies  
-----

Hey, I actually found out something! It's about 'Puzzle Road'! You can get items from the other version (see related topic for more info!) of the gme!!! Cool right? The only drawback is that it's really hard to win this game but it's worth it!!! (Please note me if I'm wrong!)

Lucky Ball  
-----

If you got a ball (any color) from Grandma Gen then, consider yourself lucky! Why? Because it will make you really lucky! It might just me but it really did help me playing candy guess! You might want to visit Grandma Gen often!

More tips to come, until then, wait for my updates!
