For Pokemon Fire Red & Leaf Green  
Gameboy Advance  
Final  
By Orphen89

-----  
News & Updates  
-----

22/6/06 - Final release. Well, I was thinking of writing up a new FAQ, and to check up on a few things, I decided to go through this FAQ. Only after all this time did I realize I had still left out some parts to it >\_<  
Anyway, I've added Island 2 Mini Game info, which is under sidequests, and a few minor changes I have gathered over time. BTW, I'm done with this FAQ, and don't intend on returning to it (which is why I removed my e-mail). I might write a guide for Pokemon Emerald now...

24/10/04 - Fourth release. Sorry for everyone that has e-mailed me and I haven't replied since I've been quite busy lately. If you still have questions then feel free to ask. Also, if you have questions then PLEASE read the FAQ before e-mailing (And don't ask questions which are completely off-topic). Also, I made a mistake with the 'codes' part. I labelled them as Action Replay but they are actually Codebreaker.

18/9/04 - Third release. I've finally completed everything in the guide. Also, please stop e-mailing me asking for codes to get to Islands 8 & 9, because I've already listed them in their correct section. I've added three new sections, the sidequests, trainer tower and codes section. Finally I'd like to thank everyone that helped me in certain parts in the game (I've listed you in the "Credits" section)

16/7/04 - Second release. Okay, so I updated earlier because I wanted to include a FAQ section. If there are any more questions that you need answering then just e-mail me.

7/9/04 - First release. I've done EVERYTHING possible without having to learn Japanese in a few days (Although I hope to learn the language one day ^\_^) I've put info on every island eg. All the pokemon you can find on them, items etc.

=====  
Contents  
=====

I. What are the Sevii Islands?

00. How to get to the Islands

01. Sevii Islands - 1st Set (After defeating Blaine)

- 1a. Sevii Island 1 - Knot Island
- 1b. Sevii Island 2 - Boon Island
- 1c. Sevii Island 3 - Kin Island

02. Sevii Islands - 2nd Set (After Elite 4)

- 2a. Sevii Island 4 - Floe Island
- 2b. Sevii Island 5 - Chrono Island
- 2c. Sevii Island 6 - Fortune Island
- 2d. Sevii Island 7 - Quest Island

03. Sevii Islands - 3rd Set (With hidden Tickets)

- 3a. Sevii Island 8 "Navel Rock"
- 3b. Sevii Island 9 "Birth Island"

04. Trainer Tower

05. Sidequests and other info

06. FAQ

07. Codes

08. Credits & Legal Info

=====  
I. What are the Sevii Islands?  
=====

The Sevii Islands are several Islands located south of Kanto. These Islands are a great addition to the Pokemon games since they contain rare Pokemon, items, have a new Team Rocket base and some very weird ruins. They also contain several Johto Pokemon which can ONLY be found on the Islands.

=====  
00. How to get to the Islands  
=====

Before you can get to the islands you must defeat Blaine on Cinnabar Island.

When you do, exit the Gym. Bill will spot you and ask you if you want to visit the islands. Say yes and you will board a ship. You will then find yourself on Sevii Island 1.

=====  
01. Sevii Islands - 1st set  
=====

These Islands can be accessed once you have defeated Blaine on Cinnabar Island. There are no other requirements.

=====  
1a. Sevii Island 1 - Knot Island  
=====

\* Means Version Exclusive

Legendary Pokemon: Moltres LV 50 - On top of mountain

Obtainable Pkmn in FR (In the Grass)	Obtainable Pkmn in LG (In the Grass)
Psyduck*	Slowpoke*
Golduck*	Slowbro*
Spearow	Spearow
Fearow	Fearow
Geodude	Geodude
Persian	Persian
Ponyta	Ponyta
Rapidash	Rapidash
Tangela	Tangela
Moltres	Magmar*
	Moltres

In the Water: Gyarados, Horsea, Tentacool, Tentacruel

In the Cave: Geodude, Graveler, Machop, Machoke, Slugma

Items: HM06, Meteorite, Tri-Pass (Ticket), Rainbow-Pass (Upgrade of Tri-Pass)  
Max Repel, Dire Hit, Ultra Ball x2, Fire Stone, Carbos, Ether, Ruby Plate

Move tutors: Hiker- teaches explosion  
Is on the mountain north of Pokemon Centre

Info:

This is the first Island you visit when you get off the ship. This island also has a special Pokemon Centre which allows you to trade Pokemon with Ruby/Sapphire and Pokemon Colosseum. However, before you can use the machine you must first obtain the Ruby and Sapphire plates (Which will be explained later). In the hot springs, you receive HM06 from an old man. And, at the very top of the mountain lies Moltres.

Events:

(Follow this Island walkthrough if you want to capture Moltres. Otherwise, board the ship and head to Island 2)

Upon arriving on the Island, Bill will take you to the Pokemon Centre. Here, you will meet up with Celio, a PC Mania who is trying to get the machine to work. After a bit of conversation, you will receive a meteorite (which will be

given to a man on Island Two), the Tri-Pass (allows you to travel to Islands 2 & 3) and the 'new' Island Town Map. Exit the Pokemon Centre, go right and surf to the next bit of land. Head north and battle a few trainers until you come to a cave. Inside is a hot spring. The old man at the top of the cave will give you HM06. And, if your Pokemon are injured, go into the small hot spring with the two men to heal your Pokemon. Exit the cave and head north. When you reach the water, start surfing. Battle the few trainers and eventually you will come to Mount Ember. On the eastern part of the Island, two Team Rocket members are talking. However, they won't battle you... yet. Instead, go west (ignore the move tutor unless you want to teach one of your Pokemon explosion). Push the boulders to the left and go north. Follow the path until you eventually enter a cave. Continue following the path (ignore the breakable rocks), and you will find yourself outside again. Head north and enter the final section of the mountain. Here you will find the legendary bird Moltres. However, you first have to complete a small boulder puzzle. Push the right boulder forward, then push the left boulder to the left. Push the bottom boulder to the left and push the remaining boulder up and then to the right. You can now battle Moltres.

Exeggutor LV 40 Male- EXP Points 1816

=====  
After Elite Four  
=====

Once you have beaten the Elite Four and obtained the National Dex (capture sixty Pokemon) talk to Celio (In the Pokemon Centre) and once you've done that go to the base of the mountain on Island 1 (Where the two rockets are). Now, you will see a cave has opened up behind them. They will spot you and you will begin battling. Once you have defeated them (after beating the Elite Four, these guys should be NOTHING) they will disappear, allowing you to explore the cave. Follow the winding paths until you come to some boulders. Push the boulder closest to you to the right two spaces, then go down and push the lower boulder one space to the right. Go to the top boulder and push it up once and then go down the ladder. You are now at another small puzzle. Push this boulder once to the right and then push it down. You will now come to an intersection. Take the bottom path and push the boulder all the way to the right. Go down the ladder and you will find yourself in a giant room with Braille. Go down the ladder at the bottom-right hand side of the room and grab the Ruby. Now go back to the intersection and go right. Push the top-right boulder to the right, then go down the gap and push the bottom boulder to the left. Go down and climb down the ladders. Hop over the ledge and go down and through the exit. Fly back to the Island 1 Pokemon Centre. Give the Ruby to Celio and he will "upgrade" your town map and tri-pass (now making it a rainbow-pass). Now Islands four, five, six and seven are accessible.

Team Rocket Grunt - \$1184

Cubone LV 37 Male- EXP Points 688  
Marowak LV 37 Male- EXP Points 982

Team Rocket Grunt - \$1120

Rattata LV 35 Male- EXP Points 427  
Raticate LV 35 Male- EXP Points 870  
Sandshrew LV 35 Male- EXP Points 697  
Sandslash LV 35 Male- EXP Points 1222

=====  
After Elite Four & obtaining the Ruby and Sapphire  
=====

Give both the gems to Celio and both sides of the machine will light up. Now you can trade Pokemon with Ruby, Sapphire and Pokemon Colosseum!

=====  
1b. Sevii Island 2 - Boon Island

=====  
\* Means Version Exclusive

Legendary Pokemon: None

Obtainable Pkmn in FR (In the Grass)	Obtainable Pkmn in LG (In the Grass)
Oddish*	Bellsprout*
Gloom*	Weepinbell*
Psyduck*	Slowpoke*
Golduck*	Slowbro*
Spearow	Spearow
Fearow	Fearow
Persian	Persian

In the Water: Gyarados, Poliwhag, Poliwhirl

Items: Revive, PP Max

Move Tutor: Lady- teaches Blast Burn, Frenzy Plant & Hydro Cannon  
Man- teaches Pokemon a move if you give him a mushroom

Info:

A few things here. If you are still training your starter Pokemon you can teach them a move from a tutor which is compatible with ONLY that Pokemon. Charmander learns Blast Burn, Squirtle learns Hydro Cannon and Bulbasaur learns Frenzy Plant (Each attack has a base power of 150, but leaves the user immobile next turn). There's a PP Max beneath the waterfall, on the small bit of land (just use the itemfinder above it). Also, once you save the girl from the Hypno on Island 3 you can play two mini-games at her parents' house (But you need to have the wireless adaptor). But, other than the move tutor and the mini-games, this Island is pointless - there aren't even any trainers. Go to Island 3 instead.

Events:

Basically just go inside the fancy house and talk to the father. After a long conversation you can leave the Island.

(Follow this to get to move tutor)

The first move tutor is inside the house to the left of the game corner. The second move tutor is at the top of the Island. To get to her, go east and follow the path heading north. Ignore the waterfall (You get HM07 later) and eventually you will find a house. That wasn't so hard now, was it?

Hypno	Hypno
Psyduck*	Slowpoke*

In the Water: Krabby, Tentacool

Items: Full Restore, Zinc, PP UP, Max Repel, Max Elixir, Iapapa Berry, Nugget

Move Tutor: None

Info:

Okay, your all probably thinking "I've been on these Islands for ages! When can I go back to Kanto?" Well thankfully, once you save the girl from the Hypno in the forest you can sail back to Vermillion City. A slightly more challenging Island than Island 2, this one has a bike gang and a forest with a rogue Hypno.

Events:

A bit ahead you will see two bikers circling around a woman. There is also a small cave a bit to the right. However, ignore them both and continue straight ahead. (NOTE: If you didn't talk to the man who can't find his daughter on Island 2, then you cannot proceed any further). Eventually you will find the bikers pushing a man up against the wall. Go up closer and you will have to battle them. After four battles the bikers will leave. Talk to the Pokemart guy to receive a full restore. Now go straight and turn west. Follow the path, fight the trainers and cross Bond Bridge. You will eventually find yourself in Berry Forest. Zigzag through all the trees and you will soon see a little girl. Talk to her and a LV 30 Hypno will appear. Beat it and the girl will give you an Iapapa Berry. She will take you back to Island 2 and tell her parents what happened. You will then give her father the Meteorite and he will then give you a Moon Stone and will allow you to play the mini-games. Go back to the Island 1 Pokemon Centre and you can return to Cinnabar Island (there's nothing else left to do on these Islands until you beat the Elite Four).

Slopoke (LG)

Items: HM07 (Waterfall), Starchip, Stardust, Ultra Ball, Never Melt Ice,  
Full Restore

Move Tutor: Man- teaches Body Slam

Info:

This Island has barely anything and would be pretty much useless if it didn't have the Daycare. This Island can only be accessed once you have beaten the Elite Four, got the National Dex and the Ruby. This Island also has an Ice cave where HM07 can be found. And, for all those interested, Lorelei lives on this Island in a house near the cave.

Events:

The moment you leave the dock, Gary will spot you. After a bit of conversation he will board the ship, leaving you to explore the Island. Go east, past the houses until you come to some water. Surf up and go into the cave. Go to the top left corner and through the crack (You get waterfall later). Go right and slide across the tiny ice. Then, go to the right side of the square of ice and go up and then left. Go to the top bit of ice and fall through it (not the right one, that will just lead to the bottom and you'll have to start over). Go up the ladder (You can't go anywhere yet on the ice rectangle). Take the bottom ice bit and fall through. You will know be on the ice rectangle. Go up, right, down, left and then down. Go up the ladder and collect HM07 then hop down and go back to the first room. If you have taught the HM to one of your Pokemon, go up the waterfall and down the ladder. Go forward and down the next ladder, and in this next room are Team Rocket and Lorelei. You and Lorelei will begin battling. Once the battle is over, the team rocket members leave. In the water ahead is nothing, so you can leave the cave and head to Island Five.

Haunter	Haunter
Zubat	Zubat
Golbat	Golbat

Items: Max Potion, Razz Berry, Sitris Berry, Bluk Berry, Big Pearl, Pearl, Up-Grade, TM 36, Max Revive, PP UP, Silk Scarf

Move Tutor: None

Info:

This Island is huge! It has a Team Rocket base that can only be accessed once you have been to Islands 6 & 7. There is also a man who will give you an egg that will hatch into Togepi (What a surprise). There is also a weird statue that turns out to be a dead Onix who a guy is crying over \*If you have lemonade and give it to the guy, you will receive a TM\*. There's a water maze and items are littered everywhere.

Events:

Upon arriving on the Island, if you go right you can fight three Rocket members and see their base. However, you can't go in there yet. And, if you surf to the right of the second Rocket member you can fight three other trainers. The floor is also littered with berries. But if you're not interested then don't bother since it's pretty much a waste of time. Now, if you want to fight several trainers and get items such as the Lax Incense then follow this guide. First, surf north of the Pokemon Centre until you come to an intersection. Go up until you see a tiny island with a trainer on it. Surf

east and continue until you see a tiny gap between a bunch of rocks with a swimmer to the right of them. Follow the path until you come to a cave. Go down the ladder and you will see a Ruin Explorer. To get the Lax Incense go right once and then down once. The Lax Incense will be in the middle. The moment you go up. you will end up with the Ruin Explorer again! To fight a Psychic Girl AND get a Sea Incense, go right once, up once and then down once. You should see the girl there. Now, go up again and the Sea Incense will be in the middle of the room. To get a Max Revive, from the Ruin explorer head Right, Up, Down (You should see the psychic girl), down again, right and then right once more. And, to reach the rare candy go right, up, down, down, right, left and down. Finally, to reach Lady Selphy, from the start of the cave go right, up, down, down, right, left, down, right, up and you will battle her on sight. Once you're done you can exit the cave. \*If you've beaten Lady Selphy and go back to the room she was in, you can get a silk scarf\*. If you want Togepi, go back to the intersection and go west. Take the top route, then the bottom and then go up. You will see two people on a tiny island. Talk to the gentleman and he will give you Togepi. That's it for this Island. for now.

\*NOTE: To get into the Rocket Warehouse, do the following:

Firstly, defeat the Rockets on Island 1 and receive the Ruby, then defeat the Rockets on Island 4 (in the Ice Cave) and finally, on Island 6 go into the ruins with the Sapphire and watch helplessly as it gets stolen.

=====  
After the Sapphire gets stolen  
=====

Enter the Rocket base and walk on the 'arrows' pointing left. You will now be on the other side of the room. Move one space to the left and you will go up to the top-left side of the room. Go to the right and you should see two arrows side by side. Take the left one and you will end up on the yellow square. Go all the way up to the Rocket member and take the arrow pointing left (the arrow that is two squares to the left of the rocket). Begin moving up (Be careful not to touch the arrows) until you are above the Rocket Member. You should now see two arrows next to each other (again). Take either one and fight the Rocket below you. Take the final arrow pointing to the right and fight the Rocket Executive. She will push a button that will switch two arrows for you, creating a short cut for you in case you have to leave the building. However, ignore them (Unless you need to heal your Pokemon) and continue going up. Fight the Rocket Executive on the computer and once you've beaten him, all the Rockets will leave. Go up and you will see a scientist on a computer. Fight and defeat him to receive the Sapphire. Now you can go back to Island 1 and activate the machine!

(By E-Reader) Houndour, Pineco, Shuckle, Smeargle, Mareep, Stantler and Aipom

Items: Sapphire Plate, Leppa Berry, Sun Stone, HP UP, Full Restore, Elixir

Move Tutor: None

Info:

This Island is pretty big. It has the sapphire plate that gets stolen by a Rocket Scientist, making the Island 5 Rocket Base accessible. Also, this Island has a strange cave that changes the Pokemon inside it- Altering Cave. So far the only Pokemon that can be found in this cave has been Zubat. However, if you have an e-reader then several other Pokemon can be found in the cave (Houndour, Pineco, Shuckle, Smeargle, Mareep, Stantler and Aipom). And, once you have gone to Island 7, Gary meets you in the Pokemon Center.

Events:

This is the path to get the Sapphire

This Island is pretty big and it will take a while to get past all the trainers. First, go east until you come to the edge of the island. Continue south until you come to a small path leading toward a hiker. Continue along the path until you finally reach large amounts of grass filled with Pokemon (Use a Max Repel if you can). You should be at an intersection at this time. Go left and continue following the path. You should be at another intersection after a while. Go right this time (ignore the stairs going up) and walk up the small cliff with the Pokemanic. Go north and then east until you see two ruin explorers. Now go south and you will see another explorer. Turn left here and then go up. You should see some kind of a temple/shrine. Go up to the door and use the HM 'CUT' on it. The door will open. Go inside and fall through the hole and you will find yourself in a room with four holes on each side. Go to the top hole and fall through it. Now, go to the left hole and fall into it and in this room to the right hole and fall through it. And finally, fall through the bottom hole and you will end up with the Sapphire Plate. Just when you touch the stone, a Rocket Scientist will steal it from you. Now the Rocket base on Island 5 is accessible.

This is the path to get to Altering Cave

Go to the right of the Island (Where the Juggler is standing) and surf up toward the next bit of land. Ignore the houses and continue to the forest on the left side of the island. Go west all the way to the end forest and then exit south. Go left and begin surfing until you pass the bit of land with the trainer. Now start going north until you come to a large island. Go left and you should see a Team Rocket member outside a cave. Battle him and go inside. Nothing much in here since there are no items and the only Pokemon you can fight right now is Zubat (Unless of course if you have the correct e-reader cards).

Liptoo Chamber: C, D, H, O, U  
Monean Chamber: ?, A

Items: Nugget, Max Elixir, Kings Rock, Lucky Punch, Metal Coat

Move Tutor: Pokemon Ranger- teaches Swords Dance

Info:

This is the last Island you can get to without having to go to a Nintendo event or using a cheat. Like Islands 5 and 6, Island 7 is also very big. It has the Trainer Tower to the north and Unown ruins to the south.

There is also a house that is near the Pokemon Centre which has a door that is blocked off by boxes. I think this house is only accessible in the Japanese Fire Red/Leaf Green by using an e-reader card. However, in the Japanese version I have been in the room by using a cheat and I actually fought Giovanni!

Events:

Okay for this Island you can either go to the Trainer Tower or capture the Unowns. I'll begin with the path to the Unowns.

First, begin by going south. The man on the pier is the move tutor who teaches Swords Dance. Continue along the pier and onto the second part of the Island. Keep following the path until you see two Pokemon Rangers. Take the path to the right and follow it. You should come to an intersection. If you want to activate the Unown puzzle, go left. \*Unown puzzle solution\* Go to the middle of the boulders. Push the middle boulder in the first row up to the very top, so it falls into the slot. Now, go back to where that boulder originally was and push the boulder to the right one space to the left and then push it two spaces up. Go around and push that boulder to the right slot. Do the same with the left boulder. Once you're done go to the bottom row and push those boulders once space to the left and right, so the only way they can be pushed is up and down. Now, jump down the ledge and push the boulders all the way up, so that they fall into the slots. You should only have two boulders remaining. Push the boulder to the right once space to the left, and then four spaces up. Move it into the slot to the right and do the same with the last boulder. Once you're done, the ground should shake, indicating that the Unown's have been released. Exit the cave and take the other path. After a few trainer battles, your Pokemon should be getting tired. Eventually you will come to a house where you can heal your Pokemon and get a 'Lucky Punch'. Soon you will come to some water. Surf down and you can either go left or right, because now you are at the ruins!

This is the path to the "Trainer Tower"

This is very easy. Just head north, past the trainers and surf north up to the island. When you enter the battle tower, you will have to get through four floors before you reach the top. You will have to fight many trainers along the way. And, when you get to the rooftop, if you finish the Tower in record time, you receive a Metal Coat! I've listed all the trainers and Pokemon you have to fight. However, the level of the opposing Pokemon will be different for you. The enemies level depends on the level of your strongest Pokemon. My Charizard was on Level 91, so I was up against Level 91 opponents.

=====  
Sevii Islands - 3rd Set (With hidden Tickets)  
=====

Island 8 can be reached once you have received the 'Mystery Ticket', which is only obtainable in a Nintendo Event. Island 9 can only be accessed once you have the 'Aurora Ticket', which is also only obtainable in a Nintendo Event. Thankfully, I have the Code Breaker Codes to reach the Islands (They are given in the 'Events' section for each Island).

=====  
3a. Sevii Island 8 "Navel Rock"  
=====

Legendary Pokemon: Ho-oh LV 70 and Lugia LV 70 - Middle of Island

Events:

This Island can only be accessed once you have received a ticket (Probably gotten through a Nintendo event/e-reader). First go up a very long path until you come to two ladders. The ladder on the left takes you to Ho-oh while the ladder on the right takes you to Lugia.

Here's the code to get to the island:

82031DBC 0002

=====  
3b. Sevii Island 9 "Birth Island"  
=====

Legendary Pokemon: Deoxys LV 30 - Middle of Island

Events:

This is the final island. It is completely bare except for a triangle in the middle. To obtain Deoxys, you must press A on the Triangle. Once you do, it should move to another part of the island. Run up to it (WITHOUT BUMPING/TOUCHING IT) and press A again. Continue this process until the triangle turns completely red and you will eventually battle Deoxys. If you have Fire Red, the more attack & speed based Deoxys will appear. And, if you're playing Leaf Green, the defensive & higher HP Deoxys will appear.

Here's the code to get to the island:

82031DBC 3A02

When you capture Deoxys it will transform into a different shape (Depending on what version you have).

\*\*\*\*\*  
04. Trainer Tower  
\*\*\*\*\*

The Trainer Tower is located north of Island 7. This tower is a lot like the Battle Tower in Sapphire and Crystal versions except with a few added bonuses. In the Trainer Tower you can actually move around and heal your Pokemon with items. However, you are also timed how long you take in this tower so don't waste too much time. Every Pokemon that you fight in the tower will be the same level as the highest level Pokemon in your party, so be careful.

These are the items you receive if you beat the Trainer Tower in record times:

Singles: Up-Grade

Doubles: Dragon Scale

Knock-out: Metal Coat

Mixed: King's Rock

05. Sidequests and other info

\*\*\*\*\*

1. The "Lady Selphy" quest

Firstly, Lady Selphy is in the Lost Cave, located near Island 5. To reach Lady Selpy go right, up, down, down, right, left, down, right, up and you will battle her on sight. She will then take you back to her house and will ask you to show her various Pokemon (The Pokemon are random, so I can't help you there). If you take a really long time to show her the Pokemon you will only receive a Luxury Ball. However, other items like Rare Candies, Pearls, Big Pearls, Star Dusts and Star Pieces have also been obtained.

2. The Braille on Island 1 (To get the Ruby) and the Braille on Island 6 (To get the Sapphire)

(Ruby)

Everything has meaning  
existence has meaning  
Being alive has meaning  
have dreams  
use power.

(Sapphire)

Let the two glittering stones  
One in Red One in Blue  
Connect the pass.

Two friends sharing power  
open a window to a new world  
that glows.

The next world waits for you.

3. Altering Cave

Altering Cave is located north-west of Island 6. So far the only Pokemon that can be obtained in this cave is Zubat. However, if you have an e-reader and unlocked the Mystery Gift function then several other Pokemon can be found in the cave (Houndour, Pineco, Shuckle, Smeargle, Mareep, Stantler and Aipom). Besides this, there is nothing else here.

4. Tanoby Ruins

Tanoby Ruins are located south of Island 7 and hold all 28 Unown. First however, you have to complete a puzzle a bit north of the ruins.

\*Solution to puzzle\*

Go to the middle of the boulders. Push the middle boulder in the first row up to the very top, so it falls into the slot. Now, go back to where that boulder originally was and push the boulder to the right one space to the left and then push it two spaces up. Go around and push that boulder to the right slot. Do the same with the left boulder. Once you're done go to the bottom row and push those boulders once space to the left and right, so the only way they can be pushed is up and down. Now, jump down the ledge and push the boulders all

the way up, so that they fall into the slots. You should only have two boulders remaining. Push the boulder to the right once space to the left, and then four spaces up. Move it into the slot to the right and do the same with the last boulder. Once you're done, the ground should shake, indicating that the Unown's have been released. Head south to the ruins.

\*Unown locations\*

Ruins going from left to right:

Viapois Chamber (The top one): !, Z

Rixy Chamber (The bottom one): B, M, V, W, X

Scufib Chamber: F, G, K, T, Y

Dilford Chamber: J, L, P, Q, R

Weepth Chamber: E, I, N, S

Liptoo Chamber: C, D, H, O, U

Monean Chamber: ?, A

## 5. Island 2 Mini Games

These games are accessible to you once you have defeated the Biker gang on Island 3. Just return to the house on Island 2 and talk to the person behind the counter and get you and your friends to plug up your GBA to your wireless adaptors. Up to 5 people can play each mini game. Apparently, to complete your trainer card, you also need to score a minimum of 200 points in both the mini games, but you need 2 more people in order to upgrade your card.

Pokemon Jump - Basically, you have to jump over a Venusaur's vine whip and score the most points out of your friends (It is more or less a skipping game). Only small/light/first evolution Pokemon can participate in this game, with the exception of Porygon2 and Torkoal. Score 200 points to help get another star onto your card.

Dodrio's Berry Picking - You and two other people are Dodrio and you have to try and collect more purple berries than your friends while avoiding the green berries. Get 200 points in this game to upgrade your trainer card.

\*\*\*\*\*

## 06. FAQ

\*\*\*\*\*

### 1. How do I get off the Sevii Islands?

You can leave the Sevii Islands once you have saved the girl in the forest on Island 3.

### 2. How do I get back to the Sevii Islands once I have returned to Cinnabar Island?

You can return to the Sevii Islands by going to Vermillion City Port. If that doesn't work, then you will have to beat the Elite Four.

### 3. What are the codes to get to Islands 8/9?

Check the "Events" section for that Island

### 4. How do I use the codes to get to the Islands?

First enter the codes into the Code Breaker. Activate them and go into a building. You should be inside the dock for the Sevii Islands. Ignore the

sailor and turn the code off and walk out. You should be at the Island.

5. How do I get to Island # ?

If you have the tri-pass, you can only access Island 1, 2 & 3. If you have the rainbow pass (Obtainable once you have the National Dex, beaten the Elite Four and obtained the Ruby Plate) then you can go to Islands 4, 5, 6 & 7. Through a special Nintendo event/e-reader you can get the Mystery Ticket and the Aurora Ticket, which will take you to Islands 8 & 9.

6. What are the Pokemon Levels in the Battle Tower?

The trainers Pokemon levels depend on what your highest-level Pokemon is. For example, I had a level 91 Charizard when I went fought the trainers, so all of their Pokemon were on level 91.

7. How do I trade Pokemon with Ruby/Sapphire/Colosseum?

You must have done the following things:

- A. Received the Ruby and Sapphire
- B. Received the National Dex from Professor Oak
- C. Fixed the machine on Island 1
- D. Beaten the Elite Four

8. On Island 6, why is the scientist blocking my way to the cave?

The scientist is probably blocking the way because you haven't obtained the Ruby Plate on Island 1 (Go to the Island 1 section to find out how to get it). If that doesn't work then it could also be because you haven't defeated the Rocket Members on Island 4 (In the ice cave. The one where you get the HM Waterfall)

9. What are the Nintendo events/e-reader things you keep talking about?

Sometimes throughout the country there are special Nintendo events which are held so that you can obtain rare Pokemon. However, now Nintendo are using e-readers to make these Pokemon obtainable, so I doubt there will be any more conventions. Access to Island 8 and 9 will probably be through an e-reader card

10. How do I get into the Rocket Warehouse on Island 5?

Firstly, defeat the Rockets on Island 1 and receive the Ruby, then defeat the Rockets on Island 4 (in the Ice Cave) and finally, on Island 6 go into the ruins with the Sapphire and watch helplessly as it gets stolen.

11. On Island 7, what's behind the door in the house? The entrance is blocked by boxes and I can't go in.

I think this house is only accessible in the Japanese Fire Red/Leaf Green by using an e-reader. However, I have been in the room by using a cheat and strangely enough, I fought Giovanni!

\*\*\*\*\*

07. Codes

\*\*\*\*\*

These are for teleporting to any Island. Just put the code in and enter any building/house/cave etc. Turn the code off after that.

(These are Codebreaker Advance codes) \*Thanks to Labmaster for these\*

82031DBC xxxx (in place of xxxx put the codes in)

0C03 Island 1  
0D03 Island 2  
0E03 Island 3  
0F03 Island 4  
1003 Island 5  
1203 Island 6  
1103 Island 7  
0002 Island 8  
3A02 Island 9

\*\*\*\*\*

08. Credits & Legal Info

\*\*\*\*\*

Gamefaqs & Supercheats - for hosting this faq

Labmaster- for the CBA codes

Marcus Hirshorn - Found an item in the cave, gave me the text to what Lorelei says and telling me about Lady Selphy and things you do for her

Bill Stewart & Erik Martinez - For translating the Braille in the two caves

Shane Williams- Information on Lady Selphy (Helped put together theories on what items you receive etc.)

You- for reading it ^\_^

\*Special Thanks\* to Jazz and Daniel from Cheat and Win forums. They translated the Fire Red items, Pokemon names and attacks etc. If it weren't for them, this guide would've come out MUCH later...
