

Mega Man Battle Network Chip Code Lists

by Geoff Mendicino

Updated to v1.0 on May 12, 2004

Chip Code Lists: V1.0

Instructions:

These are all the possible codes for all the chips in this wonderful game, which is useful for people who want to make their own folder. To find a code list, press Alt+F4 and type:

All "X" Chips

Replace X with the chip code you want.

If you want to find a chip, type in the chip name, I put the game's chip name, so instead of something like IronShield, you need to type in the game's name for it: IronShld

Voila.
