Section 1: Introduction

We made this FAQ to help those who need Virus and Chip Locations. The Viruses are listed to show their stats, which can help you to defeat it. Not all Chips are in this FAQ, only the ones that Viruses and Navis drop. Also, only some Chips have the Letter Type (Ex. Cannon ABCDE*). We'll add more on the next update.

Section 2: Version History

0.1-(7-8-02) Started on FAQ. Barely anything.

Section 4: Virus & Chip Location List

If I missed a section on the location numbers, e-mail me, and you'll get credit.

Location Numbers: To use the chart, match the number of the location list to the number in the Loc. section of the chart (Ex. Canodumb has 1-3 on it's Loc. Look at the Location List to see what 1-3 is. 1-3 is Den Area 1, 2, and 3).
