## 2.0 Introduction

---

Even after 10 years since this game was released, there has been no FAQ with complete list of enemies. This guide lists all of enemy decks, even the forgotten decks, 27 default tournament enemies whose fates is deleted due to severe chip abuse (how sad...).

There are some dummied enemies for testing purpose (if you cannot recognize them, try to read their names). They can't be fought, unless you use some codes. Therefore, their locations and panels are listed as 'Not listed'.

All Battle Street tournament enemies have their panel set in the tournament itself, so their panel is listed as 'Tournament Setup'

---

## 2.1 Definitions

---

The Decks are formatted as following.

---

|          |               |
|----------|---------------|
| #ID      | Operator      |
| Navi     | Navi (max HP) |
| Location | Location      |

|           |        |        |        |
|-----------|--------|--------|--------|
| Panel     | Panel  |        |        |
| R Slot in | (rate) | Chip 6 | Chip 6 |
|           |        | Chip 3 |        |
|           | Chip 1 | Chip 7 | Chip 7 |
| Navi      |        | Chip 4 |        |
|           | Chip 2 | Chip 8 | Chip 8 |
|           |        | Chip 5 |        |
| L Slot In | (rate) | Chip 9 | Chip 9 |

-----

Note that some enemies have their sub navi(e.g. HubStyl navi which is gained from the code found in MMBN 4). They will be listed after the Navi.

Non empty R/L Slot in will be used when then slot in gauge is equal to its rate, which is listed right after the slot in chip.

Grand Prix enemies are fixed for each battle. As an example, you will fight Dex with Deck #012 for the third battle of Guts Tournament, unless you are using Dex(since Guts 3 is located on #012, while Guts 3 Dex is located on #169, so you will fight Tamako).

The Tournaments are

- E: Novice, Guts, Healing
- D: Match, Sapling, Droplet, Battery
- C: Quick, Block, Cliff
- B: Firework, Verdant, Stream, Thunder
- A: East, West
- S: Master
- X: Shadow
- Y: Guardian
- Z: Chaos

Open battles are different. Sets of 4 randomized battles and 1 fixed battle can be fought here. Aside from Hacker Open Battle, each set has its own set of 8 available enemies(for example, 4 randomized enemies in Yumland set 1 are chosen from Yumland 1-1 until Yumland 1-8, and the fifth enemy is Yumland Level 5). Hacker Open Battle uses only one set of 40 enemies (the location is written as "Hacker Random xx" for randomized and "Hacker Level xx" for fixed battle).
