Temple of Light Recipe List for Shining Soul 2 by iforgotnmyname

About the Temple

The Temple of Light will unlock once you beat Robert's Pirate Ship.

To use the Temple of Light, place an item on each of the panels and then talk to the priest. If it is a valid recipe, the items will disappear and a new item will appear on the altar. The panels will flash if the item has been placed correctly. Also, for some recipes the items must be placed in a specific order. Finally, the Temple (apparently) does not show up on Multiplayer mode.

Why do this? Well, some recipes create items cheaper than they can be brought in the shops, saving you some money if you're really desperate. You can upgrade Souls to a higher level, and make some items that cannot be obtained anywhere else.
