1. VERSION HISTORY

October 12, 2002

This FAQ is "born".

Version 1.0

2. SMALL INTRODUCTION

Well, before writing an actual FAQ/Walkthrough for this game I have decided to start off with a Boss FAQ. Here I'll explain, with quite a lot of detail, how to beat each boss of the 5 stages. Hopefully you'll have less trouble, if any, to beat that boss after/during your "visit" to this FAQ! So, lets get on with this.

3. THE BOSS GUIDES

*****A) DUSTY DESERT BOSS*****

S T I N G E R (7 hits)

This one is extremely easy. First of all, go right until you see him. Be careful not to go to the highest platform, he'll hit you with his sting and you'll lose some health. Otherwise, its very easy to do: stay low. After he uses his sting, if you're near the bottom he'll use his claw to try and grab/hurt you. Yet again, avoid it. That is best done by standing right in front of his face. After he's used it, jump on top of his head to hit him. It's the only way you can. Once he's hit, repeat the first step 7 times and after he's fallen, walk (or run) to the right and touch the arrow to proceed to the next stage.

*****B) SMELLY SWAMP BOSS*****

S H A R P T O O T H

Run, run, run! Run away from the Sharptooth to the right! Avoid sharp bushes, thorns and other obstacles. It's better to get to the top branches, that way you'll avoid the bushes and thorns easier. The main point in this boss is to run away from the Sharptooth, until he can't go anymore. Try to do this without dying, so that you have enough lives left for the further few stages. Once you get to the lake, get to the high branches to cross it before the Sharptooth gets you. Then keep running right until you see the red arrow.

*****C) TALL MOUNTAINS BOSS*****

A N G R Y M E G A D A C T Y L (8 hits)

This one's also not that hard. This boss drops things as she flies over you. The items will either be an egg, a burning stick, a rock, a boulder or she'll swoop down on you. Avoid the falling items so you don't die, and every time she swoops down hit her on the head! It's not predictable on when she'll swoop, so be always on the look out! Don't try to hit her while she's flying or carrying items, you'll just hurt your self! After 8 hits she's done! Go or run right towards the arrow to proceed to the next stage.

*****D) DARK CAVERN BOSS*****

S P I D E R D O N (10 hits)

Man, none of these bosses seem to be hard! Once you see her, be prepared for her to jump, so stay in the middle of the screen. Once she shows her belly, jump onto it. What you just did was hit her. But look out! Once in a while she'll just pretend she's raising her belly, but she'll jump instead. If you fall for this trick, say good bye to some of your health! Repeat the first step 10 times and she'll be done. And yet again, walk or run to the right towards the arrow!

*****E) BURNING MOUNTAIN BOSS*****

T H E B U R N I N G M O U N T A I N

Not really a boss. You keep going up, gradually getting faster. Rocks fall from the ground, and if one hits you, you immediately lose once life-heart. And on the sides, sometimes fire spits out of the wall of the Burning Mountain. But after sometime, this disaster will be over, and enjoy the ending of this game!

All credit goes to GameFAQs (www.gamefaqs.com) for posting
this FAQ! Of course, I thank Crave for actually making this
game.

Stuff you could/should...

DO:

Read this FAQ .

Rate it (if possible).

Contact me if you find any mistakes, suggestions, etc.

Tell other people about this FAQ if you want.

NOT DO:

Copy and paste this FAQ, then claim it as your own work.

Whine about how bad it is.

Send me hate mail. If you don't like something give a reason
why.

Publish this or post it on your site without my permission!
