Now go back down the ladder and through the next door. Kill the enemy on the ground then go up the first ladder. Kill the enemy up there then hit the switch. Grab the bombs and go back down the ladder. Now go to the left and wait on the elevator.

Olaf:

Just run to the right and meet Baleog on the elevator. Grab the turnip there.

Erik:

Jump and grab the tomato above you. Now just go to the elevator and press down once you know everybody is on it. You will eventually get to an electrical field which will kill you if you touch it. Go down one more floor and switch to Baleog.

Baleog:

Shoot an arrow to the left to hit the switch, now the electrical field will be down. Now select the bombs and go to the left. You will see a computer in the middle of a big open area. Baleog:

Go to where Erik is and there will be a ladder there. Climb up it and then kill the enemies up there. Both of the enemies there take two hits to kill and you will have to hit the front of the snail to hurt it. An easy way to kill the snail is staying to the left of the very small hill and waiting until you could see the snail. You could shoot an arrow that will go slightly over the small hill and hit the snail. Go a little further and kill another blue lizard. Run to the far left.

Erik:

Run to the far left.

Now go to the right to where Baleog and Olaf are. Run to the right and before you fall, jump over the gap. Land on top of the water fall and grab the coin. Now jump to the far right to grab a key. Now fall to the left and use that key to bring down the bridge.

Baleog:

Bring Baleog to where Erik is.

Olaf:

Bring Olaf to where Erik is. Go to the right and fall down off the branch. Block the rolling enemy below you and quickly change to Baleog.

Baleog:
Go half way up the ladder and fall off onto Olaf's shield. Now move to the farthest to the right without falling off.

Olaf:
Move slowly towards the lava without letting Baleog fall off.

Baleog and Olaf:
Slowly keep moving both of them towards the lava. When Olaf can't move any further, switch to Baleog.

Baleog:
Run to the right and run right off Olaf's shield. You will have enough momentum to make it over the lava so don't worry.

Olaf:

Climb up the ladder with the shield still above your head. Go to the right when you are high up on it so you could get over the lava.

Erik:

Jump over the lava.

Olaf:

Go to the far right and climb up the ladder. Before climbing up the next ladder, change the position of your shield so it will be in front of Olaf. Now go up it and to the left. Block the fireballs and switch to Erik.

Erik:

is rolling to the right. When it rolls to the right, fall down and block it in the corner.

Baleog:

Quickly fall behind Olaf and kill the rolling enemy.

off the first chance you get to the right. You will not have to get off when you could to the left.

Olaf:

Go in the bubble and get off on the first left you could make. Go all the way to the left and go as close to the wall as you could.

Erik:

Go meet up with Olaf and break the wall Olaf is standing by. Quickly grab the key before the fire hits you and go down the ladder. Jump over the spikes and use it to open the door. Grab the key there then go to where Baleog is.

Go to where Baleog is.

Erik:

Go down the ladder where you just got off the bubble. At the bottom, open the door. Go down the next ladder and get ready to be quick. Olaf:

Go to the right and go down the last ladder you will see. Block the rolling enemy and quickly change to Baleog.

Erik:

Go to where Olaf and Baleog are. Now you will have to get over this acid pit by jumping from bubble to bubble.

Baleog:

This is probably the toughest character to get across with but it must be done.

Olaf:

Get across the bubbles. A nice little trick to use is to put your shield above your head so you will glide as you fall and reach further distances. Climb up the ladder here now and put your shield above your head.

Erik:

Jump on Olaf's shield and then jump on the other platform. Grab the key to the left and go back down to where Olaf is. Give the key to Baleog for this to be a lot easier.

Go even further to the left and kill the lizard with your sword. Continue to the left and climb up the ladder. Kill the lizard at the top of that ladder and go down the next to the right. Go up the next ladder and kill the lizard up there. Go to the right and it is now time to switch characters.

there.

Baleog:

Kill the scorpion.

Olaf:

Go to the right and get as close to the door as you could get.

Erik:

Climb up the first three trees here for food and bombs. Now when there are two sets of quick sand right next to each other, stay in between the two. Climb up the tree there and grab the key. Now go further to the right and catch up with Olaf and Baleog. Now if you jump up onto Olaf's shield you could run up the side of the pyramid for some meat. Open the door.

Baleog:

Go to where Olaf is and kill the mummy there.

Olaf:

Go to the right and up the first ladder you reach. Block the mummies and trap them to the right. DO NOT push the block to the left yet.

Baleog:

Go behind Olaf and kill the mummies. Grab the tomato if you need it then go back down the ladder.

Erik:

Go to where Baleog is and stay on that ladder.

Olaf:

Push the block to the left and down the hole. After you pushed it down, try to walk close to the edge.

Erik:

Get behind Olaf. Try to time a jump right so you could jump to the left and grab the key. Then jump back and try not to get hurt by the fireball. After you get the key, go down the ladder and use the key to open the door. Walk to the exit and get the rest of the vikings there.

Baleog:

Go to the exit.

Olaf:

Get to the exit without getting hit by the fireballs.

Olaf:

Go to the left and get as close to the wall as possible.

Erik:

Charge into the wall that Olaf is blocking.

Baleog:

Kill the mummy that Olaf is blocking. Go further to the left and look at the ground. There will be a section where there are the same size squares going down. Stand in the middle of the three and shoot an arrow to the left. Fall down the right or middle hole and wait there.

Olaf:

Fall down the hole and put your shield in front of you. Walk to the left and block the fireballs.

Baleog:

Now your going to have to fight without Olaf's defense. Walk to the right and you will see a waterfall. Just a little bit afterwards will be a mummy, kill it. Walk a little further and kill it the same way you killed the last. Now walk all the way to the right but do NOT press the button.

Erik:

Get to where Baleog is standing.

Olaf:

Get to where Erik and Baleog are but make sure no fireballs hit you on the way back. Press the button once everybody is over there and fall down to the left. Walk a little further and block the mummy that you will see.

Baleog:

Go down to where Olaf is and kill the mummy.

Erik:

Fall down the hole and start going to the left. Jump and get the turnip when you see it then jump over the spikes. Stay on this middle platform, you just needed the camera to reach this far.

Baleog:

Shoot an arrow at the button to bring down the wall.

Erik:

Jump over the next spikes and hit the switch.

Baleog:

Walk up to the button this time and press it. Walk past the wall and quickly change to Olaf.

Quickly walk past the door.

Baleog:

Now it's time to do some more killing without Olaf's defense. Go down the ladder and try not to go any further to the right. Kill the two mummies. Once you kill those two, walk a little further and kill the next mummy.

Olaf:

Go down the ladder and in the middle will be a secret to the right. It's kind of easy to see because it will be above the waterfall and there is a section with a completely different colored background. Grab the shield there and go back while being careful to not get hurt by the mummy there. Now go the rest of the way down the ladder and walk to the right. Block the scorpion in a corner.

Baleog:

Kill the scorpion. Once you do that, climb up the ladder and walk to the exit.

Erik:

Walk to the exit.

Olaf:

Walk to the exit slowly so you will not get hit from behind by the fireballs.

Level 14 (35%)

Olaf:

Put your shield above your head for now. Fall to the left but you will have to move to the right to flip that switch that is under you. Now fall to the left and walk to the edge. Keep the shield above your head and wait for the drips of acid to fall. Go after the first two drips and you will have to avoid them as you fall. If you touch them, even with your shield above your head, you will still get killed. So just fall to the bottom avoiding the acid all the way down. Now walk to the right avoiding the mummy. Climb up the ladder and go further to the right climbing up that ladder. Talk to the friendly mummy there then switch.

Baleog:

Shoot an arrow to the right. Go even further and shoot an arrow at the switch to trigger the elevator. Get on the elevator and get off at the bottom.

Erik:

Get on the elevator and go to the top. Avoid the falling blocks and go to the left. Get up the elevator and charge to the left. DO NOT charge to the right or you will die. Now jump on the platform to the right and jump on the block that is being held up by the chain. Make sure to avoid the fireballs by jumping over them. Now jump to the right and jump under the fireballs but past the spikes.

Olaf:

Run to the right as far as you could. Block the fireballs and don't fall in the spikes.

Baleog:

Get behind Olaf and shoot an arrow. That will make the block drop so both Olaf and Baleog can get by and the fireballs stop shooting at you too. Now go down the ladder to the right and kill the mummy down there.

Erik:

Go down the ladder and to the left will be a secret. You could notice the secret because all the blocks going to the left look exactly the same in that section. You will have to jump when you can't walk any further. Be careful before you go near the mummy though. Just jump over it, grab the items, then

jump back. Go back to where Baleog is and charge into the wall to the left. Go further to the left and down the ladder. Charge into the wall to the left then go back up the ladder. Don't forget to give the flaming arrows to Baleog.

Olaf:

Go to where Baleog is and put your shield above your head. The switches in this area will change the pictures on the blocks. There are four in total and you have to get them in the correct order. Here is what order you will have to put them in:

Top Left : Spider OO
Top Right : Something like Two necklaces, looks like this: |+

Then get back on it and go to the right. Get the rest of the vikings here before you use the key.

Baleog:

Get to where Erik is.

Olaf:

Get to where Erik is and get as close to the blocks on the right as possible.

Erik:

Open the door with the key.

Baleog:

Kill the mummy to the right, you will have to use your sword.

Olaf:

Walk further to the right and block the next mummy.

Baleog:

Kill that mummy. After you kill it, walk to the right and stop a little before the wall.

Olaf:

Go to the right and get as close to the wall as possible, get further to the right then Baleog is.

Erik:

Charge into that wall.

Baleog:

Kill the mummy that was on the other side.

Erik:

Go back to the area that looks like this:

```
_____/\    /\_____
          \_--'  *

```

Go to the section where the star is. You could go down a secret ladder there. Go down it and just jump over the snakes to grab the items. Then go back up the ladder. Give the arrow to Baleog.

Olaf:

Now go all the way back to where you started. Put your shield above your head and climb down the ladder. Glide to the right and keep gliding across the ladders. Be careful because after the second ladder will be some acid that drips and it will drip in between every ladder. There is one ladder in the middle that will go higher up into a section where you could grab a key. Grab it then continue to the right until you land next to the exit. Use the key then climb up the ladder and block the mummy. Trap this mummy to the far left of far right.

Baleog:

Equip the flaming arrow and go to the right. Fall off the platforms and be careful after the third platform. The platform with the bomb next to it. REMEMBER

All of the ventilation shafts (vents) will have ladders in them that you can't see so don't forget to hold up or down when you go in one and get stuck.

Olaf:

You could block the first pounder by putting your shield above your head. Block that and let everybody get by it.

Erik:

Get past the first pounder by Olaf and run past the next pounder too.

Baleog:

Get to where Erik is but be more careful because Baleog is slower.

Olaf:

Get past the next pounder and be very careful because your shield won't block the bigger pounders. Block the next one so your other vikings could get past it.

Erik:

Get past the pounder. Go to the right and climb up the two vents above you. Grab the items and get the exploder ready.

Baleog:

Get past the pounder. Go to the right and shoot an arrow at the button to the right. Go to the right and down the ladder after you hit the button.

Olaf:

Go to where Baleog is a little to the left of the pounder, leave your shield facing up.

Erik:

Jump on Olaf's shield then look for the moving platform that will move in and out of the wall. Jump on that then quickly on the platform to the left. Use your exploder to kill the enemy here. There will be a secret in the vent to the right that you will have to take. You have to grab the flaming arrow up there. Now the pounder that Olaf and Baleog are standing by is off. Erik:

Go to where Olaf is and get in the crane. Activate it by pressing A.

Olaf:

Move into the magnet so you will float up to it. If you do not float up to it, it will be because you either don't have your shield facing up or your not directly under it.

Erik:

Move Olaf so he will be right above the button.

Olaf:

This part is kind of tricky. you have to press A or B to make your shield go in front of you. This will make you drop but you will drop fairly quickly. When you go just a little under the button, press A or B again so you will slowly go back up to the magnet. As you are going up, press the button. Glide to the right and avoid the force fields. Go up the anti-gravity area and glide again. Grab the bombs and land on the trampolines. Grab onto the ladder and wait for an opportunity to cross. He will throw two bombs then three shots, always in that pattern. When you get a chance, go along the ladders and get to the other side of Tomator. Grab a third bomb and start dropping them on him. Drop one at a time and three bombs will get rid of him for now. Grab the key by where he was then go on the trampoline to the right. Use it on the lock then go to the right and through the teleporter. Put the shield above your head and walk to the left.

Baleog:

Fall to the left and grab onto the ladder while falling, the ladder will be on the right side. Go to the right and get on the moving platform. Get across and grab the fire arrows at the top of the ladder. Equip them, then shoot an arrow to the right. Fall to the right but fall along the left side. Land on the trampoline and go across them to the ladders. Go across the ladders next. Keep going to the right and up the elevator. Shoot both switches to the left. Shoot the lower switch to the left and go to the right to grab the key. Now go back to as close as you could to where you started and use the key. Fall down and get on the trampoline. Go to the right and hit the button. Go through the teleporter.

Erik:

Go through the same teleporter that Baleog went through. Jump on Olaf's shield and go through the teleporter. Go to the right and don't fall off. Watch Tomator, his attack pattern will be the same as with Olaf (shoot three, bomb twice.) When he brings down his force field, charge into him. When he throws his bombs, stay on the ground and when he fires his gun, go on the ladder. Just charge into him four times. Grab the key and use it on the lock. Go to the force field on the right and wait there.

Baleog:

Shoot an arrow to the right and switch to Erik to watch it hit the button.

Erik:

Go to the right and get on the trampoline. Go to the right up here and go through the teleporter.

Baleog:

Go through the teleporter that Erik just went through.

Olaf:

Go through the same teleporter. Go to the left and grab the bomb against the wall. Use the trampoline and go straight up. Right as you are about to hit it again, move into the anti-gravity area. Get to the bottom and go up the anti-gravity to the right but glide over Tomator. Drop a bomb on him and glide in front of him. Look at him so the shield will block his attacks. Stand close to him so his bombs won't hurt you, but don't stand too close because he still has the force field protecting him and you don't want to die now.

Erik:

Get down to where Olaf is, stand close so you won't get hurt by his bombs.

Baleog:

Get down to where Olaf and Erik are and shoot an arrow at Tomator twice so he will be dazed and confused.

Erik:

Charge into Tomator.

Keep doing that Block, Arrow, Charge strategy until it knocks him into the anti-gravity area. You will only have to do it two times, but you're not over yet. Go up after him and keep using this strategy until it finally knocks him into the corner up top. Use Erik to jump and hit the switch. That will send Tomator into space and save you!

- Food - Any type of food whether it's meat, vegetables, or fruit will give you more health.
- Keys - These are used to unlock doors. The color of the key has to match the color of the lock.
- Shoes - These will make you heavier for crossing anti-gravity fields.
- Exploder - These look like an 'X' with arrows pointing out in every direction. This will kill all of the enemies on the screen.
- Shield - This looks like a really old coin with some kind of a symbol on it. This coin will raise your maximum health by one dot.
- Flaming Arrow - This can only be used by Baleog so you will have to give it to him first. Once you use it, all your arrows will have fire on the tips and they will kill any enemy in one hit.
