

Tony Hawk's Pro Skater 3 Trick Guide

by Sidebinder

Updated to v1.3c on Mar 13, 2002

This walkthrough was originally written for Tony Hawk's Pro Skater 3 on the GBA, but the walkthrough is still applicable to the PS2 version of the game.

Introduction: |
=====

Welcome to my Trick FAQ, I hope this comes in handy for some people. I typed this because I love this game. This FAQ is devoted to the Tricks in this game and nothing else. So, if you are looking for a Walkthrough of the game, go else were. This Trick FAQ contains all the tricks in the game and the trick point values. Enjoy!!

=====
Version History: |
=====

Version 1.0a: First Version!!! Much BETTER Version coming soon. Enjoy!!!
Version 1.1b: Second Version. New updates. And Fixed!!
Version 1.3c: Third Version. Added the Car Grab and Car Plant maneuver. Added a Q&A section, 1 question so far. And finished the Trick Points list.

1. General Tricks |

=====

Controls for this game are very simple. The controls are identical to THPS2, if you played THPS2 to death you will pick up very quick. Here is a summary of the Controls:

Navigating your skater:

---Speed: To get the extra speed needed hold down the B button, this also puts you in to Ollie position.

---Brake: To Stop your Skater from Moving, press Down on the Control Pad. If you let go he and/or she will start moving again.

---Turning: Turning your Skater is done by pressing Left on the Control Pad to turn left and Right on the Control Pad to turn right. To turn sharp press Diagonally Down and Left or Right on the Control Pad.

Ollie/Jump Tricks:

---The Ollie: To perform an Ollie, press B to crouch down; release it to jump. As told in the Owner's Manual. But it also says the longer you hold down, the higher you will jump. This is simply not true. After your skater stops crouching release the B button that is how high you will jump. To jump higher, resort to the No Comply, Boneless, Fast Plant, or Bean Plant.

---No Comply: To perform the No Comply, press Up on the Control pad, then press B or Up+B. The No Comply is about 25% higher than an Ollie. And about 20% lower than a Boneless, Bean Plant, or Fast Plant. But it does come in handy for curtain objects. To jump the highest you should do a Boneless/Bean Plant or Fast Plant.

---Boneless/Beanplant: To perform a Boneless/Bean Plant, press Up-Up on the Control Pad, then press B or Up-Up+B. The Boneless helps you reach curtain places and helps you jump higher. The Boneless/Bean Plant and Fast Plant are about 45% higher than the Ollie I would say. Also, I have put the Fast Plant in a different section because the animation is different.

---Fast Plant: To perform a Fast Plant, press Up-Up on the Control Pad, then press B or Up-Up+B. The Fast Plant is a bit different than the Boneless or Bean Plant. Unlike the Boneless or Bean Plant, your Skater holds the Board with his Front Hand and his Front Foot on the board, and puts his Back Foot on the ground. There is no difference in hight between the Boneless/Bean Plant and the Fast Plant. The only difference is the animation. Also, only Tony Hawk, Rune Glifberg, Bucky Lasek, and Shaun Palmer have this Plant, all the other skater have the Boneless or Beanplant.

---Nollie and Fakie Ollie: To perform a Nollie or Fakie Ollie you must tap the L button, then crouch and release the B button. The Nollie is a trick performed by jump with the front of the board. You get points for this also. The Nollie does not make you jump higher or anything, it is basicly here to help you get more points. The Fakie Ollie is the same as a Nollie, but, your Skater is in backwards position. The Fakie Ollie gets you more points than the Nollie. The Fakie Ollie does not make you jump higher, it is also here just to help you get more points.

Flip Tricks:

The Flip Tricks in this game are perform by doing and Ollie, Nollie, Swith

Ollie, or Fakie Ollie. To perform these tricks, press a direction such as Left+L button and you get a Kickflip. You must press Left+L or so, after you have done some sort of Jump.

Grab Tricks:

The Grab Tricks are opposite of Flip Tricks. Instead of flipping your board you grab your board. To grab your board press a direction on the Control Pad and then hit the R button. Grab Tricks are best performed on ramps, QP, or Half Pipes or any were you can get some Air.

Lip Tricks:

The Lip Tricks are a bit odd and confusing to some people. You must approach the ramp straight and press a direction on the Control Pad and press the A button to do these. Be careful when balancing these tricks.

Grind Tricks:

Grind Tricks are when you slide a part of your board on a rail, ledge, or anything in the game. To perform these you need to press a direction then A. Here is a list of the default Grind Tricks:

Combination	Trick Name
Up+A	Nosegrind
Up+Right+A	Crooked or Overcrock
Right+A	Tailslide or Noseslide
Down+Right+A	Smith or Feeble
Down+A	5-0
Down+Left+A	Smith or Feeble
Left+A	Tailslide or Noseslide
Up+Left+A	Crooked or Feeble
Up-Up+A	Nose Bluntslide
Down-Down+A	Bluntslide

Reverts:

Reverts are a new addition to THPS3, these are the key linking every trick together. To perform a Revert, you need to Revert you need to press the R button after you do a trick in the Air. The only way you can do a Revert is on a QP or HP or Pool. The Revert is here for style and for link tricks together.

So, lets say, you could do The 900 to Revert to Manual, you can not do a 900 to Manual. You can also do a Revert out of grind on QP's, HP's, or Pool's. If you want big score you should learn how to do a big trick in the Air and then perform a Revert to Manual, this is how you get long lasting combos.

Manuals:

Manuals are very important to high scores. The Maunual is performed by pressing Up-Down on the Control Pad. You can also press Down-Ip on the Control Pad to perform a Nose Manual. Both of these can be pivoted by pressing R for Higher Scores.

Wallride:

The Wallride is a trick were you ride with your board slide on the wall. To perform a Wallride, jump close to a Wall and press the A button, you will begin to Wallride. You can Wallie out were you Ollie out of it, just press the B button. Wallrides don't really help with Scores.

Car Plant:

To perform a Car Plant you need to be in L.A., Rio, or Suburbia. When you see a car try to jump it and land on it. You will get the Car Plant.

Car Grab:

Sneak up behind a car in L.A., Rio, or Suburbia and press the A button. Your

Skater will be dragged by the car until you press B to jump off or til it gets to the end of the road. Back to the Future style!! Very nice addition VV.

=====
2. Skaters Regular and Special Tricks |
=====

In this here section you can find out all about the Skaters Tricks. There is no BIOs, Stats, or Decks. As of yet. I also have not unlocked all the Secret Skater, so, once I do I post there trick.

My suggested Button Configuration:

A: Ollie
B: Flip
L: Grind
R: Grab

Dirertional Keys:

Up: Up on the Control Pad.
Up+Right: Diagonally Up and Right on the Control Pad.
Right: Right on the Control Pad.
Right+Down: Diagonally Right and Down on the Control Pad.
Down: Down on the Control Pad.
Left+Down: Diagonally Left and Down on the Control Pad.
Left: Left on the Control Pad.
Left+Up: Diagonally Left and Up on the Control Pad.

Button Keys:

B: Ollie
A: Grind
L: Flip
R: Grab

Please Note: All Street Skaters have the same tricks and all Vert Skaters have the same tricks. Shaun Palmer is the only one that has his own line up of tricks.

5. Q&A |
=====

Q:

Godzilla@aol.com writes:

THANK YOU for doing a trick list. My question is how do you do a crooked grind? You know the part in the airport where you have to crooked grind over the south bench.

Another question is how exactly do you grind over the airplane? I'm looking at it and wondering what I'm supposed to do. any help would be appreciated

Chris

A:

To do a Crooked Grind press either Diganolly Up and Right then press A.

To Grind over the Airplane you need to grind the slide thing and jump over the airplane and grind the other slide on the right side of the airplane.
