I. Passwords

If you own the European version of Disney's Treasure Planet, you'll quickly find out that the passwords from the US version won't work if you play the game in any language other than English. With the help of some cheati... err, hard work, I have here the passwords for all of the languages.

Remember, the English passwords will work on the US version.

Note 1: Due to an apparent lack of testing, the Italian password given for the Docks stage is the same password given for the Mines stage. Using the password will take you to the Mines stage, so the only way to play the Docks stage is to enter the password for the Tavern, and then beat the Tavern.

II. Cheat Codes

Some quick cheat codes to help you through the game. These WILL NOT work on Interact's GBA Gameshark. If you don't know how to use these, don't bother e-mailing me, because these are provided as is.

III. Version History/Copyright Info

V 1.0 - December 11, 2002 - Everything's pretty much finished, unless someone can figure out the Italian password for the Docks.

V 1.1 - December 15, 2002 - Corrected the quote.
