---

## Adventure in Collecting

---

The story advances by collecting information on the map similarly to a general RPG. The battle starts when you meet the enemy's youkai on the way.

---

## Battle Mode

---

	Player's youkai	Enemy's youkai
Deck Field	Console	Command Puzzle

---

The battle is done in a new form called the 'puzzle battle system.' The player and enemy advance in the battle by removing the 'charms' that exist on alternate deck fields. If it is easily explained, it is a way of removing the 'charm' of "attack" and "defense" instead of inputting the command of "attack" and "Defense" like the usual RPG.

---

## Types of Charms

---

Attack Charm (Sword) - When you remove the attack charm, you remove the instruction of the usual attack.

Defense Charm (Shield) - When you erase the defense charm, you remove the instruction of defense.

The attribute charms are fire magic (red), water magic (blue), wind magic (green), earth magic (brown), light magic (white), and dark magic (black).

You can accumulate MP by removing the charms of the same attribute as your youkai.

---

## Removing of the Charms

---

Move the cursor right and left, and choose the charm to remove the charm. You can remove the charms simultaneously if the same charm match with the up, down, left, right.

The power increases as you remove more with the collection of the charms. An upset win is also possible when you cleverly arrange the charms and remove them at once!!

---

## Command Panel

---

You can use "magic" and "tools" when you choose the command panel. The "magic" and "tools" are also various kinds!!

---

## 2 Hidden Modes

---

In 'Youkaidou,' to tell the truth, there are two extra "hidden mode." First of all, to enter the "hidden mode," you start the game with "hajimekara." And, it is good if you put in the key words instead of hero's name. Then, it is the introduction of the two "hidden modes."

---

## Sound Test

---

The key word for the "Sound Test" is 'saundokiku.' (saundo in katakana and

kiku in hiragana). 'Let's put this key word in the name input. The operation procedures of the "Sound Test" is the tune selection that you want to hear with a cross button, the musical performance starts with the A button, and the musical performance stops with the B button. By the way, you can quickly change the music number with the L and R button. Please reset software or turn off the power to end "Sound Test."

---

## Youkai Encyclopedia

---

The key word for the "Youkai Encyclopedia" is 'jitenmiru.' (jitenmiru in hiragana). You can look at the encyclopedia where all youkais are recorded when you input this key word in the name input. The operation procedures of the "Youkai Encyclopedia" is basically the same while playing the game. You can select the youkai who you want to look at with the cross button. To end the "Youkai Encyclopedia," push the B button to return to the title.
