Opponent's Deck Guide

Version FINAL

1. Introduction

Hi, welcome to my guide. In here you will see every card in every opponent's deck. I've decided to make this guide quite simple (but useful), because I made this only because I was bored lol. I hope this guide proves useful to you.

2. Table of Contents

- 1. Introduction
- 2. Table of Contents
- 3. Decks
- 4. Legal crap

As you can see, there is no credits section. This is because I made this guide myself, without any help or something, so there are no credits. It's possible there will be credits the next time. Yes, I know this is the FINAL release, but I name it that way because all decks are done and (almost) nothing is left to do.

3. Decks

First, some slight notes. If you want to go to someone's deck fast, simply use the search function and input the name of the duelists. Except for the first random duelists you encounter, I name them the name of the place you find them in. Also, many people don't know you can duel little Yugi. This is done by going to Grandpa's house after you beat Bonz (or what it Espa?).
