Booster Pack List and Card List for
Yu-Gi-Oh World Championship Tournament 2004
compiled by Pandas Box
E-mail Pandasbox84@hotmail.com

THIS FAQ IS COMPLETE! All cards in the game are listed here.
I will ignore any E-mails asking about what cards are in the
game. This is especially true if you're asking about the
God cards or Injection Fairy Lily.

However, complete doesn't mean perfect. There are likely
cards missing from the later packs due to their size. While
I have a location for every card, I do not have every pack
listed that each card appears in. If you find any omissions
or typos, please let me know. I'll make note of all changes
and update when warranted.

IMPORTANT NOTES: PLEASE READ

Note #1: The Booster Packs work differently than in previous
games. The rares you get depend on what cards you already
have. You can not get a second copy of a rare until you have
one of all the other rares from a given pack. You can not get
a third copy until you have two of all available rares.

The commons work similarly. While you can get any common at
any time; commons you don't have are more likely to appear.
If you open a pack with nothing but commons, at least one of
the commons will be one you don't have, assuming that there
are any.

Note #2: You must have at least as many wins as losses to
keep the packs unlocked. It is possible to lose a pack you
have unlocked if you lose too many times to the duelist that
unlocks it. This holds true for the first 19 packs.

THE MILLENIUM PACKS

Thanks to Unsent Guardian and Kuriboh Master for info

The Millenium Packs are unlocked by beating the Tier 6 duelists 20 times. It's unclear at this point how many more wins than losses are needed to unlock these packs.

These cards give you mostly cards that you have the least of. There are no new cards here, but they're a great way to finish off your collection. Pack lists would be pointless since all cards of the appropriate type seem to be available from each pack.

Simon	Magic Cards
Yami Bakura	Trap Cards
Yami Marik	Effect Monsters
Duel Computer	All Monsters
Yami Yugi	All Cards

CARD LIST

Note: This is not a complete list of where each card can be found. I'm omitting the Millenium packs because all the cards can be found there. Also, due to the massive overlap, I'm only listing the Yugi Pose packs if that's the first place to find a card.
