I only need a better description for Heart Piece #44. Place in game: Finished! Version 1.01 (1 Dec. 2004) Progress/Changes: Asked by neoseeker.com if I would post their FAQs on their site. I agreed. Place in game: Finished! Final (9 Dec. 2004) Progress/Changes: Good description for #44! Place in game: Finished! A plain Heart Piece FAQ for this awesome new Zelda game for the GBA. As always, you'll start off with 3 heart containers, but if you collect all Pieces of Heart, you'll end up with 20! That's nice! But with a total of 6 dungeons there are just 9 Heart Containers in total that belong to the storyline, so it's up to you to seek out these remaining 44 Pieces of Heart. You'll even get one full heart container if you look carefully.

Also, I included this : [], so that you can check off the piece of heart that you found. Well: good luck!

#1. []

Go to the house to the right of the shop (the shop with the rupee on its roof). Flip the jar over and shrink. Exit the house via the small gate. Then walk north towards the stairs and climb up the vine there. Walk to the backside of the hotel and enter (by the small flowers). Inside you'll find a Piece of Heart.

#2 []

When you can play the game inside the house with the purple ghost (after the 3rd dungeon, I believe), go there and play the game. Kill all the monsters you have to fight to win a Piece of Heart.

#3 []

Complete the chicken mini-game to get a Piece of Heart. The mini-game consists of something like 10 rounds!

#4 []

#5 []

Shrink in the house with all the builders and walk towards the north through a couple of houses. Walk through the path with the 2 cats to reach the small fountain. Walk across the ledge and enter the hole. Walk a bit to the north and over the bridge. Jump with the Roc's Cape to reach the Piece of Heart.

#6 []

When you can become with 4 Links, enter the school and shrink there. North of field the kids played on, is a small path for Minish Link. Enter it, and all the way to the end is a piece of heart.

#7 []

Get all 130 Figurines (Thanks to John Chrapkowski for this number). Then go to a person standing near the training house and the cafe, and he'll open up a house with all stuff lying around, including a Heart Piece.

<-----> | b. Minish Woods | <----->

Crenel after climbing the vine, head up and bomb the wall between the rocks to the right of the sign. Enter to find lost of faeries and a Piece of Heart. #14. Then climb up another wall, walk past the mushroom and climb up another wall. Then, climb up the last wall and enter the cave. Use the cloning technique to stand at the two switches at the same time, and then head up and collect the heart piece. #16. Walk through and get the Heart Piece. #43 [] In the first room of the third dungeon, take the second door from the right. Climb up to the second floor and shrink there. Then, go one room south and one room west. Drop down through the hole. Then head right through the tube to see the Heart Piece lying over there. #44 [] By Michael Jan (a.k.a. Mikal): In the Wind Dungeon, after defeating the mini-boss you will enter the interior of the tower. Go to the fourth floor, at the top left of the room, push the bricks from the right side, exit the door, walk the path and get the heart that's located outside the tower. #SHC [] This is the special full heart container that you get from a Minish in Lake Hylia. Listen up: You must go to the very far northeastern corner of Minish Village, say, go to the location of Heart Piece #9. Now, jump in the water and swim towards the house and enter it. Now fuse with the Minish there. Exit the house, and enter again and fuse another time. This time, he'll make a hole in the ground very near to the Wind Crest in Lake Hylia. Now, exit Minish Village and become big again and warp towards Lake Hylia. Shrink using the stump and enter the hole in the ground that you just made. By jumping the rolling pillars, make your way to the other side of the cave and head up the ladder. Head inside the house and talk to the Minish there to get a full Heart Container!
