```

1) ZOIDS LEGACY WALKTHROUGH

After the Entry video, your hero (we will call him Zeru for more convenience) will enter the Cebu Town.

```
[-----]
[           Cebu Town           ]
[ITEMS:Armor plus weapon,Lsr. M Gun, CA Ion S ]
[Deck commands(DC): Supplier,Data Gather      ]
[                                           ]
[-----]
```

Upon entering the town, talk to the townspeople to learn about Zoid warriors. Go to the upper right corner of the town and open a chest to find an Armor Plus weapon. Equip it immediately. Enter the building in the lower right corner (the one with the open door) and talk to the old man to the left to memorize the Supplier deck command. Exit this building and enter the one in the lower left corner with a sign with some kind of key outside. Open the chest there to find a Lsr. M Gun and equip it. There is nothing good at the store except for the Partcl. Gun but it costs way too much so leave it for now. Now enter the building with a sign of a hammer outside and open the chest there to find a CA Ion S. Don't buy anything for now and exit the shop. Now, head to the big building north of town. Talk to the first scientist to learn about the deck commands and memorize Data Gather. 1 deck command. Talk to the second scientist and upgrade your Zoid's defense twice (by 10). Then leave the building and the town.

Outside of town, level up a little and earn some money to buy the Partcl. Gun and upgrade your Zoid as you like. When finished head left of town and near the mountains to start a battle with some Zoids. When you destroy them a woman will come and help/join your team. Then you will have to fight another pair of Molgas. When you defeat them, the "Mystery Warrior" will leave your party. Now, you can either go to the next part of the game or stay and level for a while. I stayed until I was lvl 3 and I upgraded my zoid A LOT (just make good use of your Supplier DC). Anyway, after you are finished, head left and a little north to reach the second town of the game.

```
[-----]
[           Llama Town          ]
[ITEMS:Sml Laser Weapon,       ]
[Deck commands(DC):Friendship,Conservation    ]
```

[]
[-----]

Upon entering, talk to the townspeople if you want to learn about Zoid battles and head to the building with a sign of a key (I think it is a drill actually) in the lower left corner of the town. Enter it and go up to find a chest with a Sml Laser Weapon. From the shop buy a Twin Laser and equip it if you want. You could buy an anti-air weapon as well but not necessarily. Exit the shop and enter the one at its right with the hammer. Open the chest to your left to find a React U. item. Go to the building with a picture of a Zoid if you need any improvements for the Sabelion. Finally, enter the building with a feather outside and talk to the receptionist to learn that you need a partner if you want to take part in Zoid battles. Let's find one. Enter the laboratory (with the zoid outside), speak to the woman there and then get out again. You will meet the "Mystery Warrior" again (you will learn that her name is Juno). She agrees to join your team and let you use her Gun Tiger Zoid along with the Friendship and the Conservation DC. Now press START and go to the team menu. Put the Gun Tiger in a position and now you can participate in the battles. But, before that go and earn some money in order to improve the second Zoid. Anyway, after you are done, go and take part in the Zoids battle.

1st Battle: Team Zeru vs Team Cannon

2nd Battle: Team Zeru vs Team Killer

3rd Battle: Team Zeru vs Team Saicurtis

4th Battle: Team Zeru vs Team Bugs

5th Battle: Team Zeru vs Team Atak Kat

So let's keep up with the walkthrough. When you exit the town head all the way west to find another one.

[-----]
[Old Village]
[ITEMS:Gatling Weapon]
[Deck commands (DC):Mines]
[]
[-----]

When you enter the village, a short scene will take place. Bandits are raiding the temple and you will have to help. The villager will lead you to the temple and there you will have a conversation with a couple of

bandits. The one will run away but you will have to fight with the other one.

<----->
< BOSS BATTLE>
<----->

Enemies' HP:

Northeast hellrunner: 51
Middle hellrunner: 45
Southeast hellrunner: 45
Back hellrunner: 48

This fight might be called a "boss battle" but actually it is very easy. All of the enemy zoids can be taken out in one hit and if you have the Twin Laser you can destroy two of them in one hit. Nothing difficult here.

After the battle, the bandits will flee but so does Juno. You will have to follow her north but first we have some business in the village. First enter the drillshop (I will call the shops depending on the sign outside), head north and then right to find a chest with a Gatling weapon and improve your zoid a little.

After you are done head out of the village and head north. A short scene will take place and then a battle will start.

<----->
< BOSS BATTLE>
<----->

Redler's HP: Less than 80

This Zoid avoids easily the attacks but it is low on HP. Use your Twin Laser attack and pray that you will hit it. It's a One Hit K.O.

After the battle, you will be transferred back to the town. Enter the house above you to learn something about both heroes' pasts. But suddenly a kid says that those good-for-nothing bandits are back. Another battle here:

<----->
< BOSS BATTLE>
<----->

Guysack's HP: 90

Easy battle. He should be gone after two hits. Weak attack too. This is barely a boss battle.

When you win, you will find out that Juno is gone so you will have to find her once again. First, go to the

restaurant and talk to the old man to memorise the Mines DC. Then exit the town.

Head north and when the path splits, follow the right one to reach:

```
[-----]
[           Outlaws Town           ]
[ITEMS:1000G, Hammer Rock Data, CA Ion M ]
[Deck commands(DC):CoreSecurity1 ]
[           ]
[-----]
```

When you first enter, talk to the people to gather some info. Then head to the upper right corner of the town and open a chest for 1000G. Now from the entrance, go left past the hammershop and in the small building. Open the chest to find the Hammer Rock Data. Now head to the Zoidshop to see a short scene and take a pilot named Bit in your team. Head left to find a chest with a CA Ion M item. Talk to the scientist near the entrance to memorise the CoreSecurity1 DC and exit the building. Head to the house where you found the Hammer Rock Data. A scene will take place and you will be given an option. Whatever you choose, the result will be a battle so choose either.

```
<----->
< BOSS BATTLE >
<----->
```

Hammer Rock's HP: 165

Easy, easy and easy. Just attack normally and this battle will be a breeze. Nothing to worry about.

After the battle, a scene will take place and now we have to go to the Galil stadium. So, off we go. Exit the town and head east and a little bit north until you reach the stadium.

```
[-----]
[           Galilstorm           ]
[ITEMS:Command Wolf Data, Z Core SS Parts ]
[Deck commands(DC):Junk Parts ]
[           ]
[-----]
```

Go to the restaurant and speak to the old man to learn the Junk Parts DC. Enter the Zoidshop and go to the lowest right corner to find a Command Wolf Data and a Z Core SS Parts. From the drillshop buy either the SD railgun or the Aslt Rifle. It's your choice. Now last but not least, go to feather shop and join the Zoid Battle.

1st Battle: Team Zeru vs Team Breaker

2nd Battle: Team Zeru vs Team Viper

Quarter Final: Team Zeru vs Team Bomber

Semi-Final: Team Zeru vs Team Hunter

Final Battle: Team Zeru vs Team Leviathe

After the last battle, Leviathe will finally agree to give Juno back to you but as you go to the waiting room, a strange man enters and hits you in the back. When you wake up, Juno is missing and a scene takes place. Now exit the town and head east into a cave.

```
{-----}  
{NOTE:The next part in the cave is just for level up}  
{and treasure hunting purposes for now.If you want }  
{you can skip this part and continue with the game. }  
{-----}
```

E.SEA RUINS BASEMENT 1 FLOOR

This is actually the first dungeon of the game. Follow the path and at the first intersection head south. There follow both both paths, the left for a CA Ions S item and the right for 1500G. Now head back at the first intersection and head right. Then go north to find a chest with a CA Ion S item. After that, continue the path south and steer right at the intersection to find a chest with a Z Core H1 part. Continue the path north and then right and right again at the intersection to find a chest with 2500G and the entrance to the 2nd floor.

Upon entering the 2nd Floor, open the two chests that are above you to find a Lg Armor +weapon and an Accltd Cn. weapon. Continue this path and head left at the first intersection. Head all the way left and when you are stopped by the wall head all the way north to find a chest. Open it to acquire Z Core IS part. Now head right and on your way go a little south to find another chest that contains a React U. item. Continue left to reach the entrance from where you started. From there, head all the way right to find a chest with the Cannonry U part. Head north and when you reach the intersection head left for a chest with a CA Ion M item and continue north and all the way left to find a chest with a CA Ion S item. Now head back and a little south to find the entrance for 1st floor again.

Upon entering, go south to find a chest with the Muddy Ground DC. We are done with this cave for now. Head back to the city in order to continue the story of the game.

From Galistorm, head all the way north and right to find the next town. But before you enter it, a long scene will take place. After the scene, you will get another Zoid, an organoid and two datas. Then, you will be automatically transferred to Mount Town.

```
[-----]
[           Mount Town           ]
[ITEMS:Smoke Unit weapon,ZC Promo item ]
[Deck commands (DC):             ]
[                               ]
[-----]
```

Phew. Another town to explore. Firstly, go right and into the drillshop. Open the chest there to find a Smoke Unit weapon. Exit the shop and go left into the hammer shop. Open the chest there to find an ZC Promo item. Enter the restaurant and speak with the waitress and the man with the red sweater and choose the first option when you can. Last but not least, enter the feather shop to participate in the battles.

1st Battle: Team Zeru vs Team Wolf

2nd Battle: Team Zeru vs Team Rocket (pokemon anyone?)

3rd Battle: Team Zeru vs Team Liger

4th Battle: Team Zeru vs Team Tiger

5th Battle: Team Zeru vs Team Kong

But wait... Just before you win intruders on the field. After this long and confusing dialog, you will get the Mosasledge Zoid, Leo Blaze Zoid, Unenlagia Zoid, Nightwise Zoid as well as three new pilots. Yeah! Bad thing: they don't have any equipment so you will have to buy some. Anyway, after you are ready, head to the entrance of the town to meet Dr T.

When the talking finishes, head north on the world map to find a circle of light. You can go through it so head to the left of it instead. Follow the path until you enter the ruins. A dialog will occur and then a bandit comes and you battle.

```
<----->
< BOSS BATTLE >
<----->
```

Rev Raptor (x3): 180 HP
Command Wolf: 130-200 HP

This is an easy battle. It's 4x4 but your Zoids are far better than theirs. Use the organoid option with the

Saberlion and you will be alright. Just attack normally and victory will be yours.

After the battle, a short scene will take place as always and then you will be able to move again. Keep going north and a little left to reach the next town.

```
[-----]
[           Seas Town           ]
[ITEMS:DSC Unit parts,Zaber Fang data ]
[Deck commands(DC):F. Drgn Gattai ]
[                               ]
[-----]
```

Enter the Zoidshop which is up and left and find two chests containing DSC Unit parts and the Zaber Fang data. Now head out and in the restaurant. There, you will find a bandit who will try to pick a fight with you. You can either choose to run away (Organoid becomes more blue) or fight (go to the feather shop and fight and you just earn exp). It's your choice. I chose to fight. Now, when you are transferred in the feathershop, you must have only Zan in your team if you want to battle him. If you do otherwise you will be pushed out of the building. I have received a lot, lot, lot of e-mails regarding this point so I put it on my walkthrough. (I have to admit though that I should have put it earlier. After you are done, speak to the bartender and choose the first option to whiten Pulse even more. Now, head to the entrance of the town to talk with Albane and memorise F. Drgn Gattai DC.

When you head out of the town you will go to the desert southwest in order to start the BLOX tests. The test will be interrupted by the Imperial Forces and just before you start Gattai vs Gattai battle, you are warped in a different world and go to an unknown town.

```
[-----]
[           Imperial Town       ]
[ITEMS:Dmgd rifle parts,ZC Promo item, ]
[IonRadiatr weapon,           ]
[Deck commands(DC):Change Energy,C. Drgn Gattai]
[2-armL. Gattai               ]
[-----]
```

Now that's what I call a city. Enter the hammershop and open two chests with a Dmgd rifle parts and ZC Promo item. Now head out and enter the drillshop on the top right of city. Open a chest there for a IonRadiatr weapon. Exit the shop and enter the Zoid shop to see a short scene. When you have to choose an option, choose the first if you want Pulse to whiten even more. After the talking, you will get

a Blade Liger Zoid and a new pilot. Talk to the scientist at the top right to memorise the Change Energy DC. Exit the building and head to the bar and (guess what) another scene takes place. After it's done, you get a Demon's Head Zoid, a Diplo Guns Zoid, a Flyscissors Zoid, a Shell Karn Zoid, a C. Drgn Gattai DC and three new pilots. After you are ready, exit the town and you will learn the 2-arm L. Gattai DC. Now, head north along the path and you will find a Republic Warrior, Herman, that will join your party with his Gojulas Zoid. Keep heading east now and you will eventually reach a town and a scene will take place.

<----->
< BOSS BATTLE >
<----->

Iron Kong (x2): 408 HP
Iron Kong PK: 550-830 HP
RideBlunker (x2): 255 HP
Red Horn BG: 408

Not very easy, not too hard. Those guys have some strong attacks. Take out the Rideblunkers and Iron Kongs first then give it all you've got to the rest of them. Eventually they will fall.

After the battle, there will be a little talking and Irvine with his Comm. Wolf IS Zoid and Moonbay will join you. You will learn the Cobering Fire DC too. But Van will leave the party. So will Herman, unfortunately. When you can finally move, go north and follow the path and when you reach a T intersection steer right and follow the loooooong path for a scene with Pulse to take place. Choose the second option when you are prompted to make Pulse more blue and then continue following the path. Steer left at the T intersection and prepare for a battle.

<----->
< BOSS BATTLE >
<----->

Zaber Fang ATs (x2): 368 HP (n), 391 HP (s)
Zaber Fang RS: 288
GuysackStingr: 574-639 HP

Easy battle. Just watch out for the freezing effect of their attack.

After the battle, Irvine and Moonbay will leave the party but Irvine will give you his Comm. Wolf IS data. Then, the party will jump to the warp and return, apparently, back to the world they met. When you have to choose between two options, pick

the first if you want to "whiten" Pulse.After the talking, you will find yourself to:

```
[-----]
[           Live Town           ]
[ITEMS:2 hispd C. weapon,      ]
[Deck commands(DC):Redistributn.]
[                               ]
[-----]
```

Fisrt thing to do here:go to the drillshop and open a chest there for a 2 hispd C. weapon.Now go to the Zoidshop and open a chest to find the Redistributn. DC.Go the bar and talk to the man to the north.Pick the first choice to whiten Pulse.Now exit the town.

From here go west towards some ruins.Your party argues for whether they should go or not.Finally, they decide to go so enter the ruins.

LIVE RUINS BASEMENT 1 FLOOR

From the entrance head north until you find another Zoid.You will meet Alster who will join you along with his Liger Zero Zoid.Continue north and a little west to find a chest with a CA Ion M item.Now head east and just below the what seems like a door to find another chest containing another CA Ion M item.Continue east and north to find a chest with 5000G.Npw head south and east to find another chest containing the Z Core FL parts.Continue south and west to find another chest with a CA Ion S item.Just on the other side of it (to the east) there is another chest with the Z Core H2 parts inside. Now, continue south and east a little for a chest with an ZC Promo item.Go a little south again and east for another chest with a CA Ion L item and west for 5000G.Head back a little north and west for the entrance to the 2nd floor.

Upon entering,go north all the way and east to reach a chest with the Attack U parts.Head back west,south when you can and east again for another chest with the Comm. Wolf AC data.Head back west, south when you can (all the way) and east for a chest with the EM Unit parts.Head back north and enter the second path to the right to find the exit to the 3rd floor.

Head right and you will find a chest.Open it to find the Lmt. OS Parts.Head back left and up when you get a chance to find another chest with the Red Horn BG data.Now from the chest,go up and steer right in the first chance and then up again to find a chest with the Lightng Saix data.Now head left and into the 4th floor.

From the entrance, head left and down to find a chest. It contains a CA Ion L item. Head right and you will find another chest with the LG Head parts then head back left and north. When you reach the intersection head right to find another Zoid. After a loooooong talk you will obtain the Buster Eagle Zoid. Alster will then leave the party.

You will be automatically transferred out of the cave and the team will decide that they have to go to the Sandstorm Arena. So head north. It may take you a while before you find it but keep looking and you will succeed. (I can't help you with this because I was lost too). Anyway, when do, enter the city.

```
[-----]
[           Sandstorm           ]
[ITEMS:Evactn U item,Gojulas data ]
[Deck commands(DC):           ]
[                               ]
[-----]
```

As usual. Enter the hammershop, find chest, take Evactn U item. Now go to the Zoidshop and open the chest there to find the Gojulas data. Improve your Zoids if you want and exit the building. There is nothing to do in the bar and drillshop so enter the feathershop. Take part in the battles.

1st Battle: Team Zeru vs Team Blaster

2nd Battle: Team Zeru vs Team Flyer
(Your team in this battle must consist of four flying Zoids)

To be able to take part in the next battle, you must have a Zoid with size bigger than XL. To find one of those, go to the Live Cave you were before and try to gather the data of either Gojulas or Go(r)dos. Then go and "develop" it in a Zoidshop. After you have done that go for your third battle.

Quarter Final: Team Zeru vs Team Gigant

Semi-Final: Team Zeru vs Team Leomaster
(recommended team for this battle: Saberlion, Shield Liger DCS and Comm. Wolf IS)

Final: Team Zeru vs Team BD

```
<----->
< BOSS BATTLE >
<----->
```

North Flyer: 335 HP

South Flyer: 335 HP
Bloodler: 924-1070 HP

This battle can be tricky. The boss attacks twice in a round and every attack is veeeeery strong. If you use Saberlion, use your organoid IMMEDIATELY. That's what saved me in the battle. If you don't then attack with your more accurate and strong attacks. Victory will be yours eventually.

When you win the battle, exit the town. You are now able to take part in Zoid Battles in the north continent. For now head north and west into the next town (it is between two lines of mountains). But on the way somebody stops you. You will face another boss battle:

<----->
< BOSS BATTLE >
<----->

S Liger DCS Js (x2): 400 HP
R. Interceptor: 497-602 HP
GojulasGunner : 1708-1632 HP

I would say this is a tough battle. Concentrate first on the S Liger DCS Js and then on the Interceptor as it is low on hp. Then just keep pounding on Gojulas and you will win. All things considered, this an easy battle :D.

Now after the battle, the enemy will retreat and leave Juno behind. She will join your party and bring along your former enemy R. Interceptor Zoid. Now head north and pick the first option in the next dialog to make Pulse white even more. Now head north and enter the town.

[-----]
[Bayside Town]
[ITEMS:CA Ion L item, Spark Liger data,]
[Deck commands(DC):]
[]
[-----]

Go straight to the Zoidshop for the two chests there. The first contains the Spark Liger data and the other one has a CA Ion L item. Now go to the bar. A scene will take place. Bit will join your party along with his Liger Zero Zoid, Betty with her Gun Sniper LS Zoid, Ballard with his Comm. Wolf AC Zoid and Jimmy with his Raynos Zoid. Now you have the ability to cross over shallow water.

NOTE: This next part is not obligatory but you obtain a good item. It's not time consuming either.

Go and buy some Evactn Us and use one to go to Galistorm Stadium. Head left and cross the water. Get in the cave you find there and open the chest to find the Z Core FL parts. Get out of the cave. Use one Evactn and get back to Bayside. Head north on the water and cross the sea. You will find something that looks like a town. But it's not. It's a farm actually. Enter it.

```
[-----]
[           Tros Farm           ]
[ITEMS:Evactn U item(x2),A-Lsr Arm. weapon, ]
[Energy Tank weapon,Thrustor weapon,LR Rifle ]
[weapon,HyperP Gun weapon,Gun Sniper LS data ]
[Deck commands(DC):           ]
[                               ]
[-----]
```

This area has only one building but before you go in it, look north at your left to find two chests and take an Evactn U item and an A-Lsr Arm. weapon. Now go inside. Head right and open the chest for an Evactn U item. Now head up to find the "room of treasures". Open all these chests for an Energy Tank weapon, a Thrustor weapon, an LR Rifle weapon, a HyperP Gun weapon and the Gun Sniper LS data. Now exit the "farm".

On the world map, head left and you will be requested to battle. The bad thing is that you don't have an option. You must fight. Save, pick 3 Zoids for the fight and head left.

1st Battle: Team Zeru vs Team Stoller

Elephander (f): 590 HP
Elephander (b): 943-1019 HP

This battle is somewhat easy. With Saberlion, use the organoid immediately and if you have Gun Sniper too then the battle will get easier. Bad thing: those Zoids have the best defence you have ever met in the game. But don't give up, you will make it.

After the battle, continue left and you will be challenged again. But before you battle, you will go to town.

```
[-----]
[           Tarim City           ]
[ITEMS:Z Core KW parts         ]
[Deck commands(DC):           ]
[                               ]
[-----]
```

Go to the bar and talk to the waitress. Pick the first option to whiten your Pulse. Next stop, Zoidshop. There is a chest there. Open it to find the Z Core KW parts.

Exit the town and you will go to battle. But first choose your two zoids well. I chose Shield Liger DCS and Liger Zero.

2nd Battle: Team Zeru vs Team Fluegel

Blade Liger: 1010-1200 HP

Gun Sniper NS: 704-904 HP

Easy Battle. Use Organoid with Saberlion and Zero Jaeger (CAS) with the Liger Zero. Aim firstly for the Blade Liger and then for the Gun Sniper.

After the battle, you will fight another one without time to rest. It's an ordinary battle. Easy.

Rev Raptors (x3): 120 HP

RdBlunker (I am not sure about the name): 150 HP

>> >> >>: 126-302 HP

After the battles, head back to town to rest if you want. If not, continue heading west for yet another fight to start. You will be given the coordinates but you should stop by the town first.

```
[-----]
[           Bell City           ]
[ITEMS:Konig Wolf data         ]
[Deck commands(DC):           ]
[                               ]
[-----]
```

Enter the Zoidshop. Find a chest and open it for the Konig Wolf data. That's all. Exit the city and go on for the battle. Due to "a change of plans" Buffalo team won't be your opponent.

3rd Battle: Team Zeru vs Team Hooma

Wardicks (x3): 250 HP

>> >> >> >> >>: 745-920 HP

Easy battle as always. Take out the front first and the back later.

After the battle, continue left to find some Zaber Fangs. After the talking continue north west and enter the city.

```
[-----]
[           Sera City           ]
[ITEMS:                          ]
[Deck commands(DC):           ]
[                               ]
[-----]
```

There is nothing to do here. Just repair your zoids and leave.

Go west and you will talk with Raon. Then head north towards the Ruins and you will battle. The opponents are very easy but when you defeat them, something bad awaits. A Whale King!! But before that, another similar to the first battle will occur. Defeat those too. Now Tros will fight back and then... another battle. Win this one too. There will be a little blah blah now and then the fourth battle. But this one is a little tricky. The formation changed all by itself so this can bring you to a difficult position. After one turn, the front will go back and the back will come to the front. The same applies for them too. After the battle, Raon will leave at last. Now head north and to Romeo City!

```
[-----]
[           Romeo City           ]
[ITEMS:Gun Sniper NS data       ]
[Deck commands(DC):GriffinGattai,K. Dome Gattai]
[                               ]
[-----]
```

Go to the Zoidshop and talk to the scientist southeast to memorise the GriffinGattai DC. Open the chest too to find the Gun Sniper NS data. Now go to the bar. A battle will be arranged between you and Harry and Mary. Now leave the town.

Head a little right and you will go in a battle mode.

4th Battle: Team Zeru vs Team Champ

Iron Kongs (x2): 360
I K Maneuver: 178-328
Iron Kong PK: 308-428

As always. Iron Kongs first, then the Maneuver and then the PK. Easy battle. Use the usual tactics.

After the battle return to the city. Go to the bar and talk to the old man to memorise the K. Dome Gattai DC. Rest and head out of town and go right. Ballard will leave the party. Now enter the town.

```
[-----]
[           Harpe City           ]
[ITEMS:                          ]
[Deck commands(DC):              ]
[                               ]
[-----]
```

There is nothing to do here but repair your Zoids. After you do so exit the town. Go north and you will be forced to choose only one Zoid for battle. Do so

and let the battle begin.

5th Battle: Team Zeru vs Team Fox

Shadow Fox: 680-880

There is not any advice I can give here. The difficulty of the battle depends on what Zoid you chose. I chose my Liger Zero and the battle was sooooo easy.

After the Battle, Ballad will betray BD Team and join you with his Shadow Fox. Now continue northeast. After you pass the mountains, go south towards the lake and west. If you reach the correct place, Raon will be on the line and will challenge you in a battle at McCulley, a village east of where you are. Go to the village.

```
[-----]
[           McCulley           ]
[ITEMS:                          ]
[Deck commands (DC):             ]
[                               ]
[-----]
```

Everyone will split up and you will be all on your own (not in battle). And you can't get out of city either. Go to the bar. After the scene you will find yourself out of the bar. Try to get out of the village to start a scene where everyone comes back. Now exit the town for your next battle with Raon.

6th Battle: Team Zeru vs Team Pierce

StormSworderF (x4): 352 HP

>> >> >> >>: 374 HP

>> >> >> >>: 320-427 HP

Tough battle. Take out the four with lowest HP first and leave the others for later.

After the battle, go and repair your Zoids and then head right. Enter the town you see.

```
[-----]
[           Morabu City         ]
[ITEMS:                          ]
[Deck commands (DC): Gravity Strom ]
[                               ]
[-----]
```

Go to the bar and talk to Raon to learn the Gravity Strom DC. Now exit the town and go a little northeast. Another battle will take place.

7th Battle: Team Zeru vs Team Exciter

Climber Wolf (x6): 247 (x2), 234 (x2), 208, 260

Easy battle.You shouldn't have a problem with that.

After the battle, another one will occur:

Stealth Viper: 150 HP
Dark Horn HS: 178-418 HP
Barigator: 105 HP

Very,very easy battle.Come on,you don't need any hints for that.

After the battle continue east.After the scene keep going right and into town.

```
[-----]
[           Seral City           ]
[ITEMS:Liger Zero data,Zero Empire data   ]
[Deck commands(DC):               ]
[           ]
[-----]
```

Go to the Zoidsshop and open the chest there to find the Liger Zero data and the Zero Empire data.Exit the town.

Go south to battle once more.(note: have only Liger Zero on your team).

8th Battle: Bit Cloud vs Stigma Stoller

Elephander: 750-950 HP

Easy battle.Just keep pounding and you will win.

After the battle head east even more until your party decides that they want to stay on the beach.After a scene,you will find youself in battle.It's an easy and normal battle.After you win and the enemy leaves head east and enter the BD Outpost.A scene will take place and then another boss battle.

```
<----->
< BOSS BATTLE>
<----->
```

Berserk Fury: 870-1004 HP
Geno Breaker: 846-976 HP (Thanks medamasters174@yahoo.ca for this info)
Geno Hydra: 960-995 HP

This is the toughest battle in the game so far.I was forced to gain two levels for everyone in order to defeat them.You shoulg go for the Geno Hydra first, Geno Breaker second and leave the Berserk Fury last because his shield will make you miss some turns.

After the battle, Juno will be taken away from you.

When you are prompted to choose an option, pick the first if you want to whiten Pulse by 3. After a short scene, you will enter a scorpion-like ship and be transferred very south. From where you are head a little south (you are currently above the south west continent) and you will start another battle. I won't put this as a boss battle. It's just a normal and easy fight. But so that you know:

Trinity Liger: 419-614 HP

After the battle the enemy team will join you: Athle with the Trinity Liger, Regina with a KonigWolf DSR, Earth with a KonigWolf DSR and Jack with a KonigWolf DSR as well. After the scene, head west and south. You will eventually find the entrance to:

CAVE RUINS BASEMENT 1 FLOOR

```
{-----}
{NOTE: The ruins here are like a maze so I might miss}
{some treasures. If you find anything email me.      }
{-----}
```

From the entrance head east as the south and the north paths soon lead to a dead end. In the first intersection head south and follow the south east path to come to another intersection. Go north to find a chest with an E Shielder weapon. Go back and south this time. Keep following the south wall and you will eventually find a chest with 11500G. Now head back at the first chance go north to find another intersection. Go east and you will find a chest with 13700G inside. Go north from there and take the first turn left (west) for a short scene to take place. Keep going west to find the entrance for the 2nd floor.

From the entrance head south, a little west and then again south to find a chest with 5200G. From there, go east to find another chest with a RTans U item. Now head back to the entrance and head north this time. When you can, go left to find a chest with a CA Ion M item. Then, go north and all the way to the right when you can't anymore. Then go south to find a chest with a Poison Gas weapon and the entrance to yet another floor. This is the 3rd.

From the entrance head south until you come to an intersection. There head east and follow the path to find a chest containing a Spread Mis Weapon. Now head back to the intersection and go west, a little south and east into a room to a chest with 7500G. Head back out of the room and south for yet another chest which contains the Beam Screen Deck Command. Head west and north for a chest with an Eleshot weapon. Head back south and into the narrow path. Follow it to reach the entrance to the 4th floor.

From the entrance, head south, west and south again to find a chest with the Dark Sniper Data. Head back to

entrance and this time head east to find yourself in another intersection. Head east and you will have two options: south or north. Head all the way to the north, all the way west and south to find a chest with 4200G and then back to the intersection. From there head a little north east and then north to find another chest that has an Evactn U item. Now head all the way south to find another chest with a Charged P. weapon. Head north and west and then south. Go east when you can to enter a room with a chest containing the EM Unit Parts. Head out of the room, south, west and then north to find the entrance to the 5th floor.

From the entrance head south until you come to an intersection. Head left and north when you can to get to a chest with the X Unit parts. Head back south and continue left for another chest with the Trinity Liger data. Head north and follow the path. When you find an intersection head all the way north until you get into a battle from which you cannot retreat.

<----->
< BOSS BATTLE >
<----->

Gojulas Gunner: 510-670 HP
Gojulas the Ogre: 560-740 HP
Gojulas Gunner: 387-517 HP

Very easy battle. They are too slow and their attacks most likely will miss their target.

After the battle a scene will take place. When you have to pick an option out of three pick the first to "whiten" +3 Pulse, the second for blue +4 and the third for red +2, blue +1 and black +2. It's up to you. Anyway, after the option you will acquire the Blitz Tiger Zoid and you will be automatically transferred out of the cave (Thank God).

When out of the cave head south and west and you will learn about your next opponent who is Cisco Team and decide to go to the next arena. So head south and east to reach:

```
[-----]
[           Sand City           ]
[ITEMS:                           ]
[Deck commands (DC):             ]
[                               ]
[-----]
```

Go straight to the Zoidshop for any necessary repairs and customizes. Then head to the feathershop. Choose only three Zoids for this battle and talk to the man there.

9th Battle: Team Zeru vs Team Cisco

BladeLiger AB: 1030-1480 HP
Gun Sniper NS: 717-1024 HP
Lightng Saix: 769-1082 HP

Moderate battle. Make sure you destroy the Blade Liger first.

After the battle and some chat, Leon and the BladeLiger AB, Naomi and her Gun Sniper NS and JackCisco with his Lightng Saix will join you. Now head out of the city and continue south. An airship will approach and challenge you to a battle. Head a little more south and enter the city you see.

```
[-----]  
[           Rock City           ]  
[ITEMS:                          ]  
[Deck commands(DC):             ]  
[                               ]  
[-----]
```

Go the left if you want anything from the Zoidshop. If not, head north and into the feathershop. Talk to the receptionist and you will battle once more.

10th Battle: Team Zeru vs Team Harry

ZaberFang TS (north): 310-436 HP
ZaberFang TS (middle): 310-436 HP
ZaberFang TS (south): 310-436 HP
Dark Horn HS: 322-562 HP

That's a ridiculously easy battle. There are a lot of zoids indeed but they are very low on hp so they should be a breeze. If not, then you are in big trouble.

After the battle you will take another battlers with you. Harry with his Dark Horn HS, Benjamin. You will also get the Dark Horn HS data as well as the HS Set parts. Sebastian will join too as well as Lineback with his Zaber Fang TS, Omari with his Zaber Fang TS and Kirkland with his... Zaber Fang TS. Finally, you will acquire the Tiger spir parts. Now get out of the city.

Our next objective is to win the Island battles. If you took your time to explore a little the world map you would see some little islands in the middle of the sea. Totally, there are four of them. On those islands there are some stadiums and we will have to go there. First we will go to the Silver Dome which is northwest of your current position.

SILVER DOME

When you enter, head straight north into the building.

1st Island Battle: Team Zeru vs Team Guardian

StormSworderF (north): 431-646HP Lightng Saix: 336-552HP

Iron Kong SS: 582-798HP BladeLiger AB: 466-656HP
StormSworderF (south): 115-246HP Dibison: 316-546HP

Easy battle as well. Just pound normally and the win will come.

After the battle you will receive the Iron Kong SS data and the Dibison data. Also, Van with his BladeLiger AB, Irvine with his Lightning Saix, Fiona, Moonbay, Schwarz with his Iron Kong SS, Thoma with his Dibison will join you.

Now take your party of 30 (that's a lot of people) and head south to the Gold Dome.

GOLD DOME

When you enter, head straight north into the building.

2nd Island Battle: Team Zeru vs Team Alster

Geno Breaker: 390-790 HP
Pteramander: 455-737 HP
ZeroSchneider: 435-717 HP

Easy battle here too. Use the same strategy as before.

After the battle, Alster with his ZeroSchneider, Palty with her Pteramander and Solid with his Geno Breaker will join you. You will also be given the Trinity Liger BA data and the BA Unit parts.

Now from where you are, head west and a little north in order to find the Platinum Dome.

PLATINUM DOME

When you enter, head straight north into the building.

3rd Island Battle: Team Zeru vs Team Ala Barone
(This battle requires 3 Zoids. Don't be confused by the word vessels.)

StormSworderFX (north): 480-634 HP
StormSworderFX (Middleback): 480-634 HP
StormSworderFX (south): 480-634 HP

Somewhat easy battle. Use same strategy.

After the battle, Red Mask with his StormSworderFX, Purple Mask with his StormSworderFX and RoyalMask with his StormSworderFX will join you.

Last but not least, Diamond Dome. In order to get there, just head north.

DIAMOND DOME

When you enter, head straight north into the building.

4th Island Battle: Team Zeru vs Team Helic

Liger Aero: 630-1089 HP
Gojulas the Ogre: 974-1214 HP
Gravity Bison: 415-765 HP
Gun Blaster (back): 1060-1100 HP

Another easy battle. Always the same strategy.

After the battle, Herman with his Gojulas the Ogre, O'Connell with his Liger Aero, Ford with his Gravity Bison and Krueger with his Gun Blaster will join you.

Finally, you are now able to go to the BD Headquarters. The headquarters are south of the Rock City. If you look in your map, it is left of the two large mountain lines in the southwest continent in the very south of it.

BD BASE 1 FLOOR

Upon entering, head north and into the building. When inside the building, head north until you come to an intersection. Head right and follow the path all the way to the north to find a chest with 15400G. Head a little south, left and south again into a narrow path to find another chest with a ShockWav item. Get out of the narrow corridor and head left until you come to another intersection. This intersection is the one just above the first you encountered. Head north until you can't anymore. Then, head left, all the way south and left again to find another chest containing a CA Ion M item. Now, continue north and follow the path to reach the next floor.

Open the chest near you to find an EProtector weapon. Head south and you will face an intersection. Head left, ignore the first path to the south and follow the next one to find a chest with 15700G. Follow the path south and go right into the small room for another chest with 14000G. Keep going south and right to the small room as before to find another chest with an A-Lsr Arm weapon. Continue south and then right, north, right and north to find the entrance of the third floor.

From the entrance, head all the way right and then north, left, north, right, up the narrow corridor for a chest with 17200G. Back south, then right and open the chest to find the Z Core GS parts. Up to the next floor now.

From where you start, head left, down and left to leave this room and enter another one. Head north to find a chest containing 16800G. Back south all the way and then south again to find a chest with a CA Ion M item inside. Head right to a large room for another chest with 15600G and back left. Head all the way to the left and then up along the path for the fifth floor.

Head right and south and then north. When you have an option go north again and when you can go either right or left, go left. Then go north when you can and prepare

yourself for a boss battle.

<----->

< BOSS BATTLE>

<----->

Strum Fury (north): 886-1009 HP

Strum Fury (south): 1219-1341 HP

Gojulas the Ogre: 1862-2042 HP

Somewhat difficult battle. Make sure you activate your Organoid and take out the Strum Furys first as they are a pain in the @\$\$\$. I hope you brought a lot of healing items with you too.

After the battle your party will decide that they should destroy this place and start firing. Then they are going after Lezard and enter a Whale King. But an good-old pal of Zeru will come and challenge him in a 1-on-1 battle and you will ofcourse accept.

<----->

< BOSS BATTLE>

<----->

Geno Flame: 1514-1926 HP

Very easy battle. Use the Organoid in the first turn and you will attack twice a time while she will attack just once. Sooner or later she will fall.

After the battle you will learn where Lezard went, get on the Whale King so you can reach him and finally you will regain control of your party.

First things first, go to a city so you can repair your Zoids and stock up on healing items.

Now head to the star-shaped valley in the northern continent and enter the cave there.

DESERT CAVE BASEMENT 1 FLOOR

Here comes another dungeon. Head all the way north from the entrance until you find a fork of either right or left. Go right as left is a dead end. You will come to another fork of either right or down. Go right if you want a chest with a CA Ion L item. Now head back and go south this time. Follow the path and you will meet an intersection of either left or down. Go left for a chest with 12000G and then follow the south path. Another fork but this time it's either right or down. Go down and right for a chest with 19000G. From the chest go left a little and south. Then, follow the path left for a chest with a ShockWav item. Now head back to the previously opened chest and from there go left to reach the "door" to the next floor.

In this floor, follow the path and you will stumble upon a chest with a ZC Promo item. Go right and when in

the fork head north for a chest with the Bloodler Data. From there,go all the way right and then south for a chest with 16700G.Go back north,a little left and south again and you will eventually find the entrance to the third floor.

You have two options.Up-right or down.Go up-right to find a chest with an Evactn U item.Now head back and go south this time,follow the path and open the chest you find there for the Gojulas Giga data.Now back to the second floor.

Back in the 2nd floor,go all the way back to the first fork you met.That time you went north.Now go south and immediately steer right and up for a chest with a CCleaner item.Now go back and this time go right and down.Follow the long path to find another chest with 15000G.Now all the way back again in the first fork.Go all the way south and follow that path for the real entrance to the third floor.

From the entrance,go left all the way and then south. You will reach a fork.Go south first and open the chest there for a X Hispd RG weapon.Go back and left this time to reach the entrance to the fourth floor.

Go south and you will find yourself in an intersection of either right or left.Go right and follow the path to find a chest with the Sandstorm Deck command.Keep going right to find another chest with the Gojulas the Ogre data.Now back to the first intersection and go left this time.Now up or down?Go up first,then left and then all the way down to find a chest with the Decoy Deck Command.Go back up and right when you can to find another chest with an Evactn U item.Now head all the way back to the fork and go south this time. You will come to another fork of either right or down. To the right is a dead end so go down and follow the path.You will finally find what you were looking for: Lezard!

<----->
< BOSS BATTLE>
<----->

Gojulas Giga: 2050-2120 HP

I know what you are thinking."What a 1-to-6 battle. He must have HP in abundance and power that could destroy me in one blow."This is partly true.He has a lot of hp,great defence but not that good attack power.Just start pounding on him but when he hits you make sure you use one of the weakest Zoids to heal the damaged ones.This battle will take a while but you are not going to lose.

After the battle,Lezard will get away but you will get his Gojulas Giga Zoid.You will be transfered out of the cave.Stop in a city for repairs.Now,you will have to go south and east of the BD Base which is

southwest.You will find a cave there enter it.

SOUTH RUINS BASEMENT 1 FLOOR

When you enter,head north and you will immediately come to an intersection (right,left,north).Go left and open the chest there to find an Acclrtr U weapon. Go back and north to find a fork of either left or right.Go left and up and you will find another fork of either up or right.Go up and follow the path to find a chest with 13200G.Go back and right this time. From the room you currnetly are,head up and you will find the entrance to the second floor.

From the entrance go north to find a chest with the Switch Deck Command.Head back to the entrance and go ALL the way to the leftand then north.You will end up in a large room with two chests.The far right one has 15000G and the left one a CA Ion L item.Now head south,east and all the way down to a fork of either left or right.Go left and open the chest to memorize the CoreSecurity2 Deck Command.Head back to the fork and go north to reach another fork of either right or left.Don't go right because you will get back to the entrance so go left and follow the path to find the door to the third floor.

From the entrance go all the way left to find a chest with 21000G.Now go back to the entrance and go north. Follow the path and you will reach a fork of either down or left.If you go left and follow the a little confusing path you will come to a chest with the Distrbd Deck Command.Now go back and follow the path south.A scene will take place and you will end up battling.

<----->
< BOSS BATTLE>
<----->

Berserk Fury (north): 240-440 HP
Berserk Fury (middle): 240-490 HP
Berserk Fury (south): 240-488 HP

I don't know why I put this as a boss battle in the first place.It's very easy.You don't need advice for this.....or do you?

After the battle proceed to the fourth floor.Follow the path south,west and then north.You will find a fork of either right or left.Go right,north and left for the next and fifth floor.

Go south and you will come to a fork of either down or right.Go all the way down to find a chest with an Evactn U item.Now go all the way right and north until you get into battle of which you can't retreat.Win the battle (don't worry,it's very easy) and go north.A scene will take place.Another boss battle:

<----->
< BOSS BATTLE>
<----->

Death Saurer: 4178-4228

Talking about a lot of HP huh?It's like battling Lezard so you should use the same strategy.This battle will take longer but don't worry.Just make sure not to run out of healing items.

After the battle,your enemy will disappear and you once again will be transported out of the cave.As always,go somewhere for the necessary repairs and then go to the previously visited BD BASE but don't enter it.From there go east beyond the mountains and you will see an arena.Land there and enter.

GHOST DOME

When you enter and after a little chat,guess what....

<----->
< BOSS BATTLE>
<----->

Death Saurer: 2866-3216 HP

Fewer HP than the previous Death Saurer but it's attacks are lethal.Use same strategy as before but if you can afford it,use the back-row Zoids only for healing.

You will be transported outside of the dome.Go to a city for repairs and buy some items too.Now head to the cave north of the dome you were before.

BRETON CAVE BASEMENT 1 FLOOR

Another dungeon (I can't stand it).Anyway,from the start head all the way left and then all the way north to find a chest with a FusionArm X weapon.Now head back south, right and north.Then all the way to the right until you come to a fork of either down or right.Go down and left for a chest with 23000G.Then back up and right along the path.You will eventually come to a fork of either right or left.Go to the right for a chest with the Z Core SL parts or to the left for the next floor.

From the entrance,go down a bit and left for a fork of up or down.Follow the path up for an Evactn U item.Now follow the path down and when you have to choose between two paths up, follow the second for a chest with 18200G. Go back and follow the path right,up and all the way to the left for the third floor.

Follow the path and choose the left one when it splits for a chest with the King's Way Deck Command.Now go to the right one all the way down for the fourth floor.

Follow the path there until it splits up in a right one

and a down one. Leave the right path (dead end) and head down, right, up, left, down again and right for a battle.

<----->
< BOSS BATTLE >
<----->

Geno Hydra KA (down-right): 1343-1463 HP
Geno Scissors (up-right): 974-1458 HP
Geno Flame (down-left): 884-1290 HP
Geno Trooper (up-left): 1352-1668 HP

Neither difficult nor easy. They have strong attacks but low hp. Take them out with this order: u-r, d-r, u-l, d-l.

After the battle, go to a city for the repairs and head back to the cave you were. Now head north east and you will see a cave surrounded by mountains. That's your destination. Land there and enter it.

CENTL. RUINS BASEMENT 1 FLOOR

Go north and at the fork go all the way left and up for a chest with a Generator+ weapon. From where you are head all the way down for another chest with the Link Support Deck Command. Now back to the fork and right this time. Go all the way right and down for a chest with 20000G. Head back up, a bit left and up for another fork of left or right. Go right and follow the path for a chest with a CA Ion L item. Go back to the fork and go left this time. Another fork of either up or left. Go left all the way and up for the next floor.

Follow the path to find a fork of left or right. Go all the way to the right for a fork of either up or down. Up is a dead end so go down all the way, then left and in the first chance up for the next floor.

NOTE by Scotty Welch <bucngator311@yahoo.com>:

I found a ZC promo item and a Thick SA weapon after going from the entrance to floor 3 on the opposite side of the entrance to floor 2 and going following the path straight down.

From the entrance, go down, right, down a bit, left and down for two exits. Choose the right one and follow the long path to find a chest with 23000G. Now go back and take the left one for a Core+ Unit weapon. Back again at the two exits. From there, go up, left to find a chest with a CA Ion L item. From there go up and follow the path to the entrance of the floor. From the entrance, go right and into the small room for a chest with an O Camouf. X weapon. Now get out of the room and go up for a fork of either left or right. Go to the left for a chest with 25500G and from there go right and up for the fourth

floor.

Go all the way down (ignore the exut for now) and take a left turn for a chest with an Evactn U item.Go back and take the right for a CA Ion L item.Now go through the entrance you ignored before.

Go down and form the large room head left and up for a chest with a Psn Cloud weapon.Back in the large room and this time go right and up for a chest with 25500G. Back to the large room.This time head down,follow one of the paths (it's the same) and then go down by either path (again,it's the same).Enter the door to the 6th floor.

From the entrance,head right,up,right and up to find a chest with the Data Gather. 2 Deck command.Now head down and left to find a large path up.Follow it for the 7th floor.

Head a bit left and all the way down for a chest with a Buster Cn. weapon.Go right and enter the gap in the wall.A long scene will take place as well as the boss battle:

<----->
< BOSS BATTLE>
<----->

Death Meteor: 3151-3391 HP

After you deliver him this amount of damage a scene will be triggered and after the scene you will resume the battle:

Death Meteor: 7098-7338 HP

It is one of the final battles but it is not as hard as I had expected.I had the front row always attack while the back row use CA Ion L items to repair the other ones and if it is possible,attack sometimes.Death Meteor has a lot of HP but it should not be aproblem.I used about 23 items so I hope you have that much (I had bought 99).

After the battle,Juno will join you and you will learn the Juno's Prayer deck command.When you are asked if you want to discuss strategy choose yes to memorise the Strategy Meet deck command.You will find yourself in a room.Go up and talk to Juno.A scene will take place and Bit will leave your party.After another long scene you get to fight the final boss of the game:

<----->
< BOSS BATTLE>
<----->

Death Meteor: 5711-6119 HP

Now this is what I call a final battle.He doesn't have that much HP but when he uses his ZOS then you are in

for big trouble.For this battle,I had only Zeru with his Organoid attack while the others either use items or use shields on them so they are protected.In the end, every zoid of mine was destroyed except Zeru so we had a 1 - 1 battle.I finally won.Good luck with the battle!!

AFTER THE BATTLE, ENJOY THE ENDING!!!!!!
YOU DESERVED IT!!!!!!

<----->
< THINGS YOU CAN DO AFTER THE FINAL BATTLE>
<----->

After the ending and the credits,you will be asked to save the clear data.Say yes and now you can continue the game after the final battle.You start the game near the Sandstorm arena.Enter it and go to the zoidshop.There a scene will take place and you will memorise the Deck Command Fiona'sPrayer.Now you can talk to this old man and raise the emotions of Pulse.

NOTE by Daniel Nguyen <sparkzinthedark@hotmail.com>:

I lost against the Death Meteor. So since I lost against the zoid I got sent back to Sandstrom. There I talked to the old man got pulse's emotioins raised. So I practially got through the game without doing what I was supposed to do.

Another thing you can do now is finish the Zoid battles in all arenas.Every arena has 5 battles and if you were guided completely by my walkthrough then you should have missed some of them.

You can also learn the L.Gale Gattai from the scientist in the zoidshop in Live town.Also in Live Town you can take part in an Extra Tournament.

1st Battle: Team Zeru vs Team Pierce

After the battle, Pierce will join you along with her Pteramander Zoid.

2nd Battle: Team Zeru vs Team Mary

After the battle, Mary will join you and you will get the Ultra Saurus data.

3rd Battle: Team Zeru vs Team Raven

After the battle,Raven along with his Geno Breaker and Rease with her Psycho G Sau. will join you.You will get the Psycho G Sau. data too.

4th Battle: Team Zeru vs Team Stoller
