INTRODUCTION

-----

Hi again everybody! ^\_^ Well, I've said on the boards that I'll be leaving for a while due to my studies. But I'm able to kick this in between my schedule. This shall be a move list of all the characters in the game only. I may or may not develop this one to become a FAQ.

About the game, this is much like the bloody roar series for the Playstation. You fight and change into a beast to increase your fighting ability. All in all, this is your average fighting game. ^\_^ Nevertheless, you will enjoy the game. It has great sounds and graphics, courtesy of Nintendo's next generation console. Thank you once again and enjoy playing the game! ^\_^

E-MAIL POLICY  
=====

For the past few months, I've been receiving such a great number e-mails and some of them are quite annoying (very few though, just 2). So, I decided to put up this e-mail policy as a guide for you if you want to send an e-mail to me. Here are the things that you must do/must not do in sending an e-mail regarding this guide and any of my other guides:

Do's

----

1. Send me a question which cannot be found on my guide. I will be more than happy to help you.
2. Try to be specific in order for me to understand what you're trying to ask me.
3. You can send in your questions/contributions/other e-mails in text or HTML format. No executables.
4. Check first the latest version of the guide before sending questions, contributions, etc. If you use later versions, the answer/s to your questions might have been answered already and will be most likely to be ignored.
5. If I happen to forget you, just e-mail me nicely and I'll respond to you ASAP.

Don'ts

-----

1. Don't send any questions which can be answered from my guide. And don't be persistent in doing so.
2. Don't send nonsense e-mails like "I want to marry you!", "Can you buy me this or that?", etc.
3. Don't say bad words. F\$#k Y%u! and the likes.
4. And, don't send Chain letters! Please!  
(Doing this, your e-mail will be most likely to be ignored)
5. Don't send executable files (.exe, .com) as an attachment. I don't want any Trojans wandering around.
6. Don't Spam (repeated messages)

Virus Info

-----

There are still some people who are infected with the Snow White virus. You may receive an e-mail that is from hahaha@sexyfun.net that's all about Snow White and the seven dwarves. Here's what you can do to check if you are infected or not. Now, send a mail to yourself. This may sound crazy, but it works. If you receive another e-mail, which has the snow White virus, at the same time or a little later than the ones you send to yourself, it means that

you are probably infected with the virus. To confirm this, check the IP Address and the STMP server indicated in the virus e-mail. Don't worry about infection, as long as you DON'T open the attachment, you're safe. But, if the IP Address and the STMP server in the virus e-mail is the same as the ones in your e-mail, you are 100% infected. So, run a virus scanner.

To prevent any virus from infiltrating, DO NOT open executable file such as (\*.exe, \*.com, \*.scr, \*.pif, \*.bat) even if they're from a trusted friend or a family member. They may not know that they are infected. JPEGs and TXT files are safe. :)

Change topic, for those who will send their contributions, I'll always credit anything that is from you. I will always make sure of that. If I ever forget, please remind me nicely. :)

PROGRESS/UPDATES/REVISIONS  
-----

Progress:

-----

This shall be strictly a Move List for the game. This is already complete. But then, in the near future, I may or may not develop it to become a full FAQ for the game including tidbits of information about the characters. Thank you. ^\_^
