Introduction

oooooooooooooooooooooooo

Welcome to my second Boss FAQ. This time's it's for the new Bomberman game for the Nintendo Gamecube, Bomberman Generation. This Boss FAQ will give you the strategies for defeating all the Mini-Boss and Bosses in this game. Mini-Bosses are bosses that aren't as massive as regular ones. Bosses are massive bosses at the last stage in a world. They're much harder. If you have a remote-control Charabom, those will help alot.

Bosses

oooooooooooooooooooo

Megaton Bomber

Location: World 1, Stage 3

Attacks: Chain Swing, Grapple, Smash, Bomb Throw

First, make a Big Bomb by pressing A, then A again. Then, hold it down until it's fully charged. Then, toss it at him. Becareful with his Grapple attacks, for it can push a bomb away. If you get it right, it will injure him. After a awhile, he will smash the ground, causing everything on the ground to hurt. Sometimes he will also throw bombs at you. Keep tossing bombs at him until he is defeated!

Elephantsque

Location: World 1, Stage 6

Attacks: Trample, Smash, Trunk Shooter

Make a Big Bomb, then throw it at him. Sometimes he may trample over it, thus causing the bomb to be pushed away. If it hits him, start to make another bomb. Toss it at him. Once he gets more injured, he will start to shoot bombs out of his trunks, so dodge them. Keep throwing bombs at him. After he his defeated, you'll win the Bomb Element!

Beauty Bomber

Location: World 2, Stage 3

Attacks: Bomb Kick, Shield, Laser, Super-Laser, Tri-Shield

This battle is tougher than you may think. First, make a Big Bomb. Then throw it at the shield, but keep a distance away. Once the shield is gone, throw a Big Bomb at her to stun her. Then, you will do some damage. After some blows, she will send out 2 drones with lasers. Avoid them, and attack her with a Big Bomb. Once you do some more damage, she will have a Tri-Shield. The 3 shields will spread apart, circling around her. Throw a Big Bomb in front of her, and she will lose more health. Also be careful of the lasers that circle around her. Once you throw another Big Bomb at her, she should be finished!

Ol' Shark Claws

Location: World 2, Stage 6
Attacks: Cannon, Missiles, Swallow, Missile Rain

Form 1:

Bigbu's first form is a boat. If you have Andlar, this is the time to use it. Go up to the armed boat, throw a Big Bomb at it, then, go to the left cannon, and throw a Big Bomb at that one. Be careful with the bombs, try to dodge them. Once the ship is down, the true form will be revealed...

Form 2:

This squid is hard. First, make a Big Bomb. Bigbu Squid will then unleash the army of fish-missile things...Throw the bomb at it to hopefully destroy the army. Then, toss a Big Bomb at Bigbu Squid to stun him. After a few seconds, drop a Big Bomb in front of him. He should then swallow the bomb. After a few hits, he will start to shoot out missiles that drop down. Stay behind him to block them. After he swallows another bomb, he's history! Then, get the second Bomb Element.

Eagle Bomber

Location: World 3, Stage 3
Attacks: Hover, Dash, Float, Twister, Bomb Drop, Pile Driver, Flame Hover

This is difficult. First, make a Big Bomb, then avoid his dashing. After he starts to float, toss a bomb at him. He will then be stunned, and then he will be injured. If you have Pommy, use it also. After a few hits, he will use Twister, and then the bomb drop. Once he is almost gone, he will use the Pile Driver, which is a powerful attack. After that, he will do the Flame Hover. When he floats, finish him off with a big bomb.

Tako Mummy

Location: World 3, Stage 6
Attacks: Enemies, Smash, Laser, Hand Spell, Poison Gas, Bomb Bounce

Form 1:

First, make a Big Bomb, and throw it at each enemy. Then, make another Big Bomb, and when the head rises up, throw a bomb under it. He will also make enemies appear again, so destroy them quickly. Repeat this four times to beat his first form.

Form 2:

Make a Big Bomb. Throw it in front of him. After he gets damaged, he will put a spell on you. Keep running until it wears off. Now, make a Big Bomb and throw it in front of him when he finishes exhaling poisonous gas. After he gets more injured, he will put a spell on you. He will make your bombs bounce on you. Keep running. After you keep hitting him with Big Bombs, he will be destroyed and you'll get the third Bomb Element!

Assault Bomber

Location: World 4, Stage 2
Attacks: Dash, Machine Gun, Blast, Detach

To beat this crazy bomber, first, start out with a Big Bomb. Once he finishes dashing, he will use a machine gun. Dodge the gun and throw it at him. Once you injure him some more, he will start throwing blasts at you. Dodge them all. Throw more Big Bombs at him, until he detaches. He will throw more bombs at you. While you are being bombed at, keep running, but hold down L or R, so you can avoid the bombs much better. Wait until he attaches again to throw Big Bombs at him. Keep doing that to win!

Constructor X

Location: World 4, Stage 4
Attacks: Dynamite, Drill Throw, Light Saber, Flower Power

This is quite a boss...Anyway, once he throws dynamite, and he exhausts smoke, throw a Big Bomb at him. It should do some damage, and then, after some more hits, he will then use a drill. Dodge the drill. After more hits, he will then use an attack. It's very easy to dodge, he just spreads some flower stuff...After he's almost gone, he will use a saber, which causes random explosions. When he is low on health, it will be harder to beat him. Once he exhausts smoke, toss a Big Bomb at him to beat him and get the fourth Bomb Element!

Elite Bomber

Location: World 5, Stage 2
Attacks: Warp, Big Bomb, Mirror, Ring Shot, Tri-Ring Shot, Magnet, Four-Orbs

This is a difficult battle. You should have 6 Heart Containers for this fight. First, toss a Big Bomb at her when she is floating, but without the blue mist around her. Then, she will start warping and tossing Big Bombs at you. Try to avoid it. Then, she will do a mirage. There will be 3 of her, and she will use a Ring Shot. When all 3 go together, quickly throw a Big Bomb at her. It should do some damage. If you don't, then she will use the Tri-Ring Shot, a powerful attack. Use Pommy, Pomyugar or P. Dragon for this battle. After some more damage, she will use the a magnet attack. Use the Bomb Barrier by holding and Bomb and pressing X. Once you get close, the shield will explode. Now quickly toss a Big Bomb at her and detonate it. After she is nearly gone, she will do the most powerful attack. She will form four orbs. When this happens, go close to her and use a Bomb Barrier to protect yourself. After another blow or two, you win!

Fire Bird

Location: World 5, Stage 4

Attacks: Fireball, Fire Spread, Gust, Fire Ring, Tail Smash

First of all, get a Big Bomb and throw it at him, in front of the purple starfish. It is time-consuming to defeat him, but easy. Then, he will use a Tail Smash, which shakes the ground. After a few more blows, he will use a ring of fire. Keep throwing bombs at him until the flames meet. Then, stay away until he finishes his Gust attack. Keep throwing and detonating bombs at him, until he's defeated and claim your final bomb element!

Mujoe

Location: World 6

Attacks: Fireball, Fire Ring, Laser, Barriers

This is a hard battle. Take note that he has several barriers circling him, so try to avoid them. First make a Big Bomb and toss it at him, but it has to be a Light Bomb, to make him visible. Then, keep throwing Big Bombs at him until he makes a ring of fire. Use the Aqua Bombs to fuse them out. Then, use the Light Bombs again. Eventually, he will shoot lasers out of his eyes, and he will throw fireballs at you, just avoid them. I recommended using Shelks for this one. Or Kai-Man. When he shoots lasers, throw a Big Bomb at him. Light, of course. Then, for the final phase, he will be in a ring of fire again. Fuse it out with Aqua Bombs, then finish him off with a Big Bomb of Light! Then, you win the final Bomb Element! Congratulations!
