- Carpet List
- Item List
- Stationary List
- Gyroid List
- Fossil List (complete)
- Music List (complete)

In Animal Crossing is a wide selection of furniture, carpets, wallpaper and other items that you find during your game. As you get these items, they'll appear in a catalog. You can find this catalog by talking to Tom Nook aka Nook the Crook and asking to see yours. He'll list the items in their respective sections and you can order more. The only items you can't order are those that say "Not For Sale." This is useful when you want to order items for a friend. On to the catalog.....

When you complete a section of the catalog, a purple star will appear next to the numbers at the bottom of the screen.

Furniture List

The most important thing you need for your house. What would a house be without furniture? No couch or chairs to sit on, no bed to sleep in....it just wouldn't be very comfortable. You wouldn't like it, so don't make your AC citizen live like that.
