INTRODUCTION

Almost 500 songs in this FAQ and still growing. WOOT!!! Please keep sending me your songs and reviews so this FAQ can grow and improve!!!!!!
P-P-P-P-P-PLLEEEAASE!!!

I may not update this FAQ more than once a week, so please be patient.

By going to the "Song Billboard" in your town, you can change the song that is played at certain times and places in the game. The Song Billboard is located near the post office. I'm not gonna explain it more, because it's

all pretty obvious.

I've included an "accuracy score." This is NOT how much you like it! ("I LOVE Zelda so I give it a 5! is WRONG.) Accuracy means HOW WELL DOES THE AC VERSION MATCH THE "REAL" SONG? The scale is something like this:

- 1 - Stinks, I can't tell what it is.
- 2 - Recognizable
- 3 - Pretty good
- 4 - Great match, any idiot would recognize it
- 5 - PERFECT! Sounds EXACTLY like the real song (well a little beepy maybe but otherwise perfect).

5's should be pretty rare. Due to the length limit and un-adjustable speed that the notes play, it may simply be impossible to duplicate some songs well in AC.

Also, I will only include the first 10 reviewers, so please don't email me with a review if there are already 10 reviews listed for a particular song.

=====

CONTACTING ME

Use AC SONGS (all caps) as the first part of your subject line. I get so much spam that I'll prolly miss your email otherwise :P
Please don't tell me this FAQ is repetitive in parts. That's on purpose. And please don't ask me to make you songs. I'm no good at it. :P I just collect 'em! :)

email me at t_cromis2@yahoo.com

THE OFFICIAL ANIMAL CROSSING MELODY MAKER (an online composer)

Go to
<http://www.animal-crossing.com/create.jsp>
Then click on "The Melody Maker" (look for K.K. Slider, the guitar-playing dog).
You'll get a pop-up window that is just like the music board in the game.

A great way to try out your songs, and you don't have to wait for your stinky little brother to relinquish the gamecube!

=====

TIDBITS (misc. song-related info)

The various instruments that you can collect in the game will play your town when you walk up and touch them.

(got more? Send them to me at t_cromis2@yahoo.com, please!)

HOW TO READ THE SONGS IN THIS FAQ

Except for "f" there are two of each note. So it is important to know which one is meant. Fortunately, notes that are "musically" lower, are also lower

on the game screen. In this FAQ, the lower seven notes (gabcdef) are written in lower case, and the upper six notes (GABCDE) are written in upper case (now any dummy can remember that, eh?). So you could even be deaf and write perfect songs every time using this FAQ!

It should be obvious, but - indicates an extended ("held") note, and z indicates silence (a "rest").

The notes are also different colors, so to further clarify which notes are which, here is the color the notes are, from lower to upper:

g a b | c d e f | G A | B C D | E
 blue |bluegreen|green| yellow|orange

* or no entry in the "Accuracy" column means the song is untested by me in game (probably obtained from a post or transcribed from sheet music), not necessarily received in my "standard format," and may be more likely to have errors than "rated" songs.

PARTIAL LIST: Songs sorted By Category

(As the number of songs approached 500, I got tired of sorting by category, so this list "only" contains around the first 480 songs submitted. For the full list, see above.)

* or no entry in the "Accuracy" column means the song is untested by me in game (probably obtained from a post or transcribed from sheet music), not necessarily received in my "standard format," and may be more likely to have errors than "rated" songs.

INSTRUCTIONS FOR SUBMITTING A SONG

It's really pretty simple. Basically, I want all your information in one line, same as in the FAQ. If you do that, I can add 100 songs in about an hour. If all the submissions were "sloppy," it would take 5 hours. So it makes a difference! Here's a summary, followed by some details in case you want more information.

- 1(mandatory). Follow this order.
- 2(mandatory). Send to t_cromis2@yahoo.com and janes22@hotmail.com For subject use AC SONGS NEW
- 3(mandatory). Put the song title and artist (if applicable) in the body of the email like this: Song Title (Artist). If it's a video game, do game-title, such as Zelda OOT-Epona's Song.
- 4(mandatory). Use lower case for the lower seven notes, upper case for the upper six notes, - for extended ("held") notes, and z for silence ("rests")
- 5(optional). Provide a category.
- 6(optional). Score the ACCURACY (NOT how much you like it) of your song.
- 7(optional). If you want credit, tell me so, and how you want to be identified.

Songs that do not follow the mandatory rules may be ignored. Multiple versions will be accepted, as long as they are DISTINCTLY DIFFERENT.

If you've got a bunch of songs you want to submit, just put them all in one email.

O.K. Here's some expanded explanations:

Rule 1 (mandatory).

PLEASE send your information in the same order as these rules. It will make setting this up SOOOOOooooo much easier! Put any "fluff" (bragging, begging, etc.) at the END of your "song information." It would help me a LOT if you would put your information on a single line. Proper spacing would help even more, so it's just a quick cut-paste for me!

Rule 2 (mandatory). <no further explanation needed; see above>

Rule 3 (mandatory). <no further explanation needed; see above>

Rule 4 (mandatory).

Use lower case to indicate the lower seven notes, and upper case to indicate the higher 6 notes. It should be obvious, but use - to indicate an extended ("held") note, and z to indicate silence (a "rest").

This is all a repeat, but to help clarify which notes are which, here is the color the notes are, from lower to upper:

g a b | c d e f | G A | B C D | E
blue |bluegreen|green| yellow|orange

Rule 5 (optional).

Please provide a category (examples are video game, cartoon, movie, T.V., rock, punk, country, classical, jazz/blues, musical, etc.). Feel free to create a new category, but please understand that I may "lump" your song into another category if I think the FAQ works better that way.

Rule 6 (optional).

Score the accuracy of your song. This is NOT how much you like it! ("I LOVE Zelda so I give it a 5! is WRONG.) What I'm looking for here is HOW WELL DOES THE AC VERSION MATCH THE "REAL" SONG? The scale is something like this:

- 1 - Stinks, I can't tell what it is.
- 2 - Recognizable
- 3 - Pretty good
- 4 - Great match, any idiot would recognize it
- 5 - PERFECT! Sounds EXACTLY like the real song (well a little beepy maybe but otherwise perfect).

5's should be pretty rare. Due to the length limit and unadjustable speed that the notes play, it may simply be impossible to duplicate some songs well in AC.

Also, I will only include the first 10 reviewers, so please don't email me with a review if there are already 10 reviews listed.

Rule 7 (optional).

If you want credit, best is to just put the credit information at the end of your one-line entry. Or write in your email "Give credit to xxx." Replace the xxx with whatever you want to use to identify you (like your name, your "internet name," OR your email address. Don't ask me to include all those though - there won't be room in the table.) If you don't do this, you will not get credit.

First person with the song gets credit. Whining and "I made that song first" emails, and even "I sent you that song first" emails will be ignored. Sorry, there just is no way to verify such things and I don't want to spend my time settling arguments when I could be using it to put more songs in the FAQ! :)

EXAMPLE SONG SUBMISSION

AC SONGS NEW (subject of email)

Star Wars Theme gggc--G--fedC--G Movie 4 1 GreenLatrine

You're gonna love this song Cromis! Please add it to your FAQ!

(that's it! Easy, eh?)

(And I do love it. It was the first town theme song I did)

But I'll take things like:

My song is the Star Wars Theme. It goes like this:

gggc--G--fedC--G

It goes in the movie category. Doh! I give it's accuracy a 4. Please give credit to GreenLatrine

Blah blah etc. etc.

(It's just more work than the one-line format, and who needs more work, eh?)

INSTRUCTIONS FOR SCORING A SONG

Obviously (I hope!) you have to know the song to score it. If so, just do this:

- 1(mandatory). Put the song in your game and listen to it! Doh!
- 2(mandatory). Email me at t_cromis2@yahoo.com, subject AC SONGS SCORE <title> Where <title> is the title (as it appears in the FAQ) of the song you're scoring. If there are multiple versions, please list the notes so I know which one. Better yet, review all the versions! ;)
- 5(mandatory). Score the ACCURACY (NOT how much you like it) of your song.

PLEASE! This is NOT how much you like it! ("I LOVE Zelda so I give it a 5! is WRONG WRONG WRONG!) What I'm looking for here is HOW WELL DOES THE AC VERSION MATCH THE "REAL" SONG? If you don't understand what I'm getting at, please email me and I'll explain.

The scale is something like this:

- 1 - Stinks, I can't tell what it is.
- 2 - Recognizable
- 3 - Pretty good
- 4 - Great match, any idiot would recognize it
- 5 - PERFECT! Sounds EXACTLY like the real song (well a little beepy maybe but otherwise perfect).

5's should be pretty rare. Due to the length limit and un-adjustable speed that the notes play, it may simply be impossible to duplicate some songs well in AC.

I will gladly accept reviews of a single song. However, for acknowledgements, I will only list you if you review at least ten songs in a single email. Just list all the songs in the text of the email, along with the scores. THANKS!!

= = = = =

SENDING CORRECTIONS

- 1. Send to t_cromis2@yahoo.com and janes22@hotmail.com
- 2. Use AC SONGS <title> (all caps) as your subject line.
- 3. Follow the syntax in submitting a song, Rule 4.

An explanation might help.

Somehow I'll decide which of you is right.

I probably won't give credit for corrections, unless the original song was REALLY WAY off. New versions will get credit.

NOW ACCEPTING REQUESTS

I am lousy at making songs (that's why I started this FAQ!), but perhaps someone else will read your request here and make a song out of it. Also, I will not send out notifications when a song is made, you'll just have to keep checking. Sorry. Please title your email "AC SONGS-SONG REQUEST". Again, send to both t_cromis2@yahoo.com and janes22@hotmail.com

Requests:

- Any Tool song
- Any Twiztid song
- A Gauntlet theme
- Anything from The Lord of the Rings movie
- Any Adult Swim show theme (especially the Aqua Teen Hunger Force)
- Blue Monday (Orgy)
- Good Charlotte
- Metroid Prime File Select Menu
- Kid Icarus - 1st Level Theme
- Love Hina
- Popcorn
- Maxwell Murder (Rancid)
- Real Folks Blues
- Robotech - anything, especially the theme
- Sonic 2: Chemical Plant Zone
- Sonic Adventure 2: Live and Learn
- Sonic 3: Ice Cap Zone
- Trigun - H.T. (Somewhere in the song that is recognizeable)

K.K. SLIDER SONGS (that you can play in your tape deck, stereo)

I'm no expert on this, but since it doesn't seem to be addressed in a FAQ anywhere else, I thought it made sense to add it here, and make this a "complete" song FAQ!

The guitar-playing dog known as K.K. Slider shows up at the train station from 8:00 p.m. to midnight every Saturday night. If you say you don't care what song he plays, he will play a random song that he knows and give you the music! The song object looks like a yellow music note.

If you ask him to play your request, he's likely to play something and then say he didn't know your song. But if you request a song that he DOES know, then he gives you the song to play in your whatever music-playing device you have. Also, I've heard that if you talk to him at EXACTLY 8:45 P.M., you'll see Mr. Resetti flying through the credits.

Each player can only get one song per night, so only one song a week.

However, here are some ways to get multiple songs:

1. Someone emailed me that if you save and quit you can get another song. If true, this would by far be the easiest way. But I have not tested this yet.

2. Since K.K. gives one song to EVERY HUMAN PLAYER, you can play as all four players in your town to get four songs per week.

3. Another way to get more than one song a night, if you have multiple memory cards, is to travel by train to the other town(s), and get a song from the K.K. Slider in the other town(s). I noticed that when I did this, K.K. wasn't there! But when I left the train station area and came back, there he was. Also, remember that K.K. gives one song to every human player: So, for example, if you have two memory cards, with all 4 houses occupied, you can get 16 songs a week by having every character get a song from both towns.

I'm sure there are other ways to get multiple K.K. songs (changing the clock, using gameboy Island glitches, etc.). But these are "honest, non-cheating" ways. :)

Below is the list of songs that K.K. knows. Spelling, spacing, and periods must be exact. I don't know if this is all the songs, but I'm pretty sure that it is. I've gathered this from a variety of posts about K.K., but I'm a long way from getting all the songs, since I usually don't cheat. *wink* Corrections, additions, and comments are welcome! A "secret song" is one that K.K. will not play randomly, but only play if you request it.

ACKNOWLEDGEMENTS

My thanks and gratitude go out to the many people who have posted or sent in songs that are listed here, as well as reviewers (none yet, but I'm hoping...). I'm sorry that I don't have time to email all of you individually, but consider yourself thanked!!! Thanks to Originalsubzero for a wee bit of help on the K.K. Slider section. Thanks to Daniel for tidbit about playing town song on instruments.

Below are people who have reviewed ten or more songs:
