4. How to Use Animal Crossing-e Cards
=====

From the information booklet that is included with Booster Packs:

"For use with the Nintendo GameCube

Preparing the e-Reader:

Before you scan any cards, you need to download the Animal Crossing e-Reader program from the Nintendo GameCube to the e-Reader and Game Boy Advance. You can prepare the e-Reader at the Post Office e-Transfer machine (e-TM), the town tune bulletin board or at the tailor shop.

You only need to do this once. For example, if you prep the e-Reader at the town tune board, you do not need to do it again at the e-Transfer Machine in the post office.

To prepare the e-Reader, choose "Prep e-Reader" from the menu at the e-TM, town tune board or Able Sister's tailor shop. Follow the instructions on the screen to download the program into the e-Reader.

.....
: The Animal Crossing program will be stored in the e-Reader unless you :
: replace it with another e-Reader program or game. :
:.....:

Design Cards

To use the design card, speak to Mabel Able in the Able Sister's Tailor Shop. Choose "Other things" and then "Read Card".

When prompted by the Nintendo GameCube, scan a design card through the e-Reader. You will now have to decide where to place your new design. You may have to discard one of the previous designs as you can only have 8 at a time.

Town Tune Cards

At the town tune bulletin board, you can use an Animal Crossing-e town tune card to change your town tune.

At the town tune bulletin board press the R Button to access the e-Reader menu. Select "Read Card" and follow the instructions displayed on the screen. When prompted by the Nintendo GameCube, scan a town tune card through the e-Reader. Now your town tune will be the melody on the card.

Character Cards

You can scan the Character cards at the e-Transfer Machine (e-TM) in the post office. Go to the e-TM and select "Read Card".

Follow the instructions on the screen. When prompted by the Nintendo GameCube, scan a Character card through the e-Reader. You will get a message verifying that the letter has been sent. You can go to your

mailbox to receive your letter and gift immediately after scanning the card.

Game Cards

Scan Game Cards with the e-Reader to play exciting mini-games

1. Scan both Dot Codes on the back of the card with the Nintendo e-Reader.
2. Watch the screen for instructions. You may need to select an opponent or other option before scanning Character Cards.
3. Scan the Character Cards when prompted by the e-Reader.

Cable-free Connectivity

The password on the back of the cards can be used with the Animal Crossing game on the Nintendo GameCube to get a letter and possibly a gift or even an NES game (more on that later ^_^). Your letter will arrive a few days after entering the password. To enter the password you need to get out some stationary and write a letter.

Addressing the letter

If the animal on the card lives in your town, choose their name from the address list (just a little tip: if they DO live in your town, send the passcode for an NES game that was mentioned above).

If the animal does not live in your town, choose any address except another player or "museum".

If the Character on the card cannot receive letters (like Tom Nook or K.K. Slider), choose any address except another player or "museum".

Writing the letter

The letter you are going to write will have three lines.

LINE 1: Enter the KEY symbol followed by the return symbol (the arrow going down then left).

LINE 2: Enter the first line of 14 characters followed by the return symbol.

LINE 3: Enter the second line of 14 characters followed by the return symbol.

After all three lines are entered EXACTLY AS THEY SHOW UP ON THE PASSWORD SECTION OF THE CARD, send the letter.

.....
: If you enter the password incorrectly the animal receiving the letter :
: may get upset. :
:.....:

Tips to remember

1. Each letter should only have three lines.
2. Do not use letters or characters that do not appear on the card.
3. The password is case sensitive, so make sure that capital letters on the card are capital in the letter.
4. There will never be a one or a zero in the password.
5. Please insure that capital I's and lowercase L's are entered properly.

NOTICE:

The password function in this game allows you to unlock features and play hidden games that would otherwise not be accessible. Keep the passwords private. Do not send passwords to anyone who has not purchased Animal Crossing-e cards. Do not distribute or sell decoded passwords to the public." (Which is why I'm not going to put them in my FAQ <_>)

9. Contact

If you have any questions or you know something that I missed, contact me at KirbyRockz_100@yahoo.com.

Some things you can contact me about:

1. Something I might have missed in the Walkthrough *NOTE!* Since at this time this FAQ is not complete, only send me the information from places in the FAQ with a blank space. Example:

```
| N01 | Ice Climber \  
|-----|  
|Card Type: NES Game Card |  
|-----|  
| Card Back Description: *Here is a blank space*  
|-----|  
| e-Reader Letter:  
|-----|  
| Animal Crossing Letter:  
|-----|
```

So, you could send me information in the Card Back Description, e-Reader Letter and Animal Crossing Letter areas. Now, with the Character Cards, PLEASE DON'T SEND ANY INFORMATION ABOUT THE GAME SCORES. Those are coming with the next update. But as for the Animal Crossing Letter and other areas, if they are blank, send them in! Keep in mind that someone else may have already submitted the information before you, but just hasn't been updated yet. The first person to send it gets the credit! ^_^

2. A good question that this didn't help with (I may put it in the FAQ)
3. CONSTRUCTIVE Criticism
4. Reporting people in plaigerizing my FAQ/Walkthrough or anything in it without giving credit
