0.1 - Introduction  
=====

Warning! This FAQ was made and copyrighted by Joeman123-2001.  
I made this FAQ to help you in the game, not to be copied. It will cover all the cool things that you can do with trees in Animal Crossing.

=====  
0.2 - FAQ - 0.2.1 - Getting New Fruit Trees  
=====

Here are the list of fruits:

FRUIT	C,U,R
-----	-----
Peaches	Common
Cherries	Uncommon
Apples	Rare

The only ways you can get new fruit trees are if you have a friend who has Animal Crossing and in his/her city different kind of fruit then you. Put their memory card in and go to their city. Go up to a fruit tree and collect the fruit. Make sure that you get at least seven. Come back to your city and plant them in random locations. In four days check back on them. If one survived, you can plant more or sell them to Tom Nook for 500 bells!

NOTE!: Going to friends cities can make animals living in your city move. Use traveling with caution.

=====  
0.2.2 - The Money Tree

=====  
If you have a shovel, dig some holes and place some bells in each hole.  
Again wait four days and check back. The tree will then be loaded with  
bells!

NOTE!: This is very hard and only works once in about ten times.  
When it does work it's pretty cool.

=====

(Tree List Comming Soon)

The Easiest way to get trees is to go to Tom Nook's and buy them for less  
than 100 bells. Find a good spot to plant and go to the Item Sub-Screen.  
Select the tree that you want to plant and click on it. In the menu that  
comes up, select plant. In four days the tree will be full grown.

NOTE!: The trees also may die. You can tell if their dead by looking for  
a little bite-mark thiny or if it hasn't grown at all.
