< II.Introduction >

I made this Guide because my last animal FAQ was not accepted. So I made a guide that could become useful and has a higher chance of making it up on to the guide page. I am also very good at this game and take many things into detail. My memory has served me well in this game, but others cannot always remember the prices of things. I hope this to be a useful guide to many gamers (which I believe it will) and find everything you can. If you wish to know the prices of other things, or know that a price is wrong please contact me at BIOMINION@HOTMAIL.COM (no caps needed to empahsize) THANKS!

< III.Basic Controls > _____ A button - Use, Talk, Look, Pick, Dig, Show, Ride, Put, Take, Wash, Door, Milk..... B button - Cancel/Put in a current item from your hand into your rucksack Y button - Hug, Eat or something else special X button - Open Rucksack/Put item in rucksack/ View town map Z button - Free View (outside), Nothing (inside) L button - Straighten View R button - Whistle Start - Open Menu _____ < IV.van Haggle Tip > _____ Before I start the actual guide I would like to suggest a very good tip to

all the new players. It's called the art of haggling, or bargaining. To me this added alot to the game. The fact that you could bargain. I have many of the haggled prices, but there are so many I could not find them all. So when you are selling anything to Van, bargain with him. In the guide you will see many of these ...g-...g (dot represent numbers) this means that the second price is the price you could get by bargaining. Things like regular eggs, flowers and such cannot be haggled, BUT things such as gold wool, and expensive things the price can always be bargained. If you have something expensive and hard to find try haggling.

(Also if you have less of the RARE item haggling is easier) _____ < V.Selling and Buying > _____ I put this up because quite a few ppls asked me about it so here it is. [Buying] - Ledger - People [Selling] - Your shop {Ledger} Ledger items - Tools - Animals - Farm upgrades

- Animal needs

To buy tools simply go to the ledger go to buy and scroll down to the item buying section. Here you will be able to choose what tools you want. Remember it takes a day for it to come and it will be in the shed after Takakura returns. You cannot sell these back, only by giving it to Van.

To buy animals you do the same thing as the TOOLS. But u can only buy one animal a day. The animals you can buy are, young cow (Male and Female), Male sheep, Male and Female chickens.

To sell them you choose sell, and you will get a cut scene showing it leaving the farm.

To buy farm upgrades go down to the upgrades section. You can buy pond, processing plant, and milking room, but they are all expensive still they are worth the money. The building take a while to be built and you can't order any other building until it is built. You cannot sell a building you make.

Animal nees such as fodder, and medicine can be ordered by going to the items menu. These come the next day so make sure you have some in stock all the time. In addition you cannot sell them off the ledger. The next day when Takakura comes back from his visit you will get a cutscene (if ur outside) of him bringing it. It is on the shelf of the tool shed.

{People}

Van

You can sell anything you carry to Van including the items you get from the Ledger, meaning you can't sell animals. You can bargain with him (look at the section above) to get higher prices. The things he sells can also be sold back such as the toys and the Fishing rod and brush. To sell simply talk to him with the item in your hand or talk to him then select sell.

Every season things are different, but he will always sell the turbojiger the bodijiger and the turbojolt.

Vesta is the big women working at the farm where Celia lives. She sells all seeds and trees that can be bought. Many people had problem with this but simply use R and L to scroll through her list of things or use the control stick to move it to the arrow and click A. The seeds are very cheap and the trees are worth the amount. She also says fertiliser and it is recommended you use it to upgrade your crop.

Celia(unmarried) / Same as Vesta, Celia will not sell you ne thing after you marry.

Joe

Vesta

The friendly bartender will sell you different types of drinks to restore your stamina. If you have a lot of money you can also just chill out at his bar.

[Your Shop]

Many people don't ever discover this one, but you can set up your own shop. Simply go to where Van usually sets up shop and walk towards the tree. You should see the SELL on your A button. Simply click A and you will be able to sell the items you have in your bag. If you want to quit simply walk off the mat which you are on. People walking by will stop and come in. The kids can't buy anything but all other can. Lots of people like flowers, and also want your tools.... They will pay the same price that Van would pay you (if he was here), but you can give them a discount (usually very small) all the same the people will like you more. This is usually slow and I would suggest checking to see if a lot of people are walking by before you set up shop.

Ducks can only be got by triggering this event. Buy a pond in your first year also have no more then 6 chickens in your coop, next summer wake up later then your wife. This will trigger an event where your wife calls you and tells you that their are ducks in the pond. She asks you if you want to keep them. Ducks are more expensive then chickens, but lay the same types of eggs. If the first two ducks are sold you cannot re-trigger the same event to get them back.

----Eggs

Non-fertilized egg 40g Fertilized egg 50g Golden egg 300g - 360g

Gold egg can be sold to van for a higher price.

< d.goat >

You can buy a goat from Van in second chapter first year spring.

Goat - 4000g Sell - Cannot be sold

Milk - 115g/138g (sell to Van for higher price)

Goat Cheese- 155g Goat Butter- 150g

When buying goat from van you are able to cut the price (if you are lucky) down to 2000g. I bought mine for 2600g.

< e.fish >

There are 16 types of fish. Here is the list of them and their prices. FAQ > _____ If you need to ask something else just mail me. Q: When is VAN coming? I am so frustrated! A: He will always appear on the 3rd and 8th day of the season, he will also visit reguraly. His shop always open around 11:40,41,42,43,44,45,46 and closes at 6:00 Q: I've tried to sell things for a higher price but it doesn't work A: Somethings you cannot sell for higher prices (e.g flowers) usually you can only change prices on really good things "off your farm" (e.g gold wool). Also

Van may not give you a higher price the first time so keep trying.

Q: What items can I lower prices? A: As far as I know the goat is the only thing you can decrease the price.

Q: I can't find stuff to sell A: There are other guides that will help you with this, some locations are Near vesta's farm, Romana's mansion, Pyrotechinicians, Turtle swamp....

Q: I don't seem to be able to make great amounts of money, what can I do? A: Sorry can't help you there, some tips are TREES, Butter/Cheese, Ruby's spice and there are more....

Q: Umm I heard something about your OWN shop. What is it? A: You can set up your own shop to sell things to the townsfolk, to do this first go to the place where Van usually sets up shop. Near the tree a sell button will appear. Here you set up shop and can sell things to the people of the Valley. When Van's in town don't bother it won't work.

Q: You make so little money from you crops why should I bother? A: If you have a seed maker and Tartan you can make some real cool crops. Also it is a farm you are running.

Q: I am in my first year and I can never seem to find anything good in the mines, why is this?
A: As the years past the mine gets bigger and you can find more things. Or you could just dig consistently in one spot.

Q: The flowers are worth almost nothing should I still sell them? A: If you have many many flowers you can make some money, but you should keep the cheap flowers for gifts, Happy Lamp, Gemsoil, Upseed for using with Tartan, and sell flowers like Goddess drops.

Q: Food and Milk rooms are expensive should I bother getting them? A: Food room is useful since you can make butter and cheese (it sells for a much higher price) the milk room is not as useful (my opinion) but they are worth buying.

Q: What should I do with food I have cooked?
A: The prices are usually equal the things you cooked. It's your decision.

Q: Where on earth do you get fertilisers and tree seeds!?!?!?! A: I asked this question myself, but when I saw the arrow button on vesta's list I pressed R button and it scrolled.
