=== 000. VERSIONS / UPDATES

\_\_\_\_\_

CONTACT ME: hm devlin at yahoo dot ca

- My guide is more helpful than me, as my memory of MM is vague now. It has been five years now (as of 2011.)
- You can e-mail me if you'd like to do general HM discussions, or check my contributor page for HM series FAQs I've written. Newer ones is your best bet that I'll remember them clearly, heh.

VERSION [1.12] - Oct 16, 2011

My guide is not 100% accurate. There were a few reports that you can catch a certain fish in different season than specified season.

There was e-mail reports of catching a tuna in winter season, and lampsquid in early summer, instead of midsummer. Unfortunately, as it has been five years since I last wrote this FAQ and I no longer have a copy of MM or GC, so I have no way of rechecking my information to make sure it's accurate.

VERSION [1.11] - June 07, 2006

-> Fixed Squid Prince error. Sorry, it's my mistake. I caught that squid on

Summer 1, while I was thinking it's Spring 30. After e-mails to me about the squid princes so I tried it out. Turns out you can catch it in the summers only, and day after rain/typhoons (I'm only human so I can make some mistake! >.>;)

## VERSION [1.1] - May 06, 2006

- -> Added "COMMON" section next to the Fishing Locations' chart, since one of the readers e-mailled me, suggesting that I should add that.
- -> Added more information about the Fishing Poles, and their differences.
- -> Fixed few things in this Guide, to make it more clean.

# VERSION [1.0]

April 28, 2006: Is on the Gamefaqs April 20, 2006: Started this FAQ

\_\_\_\_\_\_

### 001. HOW TO FISH

\_\_\_\_\_

You will first start with the Iron Fishing Pole. It is inside the Tool Box, so take it out! Now, you have to approach the river, or anything with water.

There are several things to remember when you're about to fish.

"THROWING THE HOOK" - Just stand at the water's edge, and press "X". You'll toss the hook right into the water. Longer you hold down "X" then release it, you'll toss the hook harder so there will be more distance. (EQUIP POLE!)

"CATCHING THE FISH" - If a fish take a bite on your hook, first your character will have [!] above her/his head. When it happens, press "X" repeatedly until you reel in. If you're looking away while fishing, you may will feel the viberation on your controller when a fish takes a bite.

"CLOSE TO THE FISHES" - When you walk around nearby the water, you'll notice the dark fish-shaped things in the water. Obviously, those are fishes. So you need to stand next to them, and throw your hook at them so they can swim to the hook and take a bite. When you're at the beach, you are unable to see any fishes, so good way to spot them, is hold down "X" for few seconds, then release "X"... A hook will fly, and the camera will follow your hook. So from there, you can search for any fishes in the beach, and then move to that spot.

## DO NOT FRIGHTEN THE FISH

Whatever you do, do not land your hook directly on the fish, or too close to the fish. Otherwise, the fish will get scared and disappear. It will appear after a few seconds.

## THE CURRENT MOVEMENT

All water (except the ponds) will move your hook in one direction, it is due to the current movement. You can take use this, and place your hook in the current where it'll take you to the fish. So this way, quicker fishing without worrying about frightening the fishes by landing a hook too close.

## FISH'S MOVEMENT

I find it to be more difficult to fish for those fishes who move a lot, especially those that go in the circle pattern. You will be better off by fishing with those fishes that only go forward and backward. That way, you don't have to worry about the fish straying too far from your hook.

\_\_\_\_\_\_

002. FISHING POLE

\_\_\_\_\_\_

You start with the Iron Fishing Pole. But after you catch about hundred fishes or so, your fishing pole will be at the copper level. You can head to Sunny Lake, and Ray will reward you with the Copper Fishing Pole.

From there, you can upgrade your Fishing Pole to certain level. You do not have to upgrade it one by one. You can skip some levels.

-----

```
| 1 Level = Iron Fishing Pole = No Ore | | 2 Level = Copper Fishing Pole = Copper Ore | | 3 Level = Silver Fishing Pole = Silver Ore | | 4 Level = Gold Fishing Pole = Gold Ore | | 5 Level = H.G. Fishing Pole = Rare Metal |
```

(To upgrade your H.G. Fishing Pole, you need to max the fishing pole's meter.)

### WHAT IS DIFFERENCE OF THE "X" FISHING POLES?

I was experimenting with types of the fishing pole, and so far, I don't see any notable impacts on the fishing pole. All fishing poles can catch any fishes, including the fish kings. Yes, you can catch the fish king with the Iron Fishing Pole. Only difference is the fish's weight. When you upgrade your fishing pole, you'll be able to reel in the heavier fishes. But it doesn't mean you can catch the tunas more often than other fishes. Chances of catching the certain fishes remains same. Only difference is the fish you catch will be heavier, nothing more.

So far I can see, upgrading your Fishing Pole is pretty useless. It isn't worth it. If you want to upgrade your Fishing Pole, then by all means.

\_\_\_\_\_\_

### 003. FISHING LOCATIONS

\_\_\_\_\_

This section is all about where to fish. There are eleven locations where you can fish, and those locations hold different fishes. But for now, I'll explain where are those locations.

There is a map in your game, just access to it in the menu. It's useful to find where is the location I listed here, especially names of the bridges.

-----LONG RIVER-----

There is a river in Flower Bud Village, and it's divided in four sections. High River, Upstream River, Midstream River, and Downstream River. Each part holds different fishes.

I NAMES | LOCATION |-----| | Above the Suspension Bridge. It is located in the mountain| | High River\* | and near the Harvest Goddess Spring. To get there, just | enter the Mountain, and head west. You'll see the bridge. | |-----| | Between the Suspension Bridge and Duck Bridge. It is | located north of Woody's Workshop. | Between Duck Bridge and Encounter Bridge. It is located | under of Blue Sky Ranch. |-----| | Between the Encounter Bridge and Sunset Bridge. It is | located west of the Junk Shop. |-----|

· •	It is located northeastern of Sunny Lake. It is a small pond with one, circling fish in it.
	It is located far west. Just keep walking west, and on a   road, and you'll be there.
	It is located in very deep of the Lake Mine, at 100 level.  Walk over Sunny Lake when it's frozen solid during winter
	It is located far south. If you're standing on the bright   sand, that's the beach. The pier also counts as the beach
Delta	It is located south of the Sunset Bridge, above the ocean   It's little spot, but you can fish at shores of delta.
	It is located at the island. More details under.  It is located at the island. More details under.

## SOUTHERN WATER / NORTHERN WATER

The island is far south of the beach. To get there, you will have to ride on the dolphin at the pier. But you'll have to increase the dolphin's heart up to one. Then it'll let you ride on it to the island.

The island is divided in two parts. Some fishes stay north of the island, while other fishes stay south of the island. Reason why it is different is because the north water is close to the beach, while the south water is close to the open seas.

Northern Water covers the north water, but it also covers the west water. To fish in the northern water, just stand at the pier, or at edge of the island, heading in direction of north.

Southern Water covers the south water, but it also covers the east water. To fish in the southern water, just stand at the island's edge, facing the south.

THE CHART - This chart is arranaged by the location, and season.

\_\_\_\_\_\_

|LOCATION'S NAME | FISH'S NAME | AVAILABLE DURING THE SEASON(S) | |-----| | Spring, Summer, Autumn | High River | Char | Spring, Summer, Autumn | Amago | Spring, Summer, Autumn Yamame | Spring, Summer, Autumn, Winter | Dace | Rainbow Trout | Spring, Summer, Autumn, +Winter | |-----| | Amago | Spring, Summer, Autumn | Upstream | Spring, Summer, Autumn Yamame | Spring, Summer, Autumn, Winter | | Dace | Rainbow Trout | Spring, Summer, Autumn, +Winter | \_\_\_\_\_\_| | Amago | Midstream | Spring, Summer, Autumn | Spring, Summer, Autumn | Crawfish | Dace | Spring, Summer, Autumn, Winter | | Rainbow Trout | Spring, Summer, Autumn, +Winter | 1 | Silver Carp | Spring, Summer, Autumn, Winter |

<sup>\*-</sup>High River is not official name. I made it up since I do not know of its real name.

#### 004. DETAILED FISH INFORMATION

\_\_\_\_\_\_

Read here if you want to know more indepth information on the fishes. In here, you can find if the fish is common, or rare, or how to catch certain fish kings, recipes, so on.

\*\*There is four fish kings - Huchen, Jamasquid, Squid Prince, Boot (Right).

## Popularity Levels:

- 1. Very Common (you'll catch this fish very often, nearly all time.)
- 2. Common
- 3. Average
- 4. Uncommon
- 5. Rare (chance of catching this fish is extremely rare, like squid prince)

Default (This list is in "default" order, meaning it's in same order as in-game menu order on default option.)

\_\_\_\_\_

### 1. Amago

SELL COST...100g

LOCATION.... High River, Upstream River, and Midstream River

SEASON(S)...Spring, Summer, Autumn

POPULARITY..High River-Average. Upstream-Average. Midstream-Average.

IN-GAME....."Lives upstream of rivers.

It's wary and hard to catch. Really good."

RECIPES.....Amago Sashimi (knife set) - Sell for 110g

Caramelized Amago (pot) --- Sell for 290g

Salted Amago (bonfire) ---- Sell for 110g

ENCYCLOPEDIA

[This fish has no information in the fish encyclopedias]

\_\_\_\_\_\_

# 2. Cureall

SELL COST...30g

LOCATION....Downstream River, Delta

SEASON(S)...Spring, Summer, Autumn

POPULARITY..Downstream-Uncommon. Delta-Uncommon.

IN-GAME..... "A fish that can be caught only at

Flower Bud Village. Used as medicine."

RECIPES.....Salted Cureall (bonfire) - Sell for 60g

ENCYCLOPEDIA

"Cureall

15 to 36 cm long

Caught from early spring to fall. A river fish seen only around Flower Bud Village. It got its nickname of "lonely doctor maker" because people eat it as a medicine. It goes bad quickly, so it's better to not eat it raw."

# 3. Hutchen (FISH KING)

SELL COST...1000g

LOCATION....Sunny Lake

SEASON(S)...Spring, Summer, Autumn

POPULARITY..Common\*

RECIPES.....Hutchen Sashimi (knife set) - Sell for 1,010g

ENCYCLOPEDIA

[This fish has no information in the fish encyclopedias]

```
SPECIAL NOTE: Best chance of getting this fish king is a day after rain*
4. Char
  SELL COST...90g
  LOCATION....High River
  SEASON(S)...Spring, Summer, Autumn
  POPULARITY.. Average
  IN-GAME...."Lives upstream in cold rivers.
               It's greedy, but wary. Tastes good."

  [This litter has no information in the fish encyclopedias- duh]
______
005. FISH GIFTS FOR VILLAGERS
______
This section is all about the villagers' reaction to the fish gifts. However,
the fish recipes will not be included in this section. It's only the raw
fishes used as the gifts. Maybe, in future, I'll add in the fish recipes.
The villagers have four different reactions when they get the gift from you,
and they are...
"LOVE" is when you hand a fish to the villager, the three hearts will appear
above the villager's head. It means s/he loves your gift.
"LIKE" is when you hand a fish to the villager, the green stitch will appear
above the villager's head. It means s/he likes your gift.
"SO-SO" is when you hand a fish to the village, no icon will appear
above the villager's head. But s/he will accept your gift anyway.
"HATE" is when you hand a fish to the villager, but s/he refuses to take your
gift. It means s/he hates your gift.
But for now, there are only "LIKE" and "SO-SO" in this section because I still
haven't discover the raw fishes that villagers love or hate.
                                BOYS
