Hey there! My name's Chel, and I am addicted to Harvest Moon: Magical Melody. In real life, I have the cooking skills of a paraplegic dog, but in HM: MM -- I can be a master chef! I spend a lot of time flipping through the memo book (Y button menu section) in Magical Melody, and I often wished there was a guide on my beloved GameFaq's in which I could quickly search for the recipe I wanted. Thus, this guide was born. My uterus is quite proud.

`.-----.` How To Use This Guide `-----.`

While playing Harvest Moon: Magical Melody, if you press the Y button, your menu will pop up. If you L or R button a few times, you'll come to your Memo, which holds your Records, Books, Dishes, and High Scores. Obviously, most of the information in this guide is taken from the "Dishes" section, verbatim. I may have made mistakes, however -- I am human. A beautiful human with very nice hair, but nevertheless, I am human. If you find some, let me know; my email is cheldoll@gmail.com. However, Natsume has made mistakes of their own, and I am not responsible for those. So HA.

Anyway, how to use this guide! These are just suggestions -- don't worry, you can do whatever you want with this.

- ~ Ctrl + F is you little buddy. For you crazy Mac users it's something like Apple + F, or something like that.
- ~ Got a fish you want to prepare to get more money out of it? Ctrl + F and look for that Amago!
- ~ Got a new cooking item and don't know what you can make with it? Check the table of contents for a listing!
- ~ Wonder which dish would sell for more money? Ctrl + F, baby!

`.-----.` Frequently Asked Questions `-----`

Q: "Where can I get the Mixing Pot and Aging Pot?"

A: Haha! You said pot. Anyway, The mixing pot and aging pot are actually gifts from Saibara -- a character who'll move into your village after you ship a Good Clay. Good Clay can be obtained using the hoe on the second floor of the Moonlight Mine, or is a gift when you get at least two and a half hearts with Ann.

The mixing pot you'll get after two and a half hearts with Saibara and a little mini quest. The aging pot you should get at five hearts with him.

Q: "I love you. Cheese. Send me a pic of you so I can behold your wondrous beauty, and hair. Llama. Fish. Cube. Moobs."

A: (Yes, this was a real email submitted to me three times) Two days of no answering. I was thinking of sending him a photo of me dressed as a pirate. My boyfriend checked my email and replied, "who are you?" to him.

Q: "Where can I catch the Huchen/Jamasquid/Squid Prince?"

A: In my cooking pot! Hahahaha! Boy, I'm hilarious. Anyway;
Huchen: Lake, on a day after rain (Spring-Fall)
Squid Prince: Island, on a day after rain (Summer)
Jamasquid: Lake Cave, Floor 100 (Winter)

Q: "OK, I can't find a prawn ANYWHERE! Where in the world do you get it?"

A: Calm down, calm down! Prawn is simply shrimp. These can be caught in the ocean year-round.
