

Ikaruga Chains & Combos FAQ/Guide

by Ineedhalp

Updated on Apr 23, 2003

This walkthrough was originally written for Ikaruga on the GC, but the walkthrough is still applicable to the DC version of the game.

Ikaruga Chains & Combos FAQ/guide

This FAQ was made by Ineedhalp(Rodney Nelson).

SUMMARY: This guide is about chains and combos in the game Ikaruga, it explains how to keep chains going and when they break, at the end, it also tells you how many points each chain gives you.

THE GUIDE:

Extra points are gained when you destroy 3 enemys of the same color. The chain will grow larger if you continue to destroy enemys of the same color in groups of 3. You can change to a different color enemy and the chain will not break, as long as you destroyed 3 of the previous color before.

For instance:

A successful chain is like this:

White Enemy destroyed-White | Black Enemy destroyed-Black

White, White, White, Black, Black, Black, White, White, White.

The chain continues as long as you destroy the same color of enemies in groups of 3. However, if you destroy a different color enemy, after you've only destroyed one or two of the other color enemy, the chain is broken.

For example:

White Enemy destroyed-White | Black Enemy destroyed-Black(again)

White, White, White, Black, Black, White

That chain broke because a white enemy was destroyed after two black enemys were destroyed, the chain would not have broken if the player had destroyed a third black enemy.

Amount of points from a chain:

For each chain, you will get extra points, that multiply every time the chain grows larger, you start out with only 100 points but once the chain grows larger you will rack up lots of points.

Here is the complete chart:

1st Chain: 100 points
2nd Chain: 200 points
3rd Chain: 400 points
4th Chain: 800 points
5th Chain: 1600 points

6th Chain: 3200 points
7th Chain: 6400 points
8th Chain: 12800 points
Max Chain: 25600 points

Every chain after the Max Chain will be 25,600 points each,
allowing you to get a gigantic combo.

RANTING:

Do not steal this FAQ, this took some time out of my life, and
I will not be too pleased if I see this FAQ stolen. If you want
to put this FAQ on your site e-mail me for permission first. My
e-mail is Ineedhalp00@yahoo.com.

END.
