Character FAQ for Naruto: Clash of Ninja for
the Nintendo Gamecube.
By -- Ploo21

Well, now this is my second character FAQ. My
first one was a success, and got published 2 hours
after I submitted it. (Actually, I checked two hours
after I subbmitted it. It might have been there a long
time.) So I've decided to make another character FAQ:
for Naruto Uzumaki.

~~~~~Version History~~~~~

Version 0.5 - June 2, 2006  
Got all of the information except the sound test numbers.  
Had to go to bed, so slept, planning on finishing up in the  
morning.

Version 1.0 - June 3, 2006  
Got all of the sound test numbers in early. Then family  
so went to type everything up.

Final version - Version 1.0

\*\*\*\*\*1 Introduction 1\*\*\*\*\*

Naruto is my brother's favorite character, so I've  
decided to make this FAQ for him, to hopefully help him and  
anyone else who wants to become better with Naruto.

^^^^^^2 Combos 2^^^^^^

B+B+B+B+B+B

This is a long series of hits. This move will  
fill your chakra bar most of the way. This does pretty  
decent damage, and you'll probably find yourself doing  
this move frequently.

B+B+B+B+B+A

This is basically the same move as above, but Naruto throws two kunai at the enemy instead of slamming down upon him or her. It does a little less damage, and other than that it's not that different.

B+A+A+A+A

Naruto punches, slashes with a kunai twice, kicks the enemy, then rams into him or her. This does a great amount of damage.

B+A+A+B+B+B+B+B

Almost the same as the first combo I listed, except replaces a punch and a kick with two slashes from a kunai. This one does a lot more damage!

B+A+A+B+B+B+B+A

Same as before almost, but replaces the last attack (a dive) with the throwing of two kunai. This one does a little less damage.

B+A+B+B

Naruto punches, slashes with a kunai, punches again, and dives at the opponent. This is a quick move, and the last two attacks are pretty powerful.

B+A+B+A

Basically the same move as the last one, but changes the last move from a dive to a second kunai slash. Once again, this one does a tad less damage.

-->B+B

A slam, then a dive. A pretty quick attack, and you can still hit the enemy from very far away. Also, you can usually get in a trip (downB) as your enemy lands.

-->B+A

A slam, then a kunai slash. This does a small bit less damage than the combo I listed above.

DownB+A+A+A

Naruto trips the opponent, slashes them with a kunai, kicks them, then rams into them violently. Pretty good damage and can usually catch enemy off-guard.

DownB+A+B+B+B+B+B

Naruto trips, slashes with a kunai, and follows up with a series of punches and kicks, and ends with a dive attack. Again, the off-guard is possible, and it's strong.

DownB+A+B+B+B+B+A

Same as the last move, except Naruto throws two kunai instead of the dive attack. It does a tiny bit less damage.

RunningA+A+A+A

Naruto slashes with a kunai twice, kicks the enemy, and then rams into them. It's decently strong, and it's good when running across level towards the enemy.

RunningA+A+B+B+B+B+B

Naruto slashes with a kunai twice, and does the series of attacks that ends with a dive. It's very strong! It does more damage than Naruto's special!

RunningA+A+B+B+B+B+A

Once again, we have the repetitive ending. It exchanges the dive from the last move and replaces it with two kunai flying at them from Naruto. It does a small bit less damage.

RunningA+B+B

A kunai slash, a slam attack, then a dive. It's pretty quick, but other than that there's not much to say.

RunningA+B+A

Same one as the last, but replaces dive with a kunai slash. It does a little less damage.

Special move - (X)

Naruto uses shadow clone no jutsu, then kicks the enemy up into the air. Three Naruto's are already in the air, and as soon as the enemy reaches them, they all kick the enemy downwards again, where the poor character hits the ground violently. To tell you the truth, it's not that great of a move. Certain combos are better. And you have to be pretty close when pressing X. (Don't forget you need a full bar of chakra to pull off this move!)

~~~~~3 Pros, Cons, and Ninjutsus 3~~~~~

Pros:

- + He has some pretty long, fierce combos
- + Is pretty balanced concerning taijutsu, ninjutsu, and genjutsu

Cons:

- His attacks are pretty easy to dodge and counter
- His attacks seem very repetitive

A- Throw kunai

A (hold for one flash)- throw kunai (enemy stumbles)

A (hold for two flashes)- throw kunai (ememy flies across screen.)

UpA- Throw 3 kunai diagonally

<--A- Sexy no jutsu. If enemy attacks the girl, Naruto will counter attack. (It drains chakra to keep the sexy no jutsu on by holding A)

DownA- Naruto dissapears and jumps from the ground next to the enemy, hitting them in the process. (A good move to dodge specials and shuriken/kunai.)

-->A- Kunai slash (deflects shuriken/kunai)

-----4 Poses 4-----

Lose Match - Naruto falls to the ground

Lose Battle - Naruto is on his hands and knees, breathing heavily.

Win Match - Naruto holds his arm out vertically and shoves it down fiercely.

Win Battle - Naruto shoves his arm down, jumps up, crouches down,

and rises with his arm in the air.
