General Tips

- When fighting Enel as a final boss don't kill him with normal attacks or he will then come back to life by jumpstarting himself with his electric powers.
- When the Eternal Log Pose points up your power will be max, when the red arrow points down it will decrease power.
- Jump on your opponents head to steal power from them in the form of fruits.
- In the Drum Kingdom stage the snowball thrown by the huge bunny can be used to momentarily freeze opponents.
- Devil fruit users take more damage when falling into the sea (Mock Town stage).
- To super dash, hold B and direct move toward your opponent.
- Smoker's A+X Grab is more effective on devil fruit users.
- Press the d-pad for Crocodile to expose his poison hook, it can inflict poison to your opponent when you attack.
- To delay the bomb from exploding, simply release it and grab it back.
- If you're on fire, you can transfer the fire to your opponent by grabbing them.
- After performing Bon Clay Lv.2 special, quickly press Square (for Pandaman's mimic) or Triangle (for Cricket's mimic).
- In the Windmill Village(Luffy's hometown) attack the cow and lure your opponent into the road, when the cow hits him they'll go flying.

V. Pandaman

Just figured I'd put this up as a little extra for all you Pandaman-Hunters out there. For some strange reason I've noticed that sometimes Pandaman doesn't appear, anyone know why?

1.Drum(the snowy place)- In the middle glass door Pandaman sticks his head out every few seconds.

2.Alabasta(Desert place)- Pandaman peeks his head out from the open door.

3.Fuschia Village(Windmill place, Luffy's hometown)- On the roof of Party's Bar.

4.Marine HQ(Training Mode place)- On the fountain behind Mihawk and Donflamingo.

5.Marine HQ(Training Mode place)- Behind the stairs to the right(or left, can't remember) he pops up every once and a while.

6.Sky Piea(Place with ruins and big snake)- Go to the stairs and get near the wall, Pandaman will be sitting in against the wall.

7.Ending Credits- At the very end Pandaman will be standing on a tree branch near the top of the tree.
