1. Introduction

Hey hows life? This is the first FAQ I have submitted to Gamefaqs.com so go easy on me. :P If you do I will put your cookie in the mail. Pokemon XD Gale of Darkness is an awesome game and I hope that this FAQ will help you in the game.

Pokemon XD Gale of Darkness is the latest Pokemon game for Nintendo Gamecube. It starts 5 years after the previous Nintendo Gamecube Pokemon game "Pokemon Coliseum", the evil Team Cipher has returned with all new shadow pokemon and with possibly the best shadow pokemon ever created. There are over 80 snagable pokemons in this game and you can get over 180 total pokemons. Pokemon XD is a must buy for pokemon fans and non pokemon fans will get a kick out of it too.

The disappearance of a cargo ship and sightings of some kind of Lugia leave plenty of unanswered questions.

Please keep all phones (this includes cell phones) off and please refrain from talking while reading this Walkthrough. :P OK just kidding. Please enjoy the walkthrough!

2. Version History

- Version 0.15 (10/14/05)
- Start of the Walkthrough
- Covers 4.1.1(Pokemon HQ Lab) to 4.1.8(MT. Battle)

2. Legal Stuff

I do not own pokemon (although I wish I did), I do not own nintendo (although I wish I did) but I do own this walkthrough. You may not use this walkthrough without my permission. If you want my permission, email me at Joewise6@yahoo.com with a title like "May I use your Pokemon XD Walkthrough" or something like that. Please provide a link to the website you wish to use this walkthrough on.

3. Walkthrough

Before I start the walkthrough, I need you to know how I do things around here, you gonna have to read and read good. I will not repeat myself under any circumstances.

OK, first off I break things down into chapters, the chapters are based on the Cipher Admins you must fight, the final dungeon, and any things that you may do after you beat the final boss of the game. Each of the Chapters are broken into little ummm, "pages" of each place you have to visit in each "chapter",

in order of course. If there is a trainer to fight it will be put into a box like the box shown below.

```
 / TRAINER \ _____ ,-----.
 | Kaminko Aide Chobin      ( $ 150 |
 '----->-----<
   | Sunkern      | GRS      | L5 |
   '-----'-----'-----'
```

The box shows the trainer's name, how much cash you get for winning, the pokemon they have, what type it is and the level. And I will put some advice below too for most of them.

If a Shadow Pokemon is on your opponent's team, I will put a * symbol after their name.

Now, HALLELUJAH, HALLELUJAH, it's Walkthrough time!

4.1 Up to Lovrina

4.1.1 Pokemon HQ Lab

The opening scene shows a ship called the S.S Libra minding it's own business, just floating down an ocean, when all of the sudden.....Helicopters Attack! Along with some huge pokemon that looks similar to LUGia, hmmmmmmmm. This, uh, pokemon uses it's powers to take the ship away, leaving the ship's crew soaking in the water. But this has absolutely nothing to do with you, yet anyway.

Then bam cue you. You start off controlling a level 50 Salamance and your opponent has a level 50 Metagross. This battle is alot eaiser then it looks, all you have to do is use Earthquake twice and the Metagross is fainted. Some battle.....

Then you come out of the battle simulator, which is just a training device used to well, train. You don't in reallity have a level 50 Salamance, you just have a level 10 Eevee. Well it was fun while it lasted....

Take all the time you want to explore the Pokemon HQ Lab, memorize where everything is. The room to the West is where you need to go to meet Prof. Krane and your mother Lily, who is his assistant. Lily asks if you will find your sister Jovi, say yes, even though as soon as you find Jovi you will wish you never said yes. Start looking for her anyway though, explore some more, talking to everyone you can. When you are ready, go to your room, which is on the west side of the building on the ground floor, and pick up your PDA(which is on the table shining)and 3 Potions(which are in the chest that looks like a pokeball). Talk to Adon who is hiding under a table in the upstairs room, does he have issues or something? Oh wait never mind he's just playing hide and seek with your sister, Jovi. He will tell you that Jovi is at Dr. Kaminko's house southeast to the lab.

Well, now that you know, go as far north as possible, ok just kidding, get going to Dr. Kaminko's. Exit the building, but before you leave the area, go down the stairs and go to the west, you will find 2 Anidotes.

4.1.2 Dr. Kaminko's House

Ok, cue lightning! Ok, lets try that again, cue lightning! There we go! This place belongs to the mad man known as Dr. Kaminko.

Go up to the house if you dare, and you will be attacked by his aide Chobin...

```

/ TRAINER \ _____,-----.
| Kaminko Aide Chobin      ( $ 150 |
'---.----->-----<
      | Sunkern      | GRS      | L5 |
      '-----'-----'-----'

```

2 Bite attacks will do him in. After you beat him your sister will emerge from the house and say that she comes here all the time(Uhhhhhhh). Chobin will apologize for attacking you, saying that he though you were a burgler, he will invite you to meet Dr. Kaminko, and will show you a video of one of the Doctor's inventions. (Please feel free to gag and gag some more) When that horrifing movie is over, go into the other room and talk to Jovi. Since you got lost and were crying for your mommy, Jovi will offer to show you the way home, how nice of her. Yeah right.....

4.1.3 Pokemon HQ Lab

When you arive, Lily will be relieved to have Jovi back, and she says that you need to go see Prof. Krane. Find the Prof. and he'll give you the Snag Machiene, a device capable of stealing pokemon from trainers! All while fitting comfertably on your arm. OH wait, it only works on Shadow Pokemon. Well good enough. Prof. Krane's other assistant Aidan will give you 5 Pokeballs so you can start snagging.

Just as the Prof. is about to take you to the Battle Sim to try out this incredible device, he's ambushed and taken away by some guys with no fasion sense what so ever! Run outside, and you'll see the Prof. getting hit with a hammer over and over again! Ok notreally, but you do find that they are taking the Prof. to help them with their reserch.

Being the good person that you are, you fight Naps, one of the kidnappers, or professor nappers or something.

```

/ TRAINERS \ _____,-----.
| Spy Naps                  ( $ 150 |
'---.----->-----<
      | Teddiursa*| NRM      | L11+|
      '-----'-----'-----'

```

This guy has a pretty decent pokemon, but wait! It's a Shadow Pokemon! You get to steal a pokemon! IN this battle, you can't do anything but throw the pokemon, the Prof. won't let you do anything else. You automaticly get this pokemon, nothing you do can screw this up. But for future reference you need to weaken the pokemon before you try to catch the pokemon. Once you win the spys will run for it, taking the Prof. with 'em. Lily and Aidan believe that

there are more shadow pokemon out there, but without the Prof. they can't finish the Purification Chamber to purify the pokemon. But Lily decides that they must get it done with or without the Prof., and he asks you to go to Gateon Port to get a Machine Part for them. Jovi, of course, offers to take you there, because you get "lost" to easily. Congrats, you are Jovi's "assistant" for the day, yay, uhhh, party, w00t w00t. OK not really.

4.1.4 Gateon Port

When you arrive your sister will run into a thug named Zook, seriously what kinda name is Zook? He gets mad and is about to attack you with a Shadow Zangoose when Mr. Verich appears one of his bodyguards, (boy he needs them) Mystery Man Ardos, fights Zook for you. He creams Zook with a very high level Alakazam's Psychic attack. Please observe all Abra raisers (Abra is the 1st form of Alakazam, Abra evolves into Kadabra, you then must trade Kadabra and it will evolve into Alakazam, but this has nothing to do with XD.), for this is how to kick some backside with an Alakazam.

After seeing the fight, head west and you will run into Jovi's friend Emily and her mother. Afterward, go into the parts shop (there is a big wrench on top of the building.) and talk to some people.

Very important! This is the time where you get an opportunity to pick what you want your Eevee to evolve into. Talk to the man to your right when you enter the door, and agree to listen to his story. He will then offer to give you an item that will help you evolve your Eevee: Fire Stone, Thunderstone, Water Stone, Moon Shard and Sun Shard. They will evolve into that respective type. But remember, if you use the shards you must wait until you have a good friendship with your Eevee while possessing one of the shards and upon leveling up it will evolve into an Umbreon or an Espeon.

Go outside and onto the dock and Perr will appear, go back to the shop you were just at and talk to him to get the machine part you need for the Pokemon HQ Lab.

There are some items that can be found here, most of them are in the Lighthouse which is only accessible via the moving bridges.

There are also a few trainers to battle. You see that ship by the dock? Talk to that sailer and he'll ask you if you think he won 2nd place in a talent contest, say no and he'll attack.

```
.---'-----'-----'-----'
| Sailor Bost           ( $ 96 |
'---.----->-----<
    | Marill           | WTR           | L6 |
    | Whismur          | NRM           | L6 |
.---'-----'-----'-----'
```

This dude is easy, what you evolved your Eevee into really won't have a factor here. Just beat him. Once you win head toward the lighthouse. Take the stairs to get to the top to get some items. The person at the top has a Shadow Poochyena, alright!

```
.---'-----'-----'-----'
| Bodybuilder Kilen    ( $ 330 |
```

```

'----->-----<
| Zubat      | PSN / FLY | L6  |
| Poochyena* | DRK       | L10+ |
'-----'-----'-----'

```

For this battle be careful about the Poochyena, I found it very useful in the early going. Make sure that you nag it. Now go to the northeast via the moving brides. You will find a dude with a Shadow Ledyba.

```

.-----'-----'-----'
| Casual Guy Cyle      ( $ 330 |
'----->-----<
| Tailow      | NRM / FLY | L6  |
| Ledyba*    | BUG / FLY | L10+ |
'-----'-----'-----'

```

Be sure and snag this one, it is always good to snag the pokemon. Take out Tailow with Bite or Return, and then weaken Ledyba enough so you can capture it. Next go to a building in the East called the Krabby Club. You will fight a couple guys here.

```

.-----'-----'-----'
| Navigator Berk      ( $ 120 |
'----->-----<
| Wingull      | WTR / FLY | L6  |
| Lotad       | WTR / GRS | L6  |
'-----'-----'-----'

```

```

.-----'-----'-----'
| Chaser Laken      ( $ 120 |
'----->-----<
| Swablu      | NRM / FLY | L6  |
| Feebas     | WTR       | L6  |
'-----'-----'-----'

```

These guys are easy, just beat 'em and get it over with. When you are done stop by Dr. Kaminko's house, Perr's father is there visiting the mad doctor.

4.1.5. Dr. Kaminko's House

```

.-----'-----'-----'
| Kaminko Aide Chobin      ( $ 360 |
'----->-----<
| Sunkern      | GRS       | L6  |
| Magikarp     | WTR       | L6  |
'-----'-----'-----'

```

Chobin will stop you again. Thinking you are burglar, he doesn't have a memory, cause if he did, he would remember the thwomping you handed to him the last time this happended. He still has the Sunkern, but now he also has a Magikarp, the worst pokemon alive, Magikarp and Chobin go hand in hand. Remind Chobin just how good you really are. Get rid of the Sunkern, as Magikarp can't even attack.

Inside, talk to Maken(Perr's dad) and explain all that has happended. That's

all you have to do here, head for the Pokemon HQ Lab.

4.1.6. Pokemon HQ Lab

Talk to your mom on the second floor and give her the machine part. She'll be happy, and after some talking, Jovi leaves, and your mom will ask you to go to Agate Village. Say yes and be on your way!

4.1.7. Agate Village

If you have played Pokemon Coliseum, this will be the most familiar place. A few things are different, but nothing big.

If you are looking for experience and poke dollars talk to the town citizens. There are so many trainers your head will spin. Talk to everyone that you can. And there are some items that require you to go through caves and behind houses, it might take a while to find ways to get to all of them. A lot of the citizens want to battle, and Pokemon love the extra experience, plus, this is the place that you can purify shadow Pokemon, yay! Battle everyone so you can lower the Heart Gauge of your Shadow Pokemon.

Behind the Poke Mart, you can find a cave that has a Poke Ball and a Super Potion in it, along with an old woman that will teach your Pokemon either Thunder Wave, Mimic, or Seismic Toss. Not all Pokemon can learn these moves, but as for those who can, it is a good idea to teach it to them. Thunder Wave is recommended, because 75% of the time the Pokemon that goes first wins the battle, and Thunder Wave paralyzes the opponent, which means it greatly lowers their speed. Keep in mind that you can only teach the move to them once, so teach it to a Pokemon that you will use often.

Next go in front of the Pokemart and talk to the old man there and prepare for a battle!

```

-----
| Fun Old Man Clerr      ( $ 224 |
'----->-----<
| Oddish      | GRS      | L7  |
| Machop      | FTG      | L7  |
'-----'-----'-----'

```

Once you win, head into the Pokemart if you want. They have all the same things as the first game, including the clogones to massage your Pokemon. (Incase you didn't know, massaging your Pokemon lowers their heart gauge.) But they are Pokeball less. So you can't stock up on Pokeballs just yet. Find the giant tree, which is actually Eagun's house, and go inside. His wife will tell you that they were expecting you and that Eagun isn't home. But low and behold he comes in right as she says that. He says hello, and then runs off to the Relic

Stone, which of course he doesn't tell you how to get there. But hey, thats my job, not his, so just hang tight and read on. You can go upstairs if you wish, but there is nothing there except 2 beds. So go ahead and leave the house.

Around the back of the house to the left is a ramp that will lead you to a chest with 3 potions. There is also a lady who wants to battle you.

```
-----  
| Old Lady Belish          ( $ 224 |  
'----->-----<  
| Poochyena | DRK          | L7 |  
| Nincada   | BUG/GRD        | L7 |  
'-----'-----'-----'
```

She gives you TM09(Bullect Seed) when you win. Head back up to the tree house and accross the bridge to the east, then go north and an Old Man will give you a Leppa Berry, come back here often, he gives you berries all the time. The house you just passed is the day care, there is nobody in there except the name rater, so if you want to change your pokemon's name, talk to him. Outside, and farther to the east is a chest containing an Eather. Alright, back up 1 bridge and you will find the Pokemon Center, heal up if you want, but if you don't continue on.

Down the hill from the Pokemon Center is a trainer trying to escape, lets make sure he can't.

```
-----  
| Bodybuilder Dosk        ( $ 192 |  
'----->-----<  
| Tyrogue   | FTG          | L7 |  
| Grimer    | PSN          | L8 |  
| Zubat     | PSN / FLY   | L8 |  
-----
```

This is the 1st battle that should take a few or more turns, but it is still pretty easy. He says he was trying to look at the Relic Stone, but can't so he got lost in frustration. So head to the Pokemon Center, that little hill right infront of the PokeCenter leads you down to a cave, once you enter you will see a long line of trainers that you have to battle. You can't skip anyone so get ready. The good thing about this is it lowers your Pokemon's heart gauge.

| Shroomish  | GRS          | L9  |
-----

```

You get a clogone case for beating him, yay! INside the next entrance, Eagan is wating for you. He says you should have your pokemon ready to be purified, so he's battling you for experience.

```

.-----
| Myth Trainer Eagun        ( $1200 |
'----->-----<
| Pikachu     | ELC          | L12 |
'-----'-----'-----'

```

Not that hard here, but still kinda challenging. His Pikachu knows Thunderbolt, a very powerful electric attack. So be ready all of you who picked Vaporeon. He still should be beat in 2-3 turns. After you win you should have some pokemon with the heart gauge all empty. Here is where you purify your Pokemon. Step up to the Relic Stone and get purifying. Your ex shadows will learn new moves and they will gain all the EXP from the battles they were in.

Eagun will ask that you go to Mt. Battle to talk to a friend of his named Vander about Cipher. Vander knows alot about Cipher, so of course stop by Mt. Battle!

4.1.8. Mt. Battle

Welcome one welcome all to the Mountain of the Mountains, Mt. Battle. When you arrive to this wonderful vacation spot you will be greeted by the red bodyguard of Mr. Verich. He says he comes here often to train, ummm, thats nice. He then leaves, he's rather...odd. He didn't even give you his name. But don't worry about that now, you'll see plenty more of him as the game progresses.

Now you should like this place, it is THE BEST place to train, I don't care what other people tell you this is the place to go. Now once inside, you will see a place to heal and a place to buy things. Go to the right and find 2 men sitting on benches. One of them is the Move Deleter, his name is self

explanatory, but if you need me to explain, he deletes Pokemon's moves. If you feel you just have to have a move deleted(I don't see why you'd want to, but thats none of my business), then this is the place to be.

Below him is the Move Tutor, who will teach your Pokemon any move that they have already known. He is quite good if you accidentally delete an important move. The bad thing is he charges 1,000 Pokedollars for his services. The Move Deleter does his stuff for free.

Talk to the lady near the door, she will tell you Vander was killed in a serious, ummm, paper cut incident. Ok just kidding, she'll tell you that he is currently in a training session with some new trainers, you know teaching them the basics. She will let you through so you can find Vander, but you have to go through 2 trainers before you find him. Then a 3rd when you do find him.

Start goint through Mt. Battle, when you get in you will be greeted by a new trainer who wants to battle you. Get ready to rock.

```

  | Wurple      | BUG      | L9 |

```

Once you defeat her move on to the next area.

```
.-----  
| Casual Dude Cridel   ( $ 200 |  
'---.----->-----<  
  | Corphish    | WTR      | L9 |  
  | Swablu      | NRM / FLY | L10 |  
-----
```

Go to the next area to find Vander teaching a trainer. He will greet you, and he will ask you to battle a trainer he is currently teaching, being the good person I hope you are, you will accept.

```
.-----  
| Cooltrainer Bardo    ( $ 300 |

  | Doduo       | NRM / FLY | L10 |  
  | Spoink      | PSY       | L10 |  
-----
```

Once you win, Vander will tell you about a Lab to the south that was used by Cipher long ago during the previous Shadow Pokemon crisis, and that he has seen some suspicious activity around there recently. Now, why do you always have to be the one to check things out, to save the day, why can't it be a responsible adult sometimes? Oh never mind....

Anyway, sounds like you have to check it out. As you leave the great mountain, you'll get an E-mail saying you can buy Pokeballs at the Agate Village Pokemart. Yay! Head there to stock up on the good stuff. I recommend getting about 15-20 Pokeballs. There are about a dozen shadows to snag at the Lab, so you want to have some to spare. Some healing items will come in handy too. So if you want get some.
