There are a few reasons you might want to play as Yunsung. One is if you liked

Hwang in the previous Soul Calibur, you'll feel right at home with Yunsung. He plays like him and looks like him. Another reason to play as him is if you like speedy characters and you don't want to look cheap (\*couph\* Kilik) then Yunsung's a great choice. He is also pretty strong.

If you like to kick people in the face a lot, Yunsung has a wide variety of kick moves. That's some of the reasons you may want to play as Yunsung but the best reason is that Yunsung is just fun to play as. He has awesome, fast moves.

a. Profile

-=-=-=-

Hong Yunsung

Age: 18

Birthplace: Chili-san, Lee Dynasty Korea

Height: 5' 9"
Weight: 150 lbs.
Birth Date: April 16

Blood Type: 0

Weapon: Chinese Sword
Weapon Name: White Storm

Discipline: Seung Style Long Sword + Natural Footwork

Family: Father/Died from illness
Mother/whereabouts unknown
Master/Seung Han Myong

Yunsung was well-known in the dojo for his swordmanship, even by his seniors. Hwang Sung Kyung, whom Yunsung had idolized as a child, was no longer his hero, but a goal to surpass. Yunsung wished to challenge Hwang to a deul.

One day, news reached the Seung Dojo that Hwang was returning from his long journey. Yunsung saw his oppurtunity to force Hwang to acknoledge his fighting skills. He may even prove to be actually stronger than Hwang.

Hwang, however, did not take Yunsung's challenge, for he had other priorities such as rejoining the military to help defend the country from the impending invasion by Japan.

Seung Mina, the master's daughter, saw the brooding young man and handed him a single-handed sword. The weapon she handed to Yunsung was a Seung family heirloom. According to legend, it possessed the ability to reflect the deepest thoughts of those who held the blade.

That night, Yunsung studied the image of himself in the sword and reflected. He eventually understood the foolishness of challenging someone for personal reason when the country was in such peril. But what could Yunsung do to make Hwang acknoledge him? He then relized that if he could obtain the Sword of Salvation that Hwang failed to find, Hwang would be forced to recognize Yunsung's talents and respect him. A challenge against Hwang would have to wait.

Once Yunsung made his decision, he could not stay put for long. He immediately packed his belongings and left the dojo.

b. Stage

-=-=-=-

Imperial Capital Ayuthaya

The Ayuthaya dynasty witnessed the height of prosperity of the Indonesian Peninsula. This imperial villa is one of the many used by the dynasty to entertain honored guests.

The beautiful white walls of the villa and the abundant nature that can be seen across the river from the garden make visitors feel as though time stands still.

Talim came to this place some time after the start of her journey. Yunsung passed through this place on his way to India a few days before she arrived. Ayuthaya is the place Talim first came to learn that there were others searching for the evil sword.

-=-=-

c. Ending

-=-=-=-

"I don't care if the sword is evil... I will protect my country with this power!"

Thus he convinced throughout his battles, but as he reached for Soul Edge, he stopped.

Returning quickly to his home, Yunsung toiled feverishly to protect his homeland.

He no longer needed the Sword of Salvation, for he believed in himself.

d. Quotes

-=-=-=-

I hardly broke a sweat!

Quit now if you want to live! Just what I wanted! All right, let's do this! Watch this! All right, let's start! You're going down! Do you seriously want to fight? All right, I'm itching for a fight! Any time you're ready! All right, let's go! I can't wait to take you down! Talk is cheap in battle! I'm not going to lose to fools like you! It doesn't matter how many of you there are! Hear the scream of my sword! Alright! All's well that ends well. That was great! Not quite good enough.

```
It's a matter of skill!
That's it?
Not too bad.
Come back when you're ready!
Nothing can stop me!
(Laugh 1)
I'm unstoppable!
Still breathing?
That was too easy! No problem!
How's that? Still Breathing?
Man, I'm much better looking than you.
Don't make me waste my time.
(Laugh 2)
That was better than the last time!
What?!
D*mn...
...I don't believe this.
Oh, come on...
That sword is definetly evil.
I don't care if it's evil. I will protect my country!
Did you feel my true strength?!
Sorry, but I have to go.
No no, let young people handle it.
I can't handle her. I'm outta here!
(Attack 1-19)
Take this!
Gotcha!
Outta my way!
Die!
Next!
Nice try!
Don't run!
No use!
I see ya!
Sorry!
Gimme a break!
Feel that?
Yeah!
How's that?
(Damage 1-13)
(Death Cry)

# 5. Tips for fighting with Yunsung

- Yunsung's Meteor Throw is a great throw to get ring outs with. Have your opponents back toward the and of the stage and execute the throw. It'll throw you opponent straight out of the stage.
- If your opponent is next to the end of the stage (he/she has his or her side toward the end of the stage) try the Pinwheel Kick throw. It'll easily throw your opponent out of the ring. You can also use the Spine Destroyer but getting your opponent in the back is tough.
- Using Crane and Crane Swoop combos is essential to kicking your opponents crapper! Doing moves like Rising Phoenix Kick give you an enourmous opportunity to juggle your opponent crazy. And moves like Rage Fire Blade hurt your opponent a lot and it gets them on the ground.
- When opponents are on the ground, its time to beet the crap out of your opponent without breaking a sweat. Use strong, and low vertical and kicks.
- Yunsung has some awesome kicks. So use them to your advantage. Double Circular Heaven Fangs inflicts almost 100 damage, gets the opponent on the ground, and your evading while you attack. And you can combine kicks with sword attacks like the Warrior Step. And inflict quick damage with the Double

Hawk kick. Without kicks, Yunsung would be an average character.

- There are a lot of vertical and horizonta attacks you can use. There's the Opening Void Thrust which doesn't look to comfortable, there's the Jolting Blade or you could use a combination of vertical and horizontal attacks and do attacks like the Rage Fire Blade or the Willow Dance.
- Yunsung's best signature move is definetly Raging Panther. Two kicks in the face and when your opponent thinks your goin to do another kick, you do some horizontal attacks and one of them trips your opponent. It's a high, medium and low attack to die for.
- Yunsung's best quick moves are Blade Song for its very quick maneuverings and Vipers Illusion for being quick and deadly.
- All of Yunsung's powerful moves are good but they require timing. For Fire Storm, you have to be far away from your opponent and have them standing still. The best time to do Loin Crush(Hold) is right after someone gets up. While they're getting up, excecute the move. Roaring Flame is the same as Loin Crush(Hold). Once they get back on their feet, they'll be off their feet. And for Wall Dance(Hold), just make sure your opponent stands still.
