| This guide is dedicated to Steve "Psycho_Penguin" McFadden, a good friend |

| get well soon, my friend; and buy that DAMN keyboard. |

Table of Contents

To navigate much easier through this guide, I added the search system, which works just by following these simple steps:

- Highlight the "Section Code" of the section which you wish to go and copy it (CTRL+C).
- Press CTRL+F to bring up the search sub-menu.
- Paste (CTRL+V) the "Section Code" and press ENTER twice to be where you wanted to be. Just like magic!

My Section Codes were made as precise as possible, and I also prefer this method instead of having you scroll 30 min through this huge guide looking for the section you want to go.

This is my very first Character FAQ, and my 11th file uploaded at GameFAQ's. I did it after reading through Huff n Puff 20's Colette Brunel Character FAQ. He/she did a really good job writing the character FAQ for Colette Brunel, since she's one of the hardest characters to play with (along with Regal). I liked this game ever since I played it and, if you haven't noticed, I wrote a complete FAQ for this game.

It's quite large and it's still not finished (only need to complete the lists, I think). It's over 1,100 KB (390 pages if you copy it in Microsoft Word o\_o) and it was my first FAQ ever, so it holds a special place in my heart. Without further adieu, I'll let you continue with the FAQ. Enjoy!

I also have MSN and AIM, but please, if you add me, do NOT start bombing me with IM. If I have the time, I'll chat to you, since I'm always busy writing FAQ's and making some research for my job and school, but please keep it polite, 'k? Anyway, here they are:

The central character of the game, Lloyd was found in the woods with Noishe when he was an infant. He now lives with his adoptive dwarf father.

~~~~~

Lloyd is the main character in the game, and I have to say he is one hell of a good hero, to say the least. He's a very determined young man, although he can be somewhat stubborn, wanting to save everything that he possibly can. He lives in a house near Iselia Forest with his stepfather Dirk and a dog named Noishe, traveling to the village of Iselia with Noishe to see his friends Genis, Colette, and Raine, as well as to "study". Lloyd hates studying and never pays attention in Raine's class, and therefore, isn't the brightest. All the same, he's one of the strongest and most dedicated.

In battle, Lloyd is probably the best character to control. He doesn't have

the highest HP of all the characters, but I'll be darned if he ain't a strong, well-defended, and quick young man. Add to that, his HP is pretty good. While he isn't really that much of a magic user, I guess that that can be understood, being that he isn't an elf. He has some of the most powerful skills in the game, as well as quite the versatile set... starting from his first techs, one is a more normal slash, one is a powerful sword thrust better for ground enemies, one slashes the enemy repetitively with the two blades, one that shoots energy in front of you, and one that hurls through the air slashing. Overall, very good!

~~~~~

Now onto his basic attacks. His attacks are fast, strong and with a rather long-range. Being the male protagonist of the game, he's made to be easily controlled, so you won't be having any trouble controlling him through the whole game (like you're supposed to). His following basic attacks are the following:

- A: Downwards vertical slash with his right weapon
- ^A: Uppercut slashing with his left weapon
- <- ->A: Upward vertical slash with his right weapon
- vA: Thrusts his left weapon

All of Lloyd's Techs will be written down here in this section. Make sure to read the following before continuing with the Techs, ok?

- Basic Techs: These are the basic techs that you learn by leveling up, no matter what happens.
- T-type Techs: You have to be T-type. You learn these after leveling up and after a certain basic or T-type usage.
- S-type Techs: You have to be S-type. You learn these after leveling up and after a certain basic or S-type usage.
- Advanced Techs: You can be either T-type or S-type. You learn these by leveling up and after a certain basic and T-type/S-type usage. Example: Demonic Thrust. Requirements: All Demon Fang and Sonic Thrust x50. This means you have to use Demon Fang and Double Demon Fang/Fierce Demon Fang (any of these, since you can't have both) 50 times, but you also have to use Sonic Thrust and Hurricane Thrust/Super Sonic Thrust also 50 times. You got that? I hope so.
- Special Techs: You learn these Techs throughout the game.
- Secret Techs: You'll be able to use these after meeting certain requirements. Check them for more info.

## 1. People

- Huff n Puff 20: For inspiring me doing this little Character FAQ with his Colette Brunel Character FAQ. Also, for knowing what to write about the character. Thanks Huff!

This is it. My very first Character FAQ is complete and ready for you guys. I still have some work to do with this FAQ but, like I said in the Latest Update, I started this the same day I finished the first version. I'll be adding more info of the Techs, as well as the combos, so, be patience.

The following is a little list of the order of my FAQ's and my future ones.

1. Tales of Symphonia (GCN)
2. Jericho (360)
3. Tales of Legendia (PS2) [In progress]
4. Tales of the Abyss (PS2)
5. Devil May Cry (PS2)
6. Tales of the Abyss Enemy Database (PS2)
7. Jericho Monster List (360)
8. Jericho Achievements (360)
9. Castlevania: Portrait of Ruin (DS) [In progress]. Co-writing the guide with another good friend of mine, Steve "Psycho\_Penguin" McFadden.
10. Metal Gear Solid 3: Snake Eater [In progress]
11. Lloyd Irving Character FAQ [This one, and in progress]
12. Kingdom Hearts II (PS2) [Future Guide]. Co-writing it with a great friend, Richard "Gbness" Beast.
13. Pok騫emon Crystal (GBC) [Future Guide]. Co-writing it with Cory "Mighty Oracle" Winstead, another good friend.
14. Devil May Cry 3: Dante's Awakening (PS2) [Future Guide]
15. Devil May Cry 3: Special Edition (PS2) [Future Guide]
16. Dragon Quest VIII (PS2) [Future Guide]. Maybe co-author the guide with Psycho\_Penguin.
17. Mega Man X4 (SNES) [Future Guide]
18. Mega Man X2 (SNES) [Future Guide]
19. Golden Sun: The Lost Age (GBA) [Future Guide]
20. Mega Man X8 (PC) [Future Guide]
21. Castlevania: Dawn of Sorrow (DS) [Future Guide]
22. Silent Hill 3 (PC) [Future Guide]
23. Legend of Dragoon (PSX) [Future Guide]

That's one long list, lol. From number 17 onwards, I'm still unsure. I work at a restaurant, go to school in the morning and own a theater along with my 3 best friends almost brothers (they are actually the only ones I can call real friends, and I also thanked them). If time lets me, as well as God, I'll write them down.

I'll try to write down a Character FAQ for every other character of the game (except Colette for obvious reasons), so wish me luck with that, and remember, if you want to send me your strategies, please do so.
