LITTLE WARNING

I will not add CAW (Create A Wrestler) to this guide, why? because if I do, and someone will probably send me an email and flame me, saying something like "This isn't Shawn Michaels' special/move/punch/kick etc". Please make a website and maybe I will link to your CAW site. DO NOT SEND ME AN EMAIL THAT IS CAW RELATED

Version History

Aug. 21, 2002 I have not yet have anything else to add to this guide, so, Version FINAL this is the final version and don't expect anything else to be updated in the future, because I'm about to sell this game.

July 5, 2002 Another fellow told me that one of the wrestlers who doesn't Version 0.9 have his real theme music, and he is Tajiri.

June 25, 2002 A person told me that Ric Flair's theme is his old music from Version 0.8 his stint in WWF in 1991

June 19, 2002 Guitarist6000 told me that Stacy Keibler doesn't have her real Version 0.7 theme music. DinoDerek5 told me another way to win a ladder match. ZDaWg2k1 sent me a way to UNLOCK the Royal Rumble 2001 arena, I had some people sending me a email on how to unlock it, well, here it is.

=====
Modes
=====

There are many different modes in this game, I have listed all of them in the list below and added a little description next to each one of them.

*Exhibition

*This is where you'll be in most of the time besides Path of a
*Champion. This mode has Single, Tag, Handicap, Triple Threat,
*Fatal 4 Way, Battle Royal, and Royal Rumble.

-Single

two wrestlers goes against each other in a match

-Tag

get a partner and go against two other wrestlers in a match

-Handicap

2 on 1, pick a partner to beat down an opponent

-Triple Threat

-1 on 1 on 1

-Fatal 4 Way

1 on 1 on 1 on 1, or iun another word, 4 wrestlers face off against each other.

-Battle Royal

4 wrestlers facing against each other, but you have to pin all 3 opponents to win.

-Royal Rumble

30 wrestlers competing against each other, to beat your oppoent, you have to send them out of the ring.

There are several different match types for each of these Exhibition modes, except for Battle Royal and Royal Rumble.

-Normal Match

Just a regular 1-on-1 match.

-Hardcore Match

Anything goes in this type of match, including weapons

-Cage Match

The only way to win this match is to CLIMB out of the cage, but you are better off weaken your opponent first.

-Hell in A Cell

-Its a cage, but the roof is added, so you can't climb up the cage and escape, the only way to escape is to Irish Whip your opponent through the cage wall.

-Ladder Match

I didn't see the point of this match until I saw a belt suspending high above the ring. Beat your opponent down and set the ladder up in the middle of the ring and climb up on it to grab the belt!

-----EMAIL FROM THE GAME68996

an easy way to win the ladder match is set the letter up in the ring then go down to the titantron and hit your player with a move then run back to the ring and go up the ladder to win.

PS: when the wrestler try's to get u, earl hebner get's in the way and the

wrestler can't run to get to u!

-----EMAIL FROM DINODEREK5

I have found it is easiest to win a ladder match if you let the CPU player set up the ladder and climb it. You begin climbing at the same time on the other side of the ladder. Punch the opponent off the ladder to the ground and you will be left on top to grab the belt.

-Table Match

To win this match, you have to knock your opponent through the table, after you set the table up, that is.

-----EMAIL FROM JASON

I read your page of tips for the game to see if you had any create-a-wrestlers. I don't have any yet myself, but i have found the easiest way in the world to win a table match. This will work in a single, triple threat, or any other table matches in the game. All you have to do is take an opponent to the anouncer's table and perform a move to mash them through. It counts because...
IT'S A TABLE!!!

-----EMAIL FROM MIKE

An alternate easy way to win a table match is to prop the table up in the corner, and irish whip your opponent into it. Then do a running at tack into them and he or she will go through the table and you will win. Thanks.

-TLC Match

Tables, Ladders, and Chairs! Oh My! Lay the smackdown on your opponent with chairs and tables, and set up the ladder to reach the belt suspending above the ring.

-Ironman Match

the point of this match is to pin your opponent as many times as you can WITHIN the given time limit. The wrestler with the most points wins.

*Path of a Champion

*You are a wrestler and you have to challenge and defeat all opponents to
*climb higher in ranks and win each belt title such as Heavyweight, Hardcore,
*Intercontinental, European, Light Heavyweight, and Tag Team. You can unlock
*a wrestler by beating each one of these titles. Here is the list:

Chris Benoit	- Win the WWE Undisputed Championship
Raven	- Win the WWE Lightweight Championship
Rhyno	- Win the WWE Hardcore Championship
Ric Flair	- Win the WWE European Championship
Stacy Keibler	- Win the WWE Tag Team Championship
Vince McMahon	- Win the WWE Intercontinental Championship

*Battle for the Belts

*Like what it said, but you get to create a custom belt and face off against
*your friend to win the belt, or if your friend has the belt, you can pummel
him down to win the belt. There are 3 different modes and they are Title Shot,
Unification Match, and Champion Belt.

*Create a Superstar

*Like what it said again, create a superstar, you can make him more stronger
*and better than Stone Cold or The Rock, or make him the weakest wrestler ever
*to be on the roster.
