

Despite the fact that the game consists of four button presses and offers the depth of a pancake, it's oddly always been one of my favourites. So, this, my friends, is an incredibly short guide for an incredibly short game. Ideally, you'll use it to have yourself some indicator-free fun in Hard Mode.

Cheats and Codes                                     03.00
=====
```

=== Alternate Title Screen ===

Highlight 'Players' in the option menu and press the start button.  
Re-enter the options menu and highlight 'Players' again, then enter: A, A, A,  
A, C, A. The title screen will now display 'Road Blaster FX,' and 'Options'  
will now be known as 'Config.'

=== Debug Mode ===

Highlight 'Players' in the option menu and enter: C, C, C, C, C.  
During gameplay, press A+B+C.

=== Demo Mode ===

Highlight 'Players' in the option menu and enter: A, A, A, A, A, B.

=== Enable Pause ===

Highlight 'Players' in the option menu and enter: A, A, A, A, B.  
The game can now be paused by pressing the start button.

=== Level Select ===

Highlight 'Players' in the option menu and enter: A, A, A, A, A, A.

=== Level Skip ===

Enter the 'Enable Pause' code, then go back and enter the following in the same place: A, A, A, A, B, A. Pause the game and press C to skip levels.

Frequently Asked Questions

04.00

---

=== Questions About Cheats ===

Q: Why are the cheats so damn hard to get working?

A: Because Wolf Team hates you. Most of the cheats are notoriously difficult to get to work, even the really simple ones can seem almost impossible to get working - but they certainly do work. It just takes patience.

=== Questions About This Guide ===

Q: Can I use your guide on my site?

A: As of this moment, no you cannot host my guide. Why? Because I believe that the number of sites that 知 allowing to host this guide is enough, enough to keep track of and enough to provide adequate distribution to you, the wonderful FAQ-reading public.

Q: I have this guide, would it be okay if I used a part of yours?

A: \*Chokes\* part of mine? What would be the point of that? You can use my guide as reference for all the things that I can 准 own (i.e. facts), but you can 准 go lifting entire paragraphs, even if you credit me for it. Just read the copyright notice at the top of this guide, and then think twice before 'borrowing' anything from me.

Q: If I've found something that you were too stupid to include, or something that you've missed, what should I do?

A: You could take it, turn it sideways and shove it... \*ahem\* just drop me a line and tell me in exact detail as to what it was that I screwed up on or missed out. If you can help me to make this guide more accurate, you 值1 win a cookie, a kudos cookie (great on calories, lousy on taste).

Credits and Outro

05.00

---

Yeah, we're at the end of the road already. Much avenging has been done, the car is dented and in the shop for the foreseeable future, and as always, I encourage your comments, suggestions, and your thoughts on things (y'know the kinda things). You've been a great audience - just make sure you don't forget to turn off the lights on the way out.

=== Special Mentions and Thanks ===

The layout of this guide is based upon the layout used by Dalez in his Breath of Fire IV guide [<http://www.gamefaqs.com/features/recognition/2741.html>].

If for some strange reason, you would actually like to thank me, feel free to pay me a visit and leave a comment [<http://mikepenance.tumblr.com>] and pledge to serve as my vassal - too far? Well, just sign it and leave out the "serving me for all eternity" bit (if you like).

-----  
No, Mr. President, they have no idea of my true identity. Yes, Mr. President, it all went according to plan. Shall I continue with the second phase of the operation? Yes, sir, understood.
