= = = = =

****One Fall****

As the name implies, a One fall match is simply one man versus another man, and the only way to win is by pinfall or a countout. You can only perform illegal moves (choke and eye gouge) when the referee is knocked out or you are on the outside of the ring.

****Brawl****

Similar to a One Fall match, the difference is you win by beating your opponent into oblivion. The first person to lost all of their energy loses. Anything goes in this match.

****Cage Match****

The ring is surrounded by a cage. The first one to exit the cage wins.

****Tournament****

The road to become the WWF Heavyweight Champion. You must defeat all other 19 superstars in a series of One Fall matches. If you win, you get a special video for your superstar.
