i. Introduction  
=====

Hello and welcome to my FAQ for European Club Soccer (also known as World Trophy Soccer and J-League Champion Soccer in other various parts of the world) for the Sega Genesis system. This FAQ will cover how to play this game, as well as give complete squad details and secrets in the game. Please note that as I am English, this FAQ covers the PAL port of this game, so there may be some major differences between Japanese and American ports of this game as this looks strictly at the various European football clubs and cup competition. This is one of my all-time favourite football games from childhood on which I clocked many hours, and is a great Genesis pick-up-and-play game. Once you get used to the controls and play style, you'll love it. If you're into old-school footy games, you should try this!

Simulation Mode  
-----

In this mode, up to 8 players can take part in the European Cup. All players will take it in turns with the use of one or both controllers plugged into the Genesis system to play their matches, while the CPU will control all teams not controlled by any players in the competition. Now, once your tournament is all set up, let's look in a little bit more detail at the competition structure:

When in the European Cup Menu, you can view all teams entered as each round progresses, and which teams will face each other. Here is an example of the layout of the European Cup:

All matches (bar the Final & World Club Cup Final) are played over 2 legs, on a home-and-away basis, with the final aggregate score (summed score over the 2 legs) determining the overall winner and who advances into the next round. The European Cup and World Club Cup Finals are played in a neutral venue, over 90 minutes. The winner wins the European/World Club Cup.

In a deciding game is deadlocked at full-time, the winner is determined in a best-of-5 penalty shootout. If the two teams are still equal on penalties scored in the shootout after 5 penalties each, it goes to sudden death.

Arcade Mode

-----

In this mode, one or two players play a one-off exhibition match. After selecting this mode, you are taken to the controller screen. Press Start on the controllers to enter them into the game. If P1 presses Start, P2 has a 5-second countdown in which to press their Start button as well, otherwise, the CPU controls the opposing team. If you are just having one player play, you can hold A, B or C to hurry up the countdown.

Next, you are taken to the team select screen. P1 selects their team from the country/club icons in the top-right corner, while P2 picks theirs from the

bottom-left corner (if there isn't a second player, P1 can choose their opponents from here). Here's a little diagram of what the team select icons look like:

```

O(COUNTRY NAME)O  Press Up or Down to move the cursor (denoted by the 'O'
[ ] [ ] [ ] [ ] [ ] marks) to highlight a country, or the various football
  /_/_  \ \      clubs of that country. While a country is highlighted,
  |/_/_/ |      press Left/Right to move between other countries. While a
  |\_/ \_|      club is highlighted, press Left/Right to pick between the

| Formations |  
o-----o

When you've picked your teams, before starting the match you can pick your formation layout. There are six to choose from, and here's a brief rundown of each:

- 4-4-2 - The standard formation used in football. A well-balanced system of defence, midfield and attack. Good to use pretty much anytime.
- 4-3-3 - The formation invented by Alf Ramsey for his "Wingless Wonders" England team that won the 1966 World Cup (sorry, had to get that in there :) - a more attack-minded but still well-balanced formation.
- 4-2-4 - Solid attack and defence, but can leave big gaps if players go up from defence to join the build-up, or if attackers drop back to join the midfield. Better against defensive playing teams who use 1-3-3-3 or 5-3-2.
- 1-3-3-3 - The "sweeper" system that balances the team out across the field, but the sweeper player can act as a second last line of defence.
- 3-2-5 - Like 4-2-4, only one player less in defence and one more in attack if your aim is to try and get goals-a-plenty from all sides of attack. Good to use against 5-3-2 or teams who defend more.
- 5-3-2 - The strongest defence but less of a midfield so it'll be more of a task when it comes to build-up play. Still, handy to keep your opponents at bay when they attack.

- Minutes Elapsed: Shown in the top left corner of the screen, how many game minutes have elapsed in the current half you are playing. There are 45 minutes per half.
- Players' Scores: Shown in the top right corner of the screen. In Simulation mode, when in 2-legged matches, an aggregate score appears in brackets below the normal score.
- Highlighted Player: Shown by an "X" underneath the player that is currently controlled - the X is white when you have possession of the ball, grey when you aren't in possession. The name and number of the player currently in possession will also show up at the bottom of the screen.

2.1. Controlling the Players

[0201]

Open Play

You control the player nearest to the ball - they are marked with an "X" underneath their body. When you are not in possession (defending), the X will be a grey colour. When you get possession (usually through a slide tackle or a contact tackle done by running into the player with the ball), the X is white. To control the direction of the run of the selected player, just use the D-Pad. Other controls are performed as follows:

- \* Header: Press the C button when the ball is in the air above the head of the selected player.
- \* Shot: When in possession, press B (low shot) or C (high shot). The longer you keep the button pressed before releasing it, the more powerful, but less accurate, the shot.
- \* Slide Tackle: When defending, press B and a direction when running at the player in possession. Remember, only use this when ABSOLUTELY necessary to win the ball, as you may get cautioned or booked/sent off if the tackle is miscued.

Goal Kicks

When a player puts the ball out of bounds over the opposing goalline, this results in a Goal Kick. The CPU-controlled Goalkeeper always automatically takes these kicks.

Corner Kicks

When a player puts the ball out of bounds over their own goalline, the opposing team is awarded a corner. The ball is placed at the corner flag nearest where the ball went out of play. When you are taking a corner, the dead ball aiming cursor will appear, which looks somewhat like:

```

_ .--+-._ Just aim the cursor at where you want to aim the ball, and press B
(-      -) or C (to fire low/high respectively), and try to get a volley or
`--+-` header towards goal. Remember to try outswinging corners and not go
near the goalie, as they'll always get an easy catch.
    
```

Free Kicks

Whenever a player is fouled, their team gets a free kick. Like the Corner Kick

method, aim the cursor and shoot. If close enough to goal, you can go for a shot (holding C for a couple of seconds I find works best), but if further out, try tapping C and go "Route 1" by getting a player further upfield to try and head it in.

#### Penalty Kicks

-----

When a player is fouled in the opposing penalty area, they are given a penalty kick. To take penalties in this game, just hold the direction on the D-Pad where you want to aim at the goal, and press one of the two shot buttons. I find it's more luck than skill to get these in, so just go for it and hope it's not saved or hits the goal frame.

#### Throw-ins

-----

When the ball goes out of bounds over the sideline, the opposing team to that of the last player who has contact with the ball, gets the throw-in. Aim the cursor to the location where you want to throw, and press C.

#### Yellow/Red Cards

-----

If a player slide tackles an opponent and fouls them, they may be given a yellow card (held up by the referee if they are called over). If the same player commits another foul in the same game, they are given a red card and are sent off for the remainder of the game, reducing their team down by a man.

#### Substitutions

-----

There are four substitutes available for every team in the game (they have no specific playing roles, they'll just go into the position of the player they are substituted for). To make a substitution, here is the procedure:

1. Pause the game to bring up the Pause Menu, highlight SUBSTITUTE, and press Start.
2. You'll see four little red dots and a football cursor appear in the lower-left corner of the screen, which look like so:

OOOO The left circle brings on player number 12, the second-left circle \* brings on player number 13, second from right circle brings on player number 14, and the very right circle brings on player number 15. You are allowed to make two substitutions; select the player(s) you wish to bring on with the use of Left/Right on the D-Pad, and making your selections with the C button. When you are done, press A to return back to the match.

3. The next time the ball goes out of play, your substitutes are ready to come on, and the names of two players currently playing appear in the bottom-left corner of the screen, with the two flashing substitute circles:

ALAN CLARKE    Press Up/Down to change the first player (in this example Alan  
STEVE MORAN    Clarke) you wish to bring off. Press Left/Right to change the

0000 second player (in this example Steve Moran) you wish to bring  
\* off.

When you have done so, press C, and the two substitute names appear in place of the two players you have decided to bring off:

CLIVE MOUNTFIELD So, as seen in this example, Clive Mountfield and Neil  
NEIL HARRAP Harrap will come on in place of Alan Clarke and Steve  
0000 Moran respectively, and will take their places on the  
\* field. The game resumes thereafter.

---

2.2. Pause Menu [0202]

---

CONTINUE: Resume playing the match.

ACTION REPLAY: Lets you watch looped footage of the last 5 seconds of the match.

SUBSTITUE: Make a substitution for up to 2 players (there are 4 substitutes on the bench).

QUIT MATCH: Quit the match. Be warned, you lose by forfeit if you select this option.

Quit a Match and Still Win  
-----

Q U I T T E R - From the main menu, select "SIMULATION", then "ENTER  
- - - - - - - - PASSWORD". In the Password Screen, enter "QUITTER" in the top

- - - - - row, as shown in this example, and confirm the password with  
- - - - - the c button. Now, when you play a game, press Start to pause  
- - - - - the game and select "QUIT MATCH", then "YES". Normally, when  
- - - - - you quit a match this way, a forfeit scoreline is given in  
- - - - - favour of your opponents; however, when this password is put  
- - - - - in, the scoreline will favour your team instead! You can use  
- - - - - this cheat to quickly advance through the European Cup  
- - - - - competition, but note: this cheat DOES NOT work in the  
- - - - - European Cup Final.

#### Strong Shots

-----  
T H R E E - - - From the main menu, select "SIMULATION", then "ENTER  
S H R E D D E D PASSWORD". In the Password Screen, in the top three lines,  
W H E A T - - - enter the words "THREE SHREDDED WHEAT", in the same way as  
- - - - - the example shown here. Confirm this password, and now when  
- - - - - you play a game, holding down B or C will produce shots that  
- - - - - will put much more power and distance on your shots, making  
- - - - - scoring long-range goals much easier.  
- - - - -

#### View Credits Screen

-----  
C R E D I T S - From the main menu, select "SIMULATION", then "ENTER  
- - - - - PASSWORD". In the Password Screen, enter "CREDITS" in the top  
- - - - - row, as shown in this example. Confirm with C, and this will  
- - - - - take you to the game's ending screen (also seen when you win  
- - - - - the Club World Cup final match) and you can view the credits.

It may not be placed on any web site or otherwise distributed publicly without advance written permission. Use of this guide on any other web site or as a part of any public display is strictly prohibited, and a violation of copyright.

As of 2012, only the following web sites have my permission to host this file, free of charge:

- <http://faqs.ign.com/>
- <http://www.lup.com/>
- <http://www.gamefaqs.com/>
- <http://www.honestgamers.com/>
- <https://www.neoseeker.com/>
- <http://www.supercheats.com/>

Only these web sites may host my current and most up-to-date work. I am aware

that older FAQs written by me prior to 2012 may also have other web sites stated as being authorised to host my work, and I will continue to allow them to do so, so please do not contact me about it. However, I am only able to keep tabs on my work for so many web sites and due to limited personal time, I have now kept this list comprised to those above for anything I have written as of 2012 and later. If you find a copy of this file on a web site that is NOT mentioned in the list above, it is being hosted against my permission and is therefore violating copyright law. Please contact me if you notice this.

This document, as well as any and all of my other works, is NOT, and NEVER will be permitted to appear at Cheat Code Central (<http://www.cheatcc.com/>). Dave Allison, the webmaster of this particular website is notorious for stealing FAQs and guides from countless authors and hosting them on his own web site, often altering disclaimers to appear as though his site is permitted to host it, and removing GameFAQs and other reputable web sites to make it look like they are not! This is a severe violation of copyright law and authorship rights and has been going on for the best part of the last decade, if not longer. If you have written any FAQs of your own and are asked by this web site to host it, I would personally advise you to politely reject the offer (as accepting would be indirectly supporting FAQ theft), but occasionally check the web site to make sure none of your work has been stolen/altered and posted there.

All information contained within this file was written by myself, or for any information taken directly from other sources, whether reworded or kept intact, are also clearly acknowledged within this file. If you are writing any literature related to this game, such as an article, review, or even an FAQ or your own and would like to use any small pieces of information from this file, feel free to do so as long as you clearly credit me for what you used. Failing to do so is plagiarism, and again, a violation of copyright law.

Contacting Me

-----

For questions, suggestions, comments or useful information pertaining to this file or any of my other video game-related literature, please email me at the address: [rjhgamefaqs\[at\]gmail.com](mailto:rjhgamefaqs[at]gmail.com). Please make sure that what you are contacting me regarding is not already contained within this FAQ. Please make sure to read the FAQ thoroughly to make sure any questions haven't already been answered. For quick navigation, press Ctrl + F on your keyboard and type in a keyword, this may help. Any useful information sent to me will be included in a future update, with full credit given.

Thank you for reading my FAQ, and please feel free to read any of my other video game-related literature, which can be found at:

<http://www.gamefaqs.com/users/RJHarrison>

This file is dedicated to the memory of four late GameFAQs users, each of whom passed away well before their time. Chris MacDonald (d. May 17, 2004), Elliot Long (d. August 27, 2004), Mitchell Lee Stuekerjuergen (d. January 4, 2006), and Steve McFadden (d. June 28, 2011). The latter was one of my closest and dearest friends whom I had met through GameFAQs, and was one of the most well-known and prolific contributors to the site. Steve was an inspiration to myself to take up video game writing and always took the time to speak to me online about gaming or other interests, as well as comment on my writing. Rest in Peace guys, you will all be dearly missed.
