****One on One****

As the name implies, a one-on-one match is simply one man versus another man. There are three sub-options for the one-on-one match. A one fall match is a regular match. A brawl is a match where the first person who loses all of their energy loses the match. A tournament is a series of matches for the WWF World Championship Title.

****Tag Team****

In a tag team match, a 2 player team will be competing against another 2 player team. Only one man may be in the ring at one time from each team. The team members may switch who is in the ring by tagging their partners. There are three sub-options for the tag team match. A one fall match is a regular match. A brawl is a match where the first person who loses all of their energy loses the match. A tournament is a series of matches for the WWF Tag Team Championship Titles.

****Bedlam****

Similar to a tag team match, a bedlam is 2 player team competing against another 2 player team. The difference is that both members of the teams may be in the ring at the same time. The match is ended when both members of a team have been eliminated. There are three sub-options for the bedlam tag team match. A one fall match is a regular match. A brawl is a match where the first person who loses all of their energy loses the match. A tournament is a series of matches for the WWF Tag Team Championship Titles.

****Survior Series****

Similiar to a tag team match, a survior series pits a 4 man team against another 4 man team. Only one team mate may be in the ring at one time from each team. The team members may switch who is in the ring by tagging one of their partners.

****Royal Rumble****

This match involves all 12 members of the WWF Raw roster. One by one a wrestler enters the ring. The wrestler must be thrown over the top rope to be eliminated. The last person in the ring is declared the winner.

****Raw Endurance Match****

A raw endurance match is a mix between a royal rumble, survior serious, and a bedlam. The player picks his first wrestler then up to five more partners. However, the choosing of partners is optional. You can go in solo, a 2 man team, a 3 man team, etc. When one team is completely defeted, the other team is the winner.
