                               INTRODUCTION
===============================================================================

Looks like this NES FAQ completetion thingy is going very good. This will be my
third NES FAQ. Well anyways, I have never wrote a guide for a racing guide (oh
by the way, my name is Matt Ludwig) for any system so this one is a little bit
difficult for me but for some reason I chose this FAQ to write. This will not
be a guide since I really cant write for this game. Anyways, I'm going to try
my best to write a FAQ for this game so stay with me here.

                                 CONTROLS
===============================================================================

Now the controls in this game are quite simple. There are only 2 push buttons
to use (oh wait, there always is *smacks head*, oh well) and then the
directional pads. Now so lets state them.
