Table of Contents

- 1. - Controls
- 2. - Walkthrough
- 3. - Items

1. - Controls

- D-Pad - Moves the car.
- A - Shoots your gun.
- B - No use.
- Start - Pauses game.
- Select - Chooses missiles and missile settings.

2. - Walkthrough

To beat the game you will have to beat it on the hardest difficulty and then beat it again.

San Diego:

Kill as many people as possible and drive straight down to the bottom right corner. Get the flag there and go back to where you started. There will be an open tunnel, use that to finish the level.

Phoenix:

Go down immediately and in between the big blocks. Just get the flag after those blocks and go to the tunnel that opens. The tunnel is a little farther down on the left wall. Go to the left of that lake.

Denver:

Just go in the direction you are looking in and stay on this road. Make the

turn going down with it and after the second big block on the left, grab the flag. Now go directly to the right and grab that flag. Now go to the very top right corner and go through the tunnel.

Houston:

Go to the far right. In the right corner will be a wall in the shape of an "L." In the corner of the L on the inside will be the first flag. Grab that and get out of that small area. Now go to the complete opposite corner of the city. Go to the bottom left and around that pond. Now go up the wall a little further and the tunnel will be in the middle of the left wall.

New Orleans:

Go forward and then down to get around the wall. On the other side of the wall, there will be the first flag. Go down to the road now and go to the right. At the end of this road by the turn will be the other flag. Now go back to the bottom left corner and there is another flag there. Now go back to where you started and go down a little from where you started. The tunnel will be in the middle of that wall.

Chicago:

Go left and down to get out of this tight area just like New Orleans. Go up a little bit and go right. The first flag will be behind a big rock. Go straight down from there and near the bottom will be the second flag. Now you have to go left and up and to just south of where you started from. Grab the flag and go back to where you started in the upper left corner of the city and go through the tunnel.

Raleigh:

Go up and right to get on the road. On the road will be the first flag. Go down and right now so you will be in the middle of the right hand wall. The next flag will be right there. Now go down and left so you will be near the middle of the bottom wall. Go in between the two walls and get the flag. Now go to the left and in the bottom left corner you will see the tunnel but you can't go in yet. Go up and the last flag will be up in the middle of the left hand wall. Now go back to that tunnel and get out of there.

New York:

For the first flag, just go to the right. You will have to make a very slight turn going down when you get to the flag though. Now go immediately down from the flag and go on the road when you reach it. Go up on the road and at the end of this road will be a flag. Go a little further down now and in the bottom right corner will be the next flag. The last flag will be in the bottom left corner. Grab that and go back to where you started for the tunnel.

3. - Items

Buy:

Guns	Cost	Bonus
Acme	500	7/10
Gatlin	1800	9/20
Spandru	3000	12/15
Uzi	4000	16/5

Engine	Cost	Bonus
Turbo	1000	5/7
Nitrous	2200	12/5
Nuclear	4500	15/11
Fusion	7000	18/13

Chassis	Cost	Bonus
Kilady	20000	12/10
Catspaw	25000	14/15
Panther	30000	13/28
Pitbull	40000	16/35

Tires	Cost	Bonus
Cutters	200	8
Bashers	300	10
Slicers	600	14
Dicers	1000	17

Missiles	Cost
Shell	100
