Now go to the right and convert all of the enemies. Grab the questions and pick up the staff. Now go to the exit square just above you.

Now go down and speak the word of God to the red blocks. That will change the blocks and they will give you omers of manna when you get rid of them with your staffs. Just keep doing that and around the left half will be a hidden Bible question. Grab all of the omers of manna here and also the ten

staffs in the very bottom left corner.

Now don't get rid of all the red blocks, go to the right while there are still a few left. Now try to knock out everything on this half to grab all of the hidden items. Go back to the red blocks and speak the word of God to them again. Get rid of them with the staff when they have hearts on them and grab all the manna you need. When you get enough to get out of the level, go to the right half. It will be in the bottom left of the right half. It sounds confusing but if you look in the right area you'll find it.

-----  
Level 16  
-----

Code : 0016

This level is really straight forward. Just grab all of the omers of manna as quick as you can. Make sure not to get crushed by anything because everything in the left half can crush you except the items you collect. Also try to grab the omers of manna quickly before the stones crush them. When you collect as much as you can, go to the right. Grab all of them here but you could take your time because they won't get crushed. Now go to the exit square which will be at the top of this area.

-----  
Level 17  
-----

Code : 0017

Go straight to the right without stopping. At the end quickly go up. Don't let the omer of manna or bricks fall. If the bricks didn't fall because Moses is blocking them, you did it right. Let everything fall and do the same thing going to the left. Now keep doing that until you reach the open area. Grab the three staffs and use all of them on the same block on the top. Try to wait and kill the enemy with the staff, it will take three to take both the enemy and blocks out.

Now go up and grab the omers of manna. Also grab the two hidden bible questions in opposite corners here. Now go to the right but you have to do this quickly. Get rid of the doubting God and get under the blue object. If you don't get under it or past it, you won't finish the level. Push the calf and try to get the enemy walking around with it. Now speak the word of God to it and go all the way to the left.

Now go down and get out of the path of the falling object. Go up the side you didn't go through yet and quickly go back down it. Go right at the bottom and get rid of the murmurings of Israel. Quickly go right to get past the next object too. Go up along the omers of manna and quickly run down when you get them all to avoid the falling stone. Go back up and grab the three staffs.

Go back down near the brick. Destroy it using two staffs and grab the bible question. Now go to the right and get rid of the murmurings of Israel that is the highest. There will be a hidden Bible question there. Grab it then go to the right into this area. Grab all of the omers of manna and just avoid the enemies running around, it's not hard at all because they all make the same movements. Now go back down and left to the exit. Push the object out of the way and quickly go into the exit square.

-----

Level 18

-----

Code : 0018

Go up and push all of the stones off to the side. Now go up and grab all of the omers of manna. Go through the rest of the path grabbing the omers of manna. Now push the stone to the far left, as far as you can. Push the other obstacle to the right and destroy it. Keep doing that until you reach the top.

Now do NOT grab the bottom row of manna here if you won't finish the level. Go along the top and push the calf as far to the left as you can. Destroy it and grab all of the manna here, even where I told you not to before. Now go back down and to the right. Go down to the two omers of manna above some bricks. Now go back up and push the calf that is on the left onto the bricks. Destroy it then go back to the very top.

At the VERY top, go to the right and push the calf on the bricks. Destroy the other calf so you won't get caught in the explosion. Now go to the right and push the calf over there to the left and into the bricks. Destroy it then moved the calf that you couldn't reach before. Move them onto the two bricks on the bottom and destroy it. Go down there and get all the omers of manna.

Now get back out and to the right. Grab the bible question in this area. Destroy the left most calf here. Grab the omers it opened for you. Now destroy the next left most calf and grab the manna here. Push the lower calf to the left and down the hole. Now push the higher calf off to the left. Now push it to the right on top of the other calf. Destroy it and grab the rest of the manna. Now go back to the very top left and push the stone up there to the LEFT. -----  
Level 26  
-----

Code : 0026

Go straight up and you will reach three hidden staffs. Now get rid of the doubting God and the murmurings of Israel above you. Just get one of the bricks to land where you started the level so none of the enemies will touch the blue object and become more powerful. Now go to the top section and go into the top left corner. There will be a hidden Bible Question there. There will also be another one in the top right corner.

Now go down and there will be two walls in the middle of this section. Get rid of the doubting God just two blocks to the right for three more staffs. Now just continue through the path to the right. You will get frozen at the top so make sure there aren't any enemies near you. Now destroy all the obstacles at the bottom and one will contain ten staffs. Now speak the word of God to the mud above you and then take it out with your staffs.

Go along the middle of this for some sandals that will allow you to walk on the mud. Don't skip this section though. Just get to the other side so the enemies won't hurt you. Level 27  
-----

Code : 0027

Start out by grabbing all of the staffs in the bottom. Get rid of all the Doubting God and you will find two hidden Bible Questions. Now go up and past the objects. They will never stop coming unless the whole area fills up so try to be quick. You will have to drop staffs near them to keep reaching the top. At the top, go to the right. Use staffs to stop the piece they keep coming from but they will never get destroyed.

Push the stone when you get a chance. Now go through this huge area of mayhem. This is just annoying because you have to do it quick. You will have enough staffs to do it but you'll have to do it fast. Go down and right at the end. Destroy the calf and go through this path. They will keep falling so keep destroying them. Now go to the right and get everything you need. If you're tired of waiting for them to fall, just stand where they fall from. The exit will be down and to the left.

\*TIP - For a lot of points, you could wait where the omers of manna come from.

Each spare second will give you ten points but each omer of manna will give you one hundred. You will also get about two a second. Just keep doing that until there are about five seconds left and then go to the exit. Just make sure you know where the exit is before you do this.

Let it get to the very bottom and then destroy it when it's touching the block with the heart on it.

Grab the omer of manna that came out and the three staffs that were there. Go up and grab all of the omers of manna. Let the calf drop and don't destroy it until it hits the ground. Now go to the right and grab the bible. Destroy the left calf and push the right calf next to the blue object. Ten staffs will appear, grab them and go back to the left. Get to where you didn't go yet and destroy the blue objects. Destroy the middle object for a hidden question.

When one of them are destroyed, grab the omers of manna. Now go back down and to the right. Destroy all of the blocks with the hearts on them and grab the manna they drop. The block on the bottom right will have a hidden bible question under it. Destroy the blue object above you and go through this path. Grab everything and don't get crushed.
