Final Fantasy I (Sony Playstation)
100% Omake Guide

Version 1.2 12/27/02

By Red Scarlet (akaiscarlet@hotmail.com)

Version 1.0 12/13/02-Faq Created.

Version 1.1 12/15/02-Initial run of info completed.

Version 1.2 12/27/02-Added some translations for pictures. (Thanks to Boko-kun)

This FAQ is for personal use only. It cannot be altered without the consent of the FAQ's owner (me), nor published in any magazines or any reproduced form. This FAQ is not meant for sale and is copyright 2002 Red Scarlet. If you want to use this FAQ on your Website or page, please email me for permission (akaiscarlet@hotmail.com) Go to www.njstar.com to get the Japanese text to display how it would on the game (or use some other kind of Japanese text viewing program).

This FAQ is for anyone who has Final Fantasy I for the Sony Playstation and wants to know what all is available after getting the Omake Mode open. I assume you already know the game, so there are very few actual strategies in this FAQ. There are already a few at Gamefaqs already made, so view one of those if you need direction on where to go. The newest updates will always be at Gamefaqs.

In pretty much all of the lists, the order of what things are in will be: Japanese Kana that the game uses/romanized version/my translation/name in the US version of FF1 on the NES (if it is different).

Enjoy!

Q: What is Omake Mode?

A: Alright, first of all, the Omake Mode is new to the Playstation version of the game. It is not available in neither the NES/Famicom version nor the WonderSwan Color version. The Omake Mode is just that, a group of extras for the player to see if he or she is able to go through the game in a specific way.

Q: How Do I Open Omake Mode?

A: To open the Omake Mode, hit the Triangle button, then choose fRf`ftfBf0: Konfigu (Config). Once you are at the Configuration screen, select the option at the very bottom, ,",Ü,¯: Omake (Extra).

Q: Omake Mode is Open, But Nothing is There..

A: Of course, if it is your first time through the game, you haven't done anything yet. In order to get stuff to open in the Omake Mode, you have to go through the game. As you fight more monsters and open more treasure chests, their percentages will go up allowing you to open more of the Omake area. Killing a monster allows you to view it's statistics, opening a chest puts it into the Item Collection Rate section, and as more monsters are fought and chests are opened, the Art Gallery will open.

Photograph will not open until you beat the game.

After 'The End' screen appears, you will asked a question with three answers:

- , í, ç: F Hai (Yes)
- , ç, ç, |: F Iie (No)
- , ^, Å, ß, ç: Setsumei (Information)

Choose , í, ç: Hai (Yes), and then save on an empty Memory Card slot.

Note: you cannot save over other game data while saving Clear Data. Make sure you have at least 1 empty slot in a Memory Card.

Once the file saves, above the amount of time taken to beat the game should appear the words fNfÇfAff[f^*: Kureade-ta (Clear Data). Now the game should restart at the intro screen.

Select f[fhfQ[f€: Ro-doge-mu (Load Game), then load up your file with the Clear Data on it. The game will then ask if you want to play in fC[fW[f, [fh: I-ji-mo-do (Easy Mode) or fm[f}f<f, [fh: No-marumo-do (Normal Mode)

*****IMPORTANT*****

If you want to open all options/pictures in the Omake Mode, you have to choose the OPPOSITE Mode that you just beat the game in and saved your Clear Data. If you beat the game first in Normal Mode, choose to play this time around in Easy Mode.

*****IMPORTANT*****

Make your party, then go to fRf"ftfBfO: Konfigu (Config) and , ", Ü, -: Omake (Extra). Four options should now appear.

- f, f"fXf^ [}ŠÓ: Monsuta-zukan (Monster Picture Book) **%
- fAfCfef€ŽûW- |: Aitemu Shuushuuritsu (Item Collect Rate) **%
- fA [fgfMfff% fŠ [: A-togyarari- (Art Gallery)
- ftfHfgfOf%ft: Fotogurafu (Photograph)

Q: How Do I Open Everything?

A: In order to open everything, you must go through the game (Easy or Normal Mode), save your Clear Data to the Memory Card, then load the Clear Data. Start another game on the opposite mode (if you beat the game on Easy Mode, now you must play through Normal Mode-remember..load the Clear Data then choose the opposite mode).

Now go through the game again. Your totals will add up in the new Clear Data. You should have everything IF you killed at least one of every monster in the game, and opened every treasure chest in combination of the first and second games. I repeat, you HAVE to fight EVERY monster in

combination of BOTH files, and open EVERY chest in combination of BOTH files.

What I did was I played the game on Normal Mode, and got 100% of the monsters and 100% of the chests in that game. I then loaded my Clear Data and played through as fast as I could on Easy Mode, and everything opened. (Gotta love my 3:36, 12304 step file ^^).

So I repeat again, you have to fight every monster in a combination of both files, and open all of the chests in a combination of both files (50% first time, the other 50% the second time works; any combination as long as you get all monsters and chest in both of the games put together).

-----New Info-----New Info-----New Info-----

Ok, Boku-kun e-mailed me and said he had 97% of monsters but did get all of the CG art opened after beating the game with both modes (using his Clear Data for the second time through), so you might only need 100% of all monsters to open all of the monster art in the Art Gallery section.

-----New Info-----New Info-----New Info-----

Here are the four options when they are completely filled.

f,f`fXf^`[`]}ŠÓ: Monsuta-zukan (Monster Picture Book)

The Monster Picture Book contains a picture, experience value, Gil value, HP, Attack Power, Defense Power, Weaknesses, and Resistances of each enemy. There are 128 monsters in all.

Please note that it seems not ALL weaknesses are shown, IE: apparently Lich is not weak to fffBfA,¯,¢: Diakei (Holy Power), yet it still works on him. So please note I am including the regular information the game provides in this mode. Any e-mails harassing me that I forgot so-and-so monster is weak/strong against this will be ignored.

Also note that the Experience value is divided between the living members of the party.

While in the list, the R2 button will go down a page, and L2 will go up a page (7 monsters per page). If you are looking at a monster's info, R2 will go to the next monster in the list while L2 will go back a monster.

fA◆[fgfMffff%š◆[: A-togyarari (Art Gallery)

Some artwork is opened as you defeat the monster that has a sketch, some do not appear until after you finish the game. All of the artwork should be drawn by Yoshitaka Amano, but I am only assuming so. If anyone knows any sketches in the Art Gallery section not drawn by Amano, I will gladly credit you.

Hit the R2 button to go down a page, and L2 to go up a page when in the large list screen. While in a picture, O will zoom in and X will zoom back out. R2 will go to the next picture in your list while L2 will go back one.

Some drawings are from other games in the series, but most are from FF1.

Any help with translating/getting the right kanji for these would be very appreciated.

-\E¾,Ì, ,©,µ: Yogen no Akashi (Proof of the Prophecy)

A picture of the necklace worn by the guy in the intro movie.

(Thanks to Boko-kun for figuring out that first kanji.)

EÖ,Æ^Å: Hikari to Yami (Light and Dark)

A picture of Garland's back on the left, and the Knight on the right.

<"G: Kyouteki (Formidable Enemy)

The Red Dragon breathing fire.

fhf%fsf"VSEÖ,İ❖íŽm: Doragon VS Hikari no Senshi (Dragon Vs Light Warrior)

The Red Dragon and Knight facing off.

A shot of the Knight preparing to slice through the Red Dragon's fire.

(Thanks to Boko-kun for figuring out the second half of it and piecing it together).

<C•ª,ö,©,|,æ,¤: Kibun wo Kaeyou (Let's Change our Feeling)

The Red Dragon cruising atop the clouds.

Added by Boko-kun: "Let's drive around and relax/feel better about ourselves." Obviously, nothing feels as good as flying in the air on a dragon's back!

❖ŸŽÖ,Í,ç,Á,¿,¾,Á,½❖H: Shousha ha Docchidatta? (Who will be Victorious?)

Red Dragon on the left, Knight on the right.

If there was a VS in the black stripe down the center you would think you're playing a fighting game.

fuf<[f€[f": Buru-mu-n (Blue Moon)

A nice shot of the night with a purple moon shedding its light
on the land.

,±,ñ,Ç,±,»,ÍI: Kondo Kosoha! (Next Time For Sure!)

The Red Dragon looks up at the starry sky.

Thanks to:

Square, for releasing this game on a system that doesn't use batteries
(which can get expensive when you have no job) and for making the original
game in the first place.

CJayC for hostin' all my faq things.

Boko-kun for the much-needed assistance with the names to some of those
pictures. Thankyou thankyou.

That's it for now, unless I get enough emails about anything else or
any additions/changes. Thank you for reading my FAQ and email with any
questions (akaiscarlet@hotmail.com) or if you just want to talk to someone
about any of the Final Fantasy games, or any other games I have written
FAQ's for.
